

AERVOE INDUSTRIES

Product Catalog I

Industrial, Maintenance, and Construction Chemical Products

*AerVOE Industries Incorporated corporate
offices and manufacturing facility in
Gardnerville, Nevada*

Company Profile — AerVOE Industries is a leading manufacturer of paints, specialty coatings, cleaners, lubricants, and MRO chemicals for industrial use. With a 50-year track record packaging all types of formulations and containers, we are committed to quality chemical packaging and the proper representation, use, and design safety of all products under the AerVOE brand name. Production capacity, quality control, product development, and management experience combined with our operating philosophy helps keep our customers ahead of the competition.

One company with the power of multiple brands. AerVOE Industries is now a leader in providing professional products to the MRO distribution chain.

Mission Statement — “Our customers shall expect and receive products that have consistent quality, reliable performance, and be cost-effective. Product formulas, raw materials, and package forms shall be selected to provide the proper “tool” for the trade professional to do the job right the first time.”

- As a manufacturer we are committed to the highest ethical standards in customer relations.
- A documented price policy that ensures mutual profitability and a long-term partnership with our distributors based on integrity.
- Field sales support based on knowledge and training provided by salaried and dedicated sales representatives
- Operations conducted with maximum responsiveness, efficiency, and focused to the customers’ needs.
- Product development and improvements that define AerVOE as an innovator
- Providing leadership in user product safety and regulatory compliance while maintaining exceptional environmental standards.
- Operating a purchasing program that assures the most reliable supply standards.
- Maintaining exceptional facility housekeeping, safety, and environmental standards
- Conducting employee communications based on pride and respect

These efforts shall yield a knowledgeable and responsive sales force, consistent deliveries of profitable products that meet the toughest environmental standards, and the strength to grow and diversify, maintaining an edge for our customers within our market base.

Customer Service — AerVOE’s experienced, friendly Customer Service Representatives are assigned specific account responsibility to assure consistent, personalized service. Expedient response to orders allows us to consistently maintain one of the best shipping response times in the industry. Close teamwork among Customer Service, Accounting, and other administrative personnel enable the company to maintain the efficiency and responsiveness vital to our customer-oriented business.

Product Management — Product specialists are available to answer performance questions from basic application to complicated formulative issues. These individuals can assist in competitive evaluation problems based on direct experience with product testing protocol. In special situations, product and/or technical management personnel are available for field site visits to assist in problem solving.

Quality Assurance — AerVOE Industries manufactures and packages its own products. We take a direct, one-on-one approach to quality control with a staff of highly trained and qualified full time employees. In-house lab equipment includes computer color matching, accelerated shelf life testing, gas chromatograph analysis and much more.

Environment — AerVOE is the leader in providing quality products that meet the strictest environmental standards as set forth by the EPA, California’s CARB, European Union’s REACH program, and others. We are dedicated to eliminating greenhouse gases and carcinogens from products; and using materials that are produced in the same manner. Toluene and Xylene have been eliminated as a solvent in our product formulations. All aerosol cans are 100% recyclable and create fewer emissions in their manufacturing process. Packaging materials for all products have been reduced (plastic and cardboard) and selected for their recyclable properties. Our state-of-the-art facility meets or exceeds all regulatory, environmental, and safety standards. Jointly, our regulatory department and chemists work to stay ahead of all new regulation so we continue to produce quality, environmentally friendly products and expand water-based “green” product options.

Table of Contents

Paints and Coatings 4
Choice of colors in cost effective solutions for indoor and outdoor applications.

Galvanized and Stainless Steel Coatings 16
Paints that provide the ultimate in protection against rust and corrosion as a primer or final coat.

Marking Products 20
A complete line of inverted marking and coating paints and applicators.

Striping Paint and Applicators 26
Specialty products for striping safety aisles and parking lots with crisp, long-lasting lines.

M.R.O. Products 28
Necessary cleaners, lubricants, and other protective coatings for Maintenance, Repair, Operations.

Mold Specialties 46
High quality mold specialties and release agents for molding operations.

Shipping Essentials 50
Stencil and cover-up inks, and industrial-strength adhesives for shipping and receiving departments.

Utility/Municipality Specialty Products 51
Outside plant maintenance products for utility and municipal applications.

Delivery Systems 54
Applicators from small bottles to giant pressurized tanks make the application of Aervoe products economical and effective.

Other Aervoe Markets 56

Merchandising 57
Retail racks and counter shelves and header cards to display the entire Aervoe product line.

Trade References 58
A succinct dictionary of industry terms and regulations can help you through the alphabetical clutter of purchasing.

Numerical And UPC Product Index 60
Every Aervoe product and container has its own UPC number and they're all listed here.

PAINTS AND COATINGS

Aervoe Paints and Coatings provide quality, cost-effective solutions for every application. Each product offers a wide choice of colors and is formulated for industrial and institutional applications. High gloss, high hide formulas provide superior performance, both indoors and outdoors, and insure uniform coverage in one application. Rust Proof, Supreme Color Shield, Fleet and Engine paint lines include OSHA safety, HVAC, and selected O.E.M. touch up colors. An excellent line of specialty coatings is also available for unique surface applications.

SUPREME COLOR SHIELD™ PAINT

Aervoe's Supreme Color Shield coating is designed to provide superior appearance and color retention under mild or moderate conditions.

- Fast drying. Dries to touch in 15 minutes; dries to handle in 30 minutes
- High gloss, full hide coverage in one coat, with or without a primer
- Durable finish will not crack, chip or peel
- Provides excellent interior and exterior durability
- Ideal for metal parts fabrication, finish coat, and maintenance
- Performs well at temperatures up to 300°F (149°C)
- Not recommended for immersion services

Uses: Steel, metal, aluminum, wood, structural steel, drums, storage tanks, bar joists, steel pipes and railings, racks, conveyors, machinery, equipment, metal doors, ladders, fencing, cabinets, and furniture.

GLOSS COMPARISON CHART

MILD ENVIRONMENTS

Outdoor weathering, mild industrial fumes and normal humidity with mold and mildew conditions.

MODERATE ENVIRONMENTS

Frequent fumes and spills of mild chemicals, occasional product spills, occasional chemical cleaning. Intermittent high humidity, moisture, mold, and mildew conditions.

SEVERE ENVIRONMENTS

Frequent fumes and spills of strong chemicals (acids, alkalis, and solvents), high humidity and moisture conditions. Frequent product spills and frequent chemical cleaning.

SPEED E-NAMEL™

A high quality, fast-dry paint product for today's fast-paced customers. Dries to touch in 15 minutes! Prevents rust. A smooth, professional finish every time! For best results, use with Zynolyte Multipurpose Primers.

- Quick drying
- Rust preventive
- Apply to many substrates from metal and wood to plastic
- Hard finish

USES: Furniture, metal and wood railings, fences, bicycles, hobbies, crafts, plastic and metal garden accessories, cabinets, doors, patio items, wicker, tools, masonry, bulkheads, and thousands of other items.

ZYNOLYTE® SPRAY PAINT

Quick drying, economical acrylic enamels that provide a tough, durable finish on most interior/exterior surfaces.

- Fast-drying, economical paints
- Can be used on a variety of surfaces, interior and exterior
- Ideal for most paint and touch-up projects

Uses: Can be used on wood, metal, aluminum, wrought iron, hard plastic, drywall, etc.

ZYNOLYTE® MULTIPURPOSE PRIMERS

High quality, non-lifting primer coatings for use on surfaces where good adhesion is needed before top/finish coat.

- Fast-drying; dries to touch in 10 minutes
- Tough, sealing primer coat
- Provides adhesion to non-painted surfaces to achieve maximum cohesion of final top coat
- Enhances the quality of any finish
- Bonds extremely well to bare metal surfaces
- Prevents rust and corrosion
- Fills in grain and surface imperfections when used on wood; seals surface

Uses: Metal or wood surfaces, including machinery, railings, electrical motors, presses, shop equipment, shelving, compressors, generators, bicycles, appliances, ladders, furniture, cabinets and automotive body parts.

ZYNOLYTE® SANDABLE SPRAY PRIMERS

Provides a smooth, rust-inhibitive base. This durable automotive primer is best for auto body and parts touchup, either sandable or non-sandable. For best results, use Zynolyte primers.

- Compatible with lacquers, acrylics, and enamels
- Superior sealing and filling properties for metal surfaces
- Use as primer and or finish coat
- Fast drying
- Lead-free
- 100% non-toxic when dry

Uses: Metal automotive bodies and parts.

ZYNOLYTE® HI-TEMP PAINT

Zynolyte Hi-Temp Paint is a flame and heat-resistant coating uniquely formulated to produce a lasting finish that is resistant to very high surface temperatures.

- Withstands temperatures up to 1200°F (538°C)
- Provides a fast drying, hard, durable finish
- Offers excellent rust and corrosion resistance as well as interior and exterior durability
- Designed for use on metal surfaces where excessive heat will cause regular paint to blister and crack
- Once cured, will not chip off, peel away, discolor or chalk

Uses: Engine manifolds, mufflers, incinerators, radiators, space heaters, barbecues and fireplaces, steam pipes, boilers, and furnaces.

ZYNOLYTE® FLUORESCENT COATING

Zynolyte fluorescent coating is made up of fluorescent particles that deliver color four times brighter than other spray paints.

- Available in an assortment of bright Day-Glo colors
- Increase visibility by up to four times; apply over white base coat for optimum brightness
- Provides maximum visibility and safety; total "glo" effect is obtained under black lights
- Can be used for both interior or exterior applications
- Dries to touch in minutes, full cure in 24 hours

Uses: Metal, wood, concrete, steel bars, safety aisle marking, machinery, signs, posters, emergency and safety equipment, OSHA hazards, production equipment, hobby models, toys, bicycles, sleds, and fly fishing lures. Ideal for engineering and survey painting of wood, stakes, and trees.

ENGINE ENAMEL

This fast drying, heat resistant paint is specially formulated to keep engine surfaces from pitting and rusting while maintaining color and a performance gloss finish.

- Specially made for refinishing engines and transmissions
- Withstands temperatures up to 500°F (260°C)
- Fast drying acrylic enamels match O.E.M. standards
- Excellent adhesion prevents rust, pitting, peeling, and checking
- Oil and gasoline resistant
- Provides superior durability and fade resistance under a variety of harsh conditions

Uses: Cast metal engine blocks, transmissions, pipes, radiators, farm and marine equipment, and other automotive and industrial equipment exposed to high temperatures.

CLEAR ACRYLIC COATINGS

Aerove's clear acrylic coatings are made with non-yellowing, acrylic resins that provide superior finish retention over painted and non-painted surfaces.

- Forms a flexible, long-lasting coating
- Non-yellowing formula
- Superior gloss retention, both indoors and outdoors
- Clear film preserves and protects against rust, corrosion, and fading
- Fast lacquer dry; dries to touch in just 5 minutes
- Tough protective coating will not flake, chip or peel

Uses: Metal, motors, machine parts, tools, tool boxes, steel bars and railings, metal hoods, lamps, copper or brass bed frames and fixtures, conduit, ducts, artwork and drawings, and to seal chalk markings.

145 STEEL RENEW

Steel Renew Stainless Steel Coating provides optimum resistance to weather, abrasion and corrosion. Protects metal, chrome, ceramic and copper surfaces.

- Contains 100% 316L stainless steel pigment
- Performs at temperatures up to 350°F (177°C)
- Creates a hard finish that is ideal for metal parts, equipment, and machinery
- Withstands high-pressure washdowns
- Resistant to UV, chemicals, oils, alkalis, food acids, and water

Uses: Structural steel, food processing and packaging equipment, metal parts, industrial equipment, tools, trailers, tanks, towers.

ROOF ACCESSORY & TRIM PAINT

This specialty coating is formulated for exterior use on roofing accessories. Provides long term protection against rust, corrosion and discoloration on roofing accessory materials.

- Excellent adhesion to galvanized steel
- Provides a professional coating on surfaces where brush application may be difficult
- Excellent adhesion to all metal, plastic, vinyl, wood and masonry surfaces
- Resistant to water, snow, UV exposure and other harsh outdoor conditions
- Superior durability, color fastness, high hide coverage
- Matched to O.E.M. color standards

Uses: Specifically designed for roof vents, flashing, valleys and other metal or plastic roofing accessories. Apply to metal, plastic, vinyl, wood, concrete and masonry.

1690 BLACK ASPHALT ROOF PRIMER

Asphalt Roof Primer is a quick drying, asphalt-based material designed for priming surfaces prior to application of hot-mopped or cold-applied asphalt coatings, roof cements, and asphalt-based roof and flooring adhesives. High penetrating qualities help assure a firm, tough bond.

- Excellent adhesion to concrete, wood, felt, gypsum, plastic, glass, and metal
- Forms a tough waterproof seal that will trap and encapsulate dust and other loose particles
- Creeps into cracks and crevices, then sets up and bonds to surfaces
- Provides rust proofing while filling surface pores
- Each application provides a smooth, even, protective film

Uses: Specially designed for metal edging and flashings, weathered (composition) roofing, concrete and masonry surfaces, and gypsum surfaces.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-ounce Aerosol (15 oz.)	17 lbs.	12 Cans

ANODIZED METAL & TRIM PAINT

Anodized Metal & Trim Paint is a fast drying, specialty pigmented coating that is used for the touch-up and installation of anodized and painted building components. This product is available in 5 of the most commonly used OEM colors. Durable color fastness, good hide and coverage. This product provides long-term protection against rust, corrosion, and discoloration of aluminum and metal materials.

- Excellent adhesion to all metal, wood, and masonry surfaces
- Exceptional resistance to water, sun (UV rays), snow, and other harsh environmental conditions
- Superior durability, while extending the life of all materials coated

Uses: Window and door frames, railings, gutters and other metal trim. Also excellent for the touch-up and installation of storefronts, fascia, and curtain walls.

1645 ROOF TAR AND ADHESIVE REMOVER

A non-chlorinated, citrus-based roof tar and adhesive remover. Use also as a surface preparation prior to the use of adhesives by cleaning heavy oils, greases, silicones, and grime from the surface.

- Use as a surface prep
- Remove tar and other adhesive residue
- Citrus-based
- Leaves no film or residue

Uses: Preparation and cleanup of tar and other adhesives.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-ounce Aerosol (15 oz.)	16 lbs.	12 Cans

RUST PROOF ANY-WAY PAINT

A high quality industrial maintenance enamel coating formulated for light to moderate interior/exterior industrial exposures. This product offers lasting protection against corrosion, light abrasion, weathering, and mild chemical fumes.

- Adheres to any surface (even vinyl and plastic)
- Sprays in any direction
- VOC and MIR compliant
- High gloss, high-hide coverage that provides superior corrosion protection especially on metal surfaces
- Can be applied over sound rusted areas; however, loose flakes, dirt, grease, oils, and other surface contaminants or particles should be removed first with a wire brush or sandpaper
- Lead-free
- Primer is not required but recommended over bare steel

Uses: Non-galvanized metal, wood, hard plastic, and other common surfaces, including machinery, motors, tools, cabinets, toolboxes, steel bars and railings, pipelines, drums, conduit, ducts, furniture, electrical equipment. Ideal for marking hazard areas and color coding steel. Also effective on steel, concrete (masonry), and aluminum.

RUST PROOFING WATER-BASED PAINT

A high quality corrosion preventive coating formulated for mild to moderate interior/exterior, and industrial applications. This paint is designed to be self-priming and high gloss.

- High gloss, high-hide coverage that provides corrosion protection on metal surfaces
- Provides good resistance to moderate weather exposures including water, humidity, and temperatures up to 300°F (149°C), and color fading.
- Can be applied over firmly rusted areas; however, loose flakes or particles should be removed first with a wire brush or sandpaper
- Lead-free
- Primer is not required but recommended over bare steel

Uses: Metal, wood and other common surfaces, including non-porous plaster, machinery, motors, tools, cabinets, toolboxes, steel bars and railings, pipelines, drums, conduit, ducts, furniture, electrical equipment. Ideal for marking hazard areas and color coding steel and lumber. Also effective on steel, concrete (masonry), and aluminum.

Scribed Q-panels below represent independent salt spray test results conducted by a national testing laboratory.

Product tested was Aervoe Industries Rust Proofing Water-based Paint (panel A), and two other nationally-recognized brands (panel C = Brand H), and (panel B = Brand D). Results shown are after 96 hours of salt spray testing.

Salt spray testing according to ASTM B117 Test Method of Salt Spray (Fog) Testing.

DIRECT TO METAL – Solvent- or Water-Based

AerVOE's high-performance Direct To Metal (DTM) solvent-based and water-based formulations withstand corrosion and exposure from mild to moderate conditions while maintaining high gloss levels. Wide color selection includes **OSHA** safety, **HVAC**, commercial and selected factory equipment touch up colors.

- High gloss, high solids formula
- Ideal for equipment touch up and OEM production applications indoors or outdoors
- Resistant to mild and moderate environments including intermittent exposure to water, salt spray, moisture and temperatures up to 300°F (149°C)
- Can be applied directly over sound rust areas; however loose flakes, dirt, grease, oils, and other surface contaminants or particles should be removed first with a wire brush or sandpaper
- Tough, protective coating will not chip or peel
- Provides excellent hiding characteristics with smooth, even coverage
- Water-Based DTM may be used as a top coat on galvanized surfaces*
- Solvent-Based DTM is unacceptable as a top coat over galvanized surfaces*
- Not recommended for immersion services

Uses: Non-galvanized metal*, wood and other common surfaces, including machinery, motors, tools, cabinets, toolboxes, steel bars and railings, pipelines, drums, conduit, ducts, furniture, electrical equipment. Ideal for marking hazard areas and color coding steel.

OSHA Colors - The Occupational Safety and Health Act (OSHA) stipulates that industrial plants provide color coded safety equipment and hazard areas. The following list identifies the OSHA-designated colors and their meaning.

Application	Marking Color	AerVOE Product
Radiation hazard	OSHA Purple	300
Danger, or stop, or location of fire protection equipment	OSHA Red	301 3010 5012
Caution and physical hazards	OSHA Yellow	302 3020 5008
Equipment being repaired. Caution against starting or moving	OSHA Blue	303 3030 5004
Location of safety equipment other than fire	OSHA Green	304 3040 5006
Dangerous parts of machinery or energized equipment	OSHA Orange	305 3050 5010
Traffic and housekeeping	OSHA Black	306 3060 5017
Traffic and housekeeping	OSHA White	307 3070 5019

NOTE: OSHA and HVAC colors apply to both aerosol Rust Proofing Paint, and bulk Direct To Metal (DTM) Paint.

HVAC Colors - Color designations are currently used by DuPont for its refrigerants. Although refrigerant manufacturers make a concerted effort to select colors to differentiate refrigerant types, color guidelines are not a substitute for reading cylinder labels and markings. AerVOE suggests the following refrigerant colors be used for coding.

Refrigerant	Marking Color	AerVOE Product
R502	Purple	300
R22	Light Green	304/3040/5006
R404A	Orange	305/1305/3050/5010
R409A	Tan	317/5014
R134A	Light Blue	318/5005

MILITARY VEHICLE & RECREATION CAMO PAINT

A durable, high-hide acrylic enamel that offers the unique visual characteristics of true camouflage cover if blended in U.S. military color patterns.

- Dries to tough, hard finish, resists corrosion & abrasion
- Will not chip or peel under harsh conditions
- Performs at temperatures up to 300°F (149°C)
- Designed to U.S. Military Designated Field Coloring standards and 595 Federal Color Specifications
- Not recommended for immersion services

Uses: Ideal for military vehicle restoration, and duck blinds. Apply to metal or wood surfaces as top or final coat where an earth-toned finish is desired.

979 Forest Green (34079)	999 Earth Brown (30099)

MILITARY DIGITAL PATTERN CAMO PAINT

This durable, matte finish, acrylic enamel is specially formulated to match current U.S. Army (ACU) and U.S.M.C (MARPAT) color standards for digital camouflage patterns.

- Meets color specs for ACU and MARPAT uniform standards
- Long lasting, non-reflective finish
- Dries to tough, hard finish, resists corrosion & abrasion
- Will not chip or peel under harsh conditions
- Performs at temperatures up to 300°F (149°C)
- Stencils also available
- Not recommended for immersions services

Uses: Apply to metal, wood, or fabric surfaces. Ideal for weapons, vehicles, hunting equipment, and clothing.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (12 oz.)	7 lbs.	6 Cans

COLOR SELECTION

1074 Green (474)	1078 Urban Tan (478)	1082 Desert Sand (500/503)
1075 Khaki (475)	1079 Light Tan (479)	1083 Urban Gray (501/505)
1076 Coyote (476/498)	1080 Highland (480)	1084 Foliage Green (502/504)
1077 Black (477)	1081 Light Coyote (481)	

HUNTING LANDS CAMO PAINT

The same durable paint as the Military Vehicle and Recreation Camo and Military Digital Pattern Paint, but in colors designed for the sportsman in four very different geographical settings.

Choose from:

- Timberland for a woodland look
- Upland for a high desert look
- Forestland for a forest look
- Marshland for a marshland look

Uses: Apply to metal, wood, or fabric surfaces. Ideal for hunting equipment, guns, bows, treestands, blinds, tents, camping equipment, clothing, photography, equipment, boats, ATVs, and other vehicles.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (12 oz.)	7 lbs.	6 Cans

COLOR SELECTION

1085 Fall Gold	1092 Brush Brown
1086 Cattail Brown	1093 Brush Green
1087 Moss Green	1094 Bark Gray
1088 Sand	1095 Black
1089 Clay	1096 Sage
1090 Acorn	1097 Sage Gray
1091 Leaf Green	1098 Buck Brush
	1099 Tan

CAMOUFLAGE KITS AND STENCILS

Kits and stencils are available to create custom camo looks. Each kit includes 6 cans of paint, and comes with or without stencils.

MILITARY DIGITAL PATTERN CAMO KITS

Each kit is specifically designed with color selections to match U.S. Army ACU and U.S.M.C. (MARPAT) color configurations.

903 DIGITAL STENCIL KIT

Create your own digital pattern using laser cut digital stencils and Aervoe Military Digital Pattern Camo Paint. Kit includes small and medium size patterns with an adhesive backing for a clean application to your project, and a 12" x 20" Mylar® stencil.

HUNTING LANDS CAMO KITS

Four kits are available in different geographic color configurations. Choose a kit to fit Marshland, Timberland, Upland, or Forestland settings.

910 HUNTING LANDS STENCIL KIT

- Includes four reusable Mylar® stencils
- 1 - 12" x 10" Bark and Marsh Grass
 - 2 - 12" x 12" Leaves and Twigs

911 CAMOLAND STENCIL KIT

- Includes two reusable Mylar® stencils to create an effective break-up pattern for any terrain.
- 2 - 12" x 12"

912 UPLAND STENCIL KIT

- Includes three reusable Mylar® stencils.
- 3 - 12" x 12" Field Grass, Sage, and Twigs

900 ACU Digital Kit includes 2 ea #1082, #1083, and #1084;

900A = 900 + digital stencil kit

901 MARPAT Woodland Digital kit includes 2 ea #1074 and #1076, 1 ea #1075, and #1077; **901A** = 901 + digital stencil kit

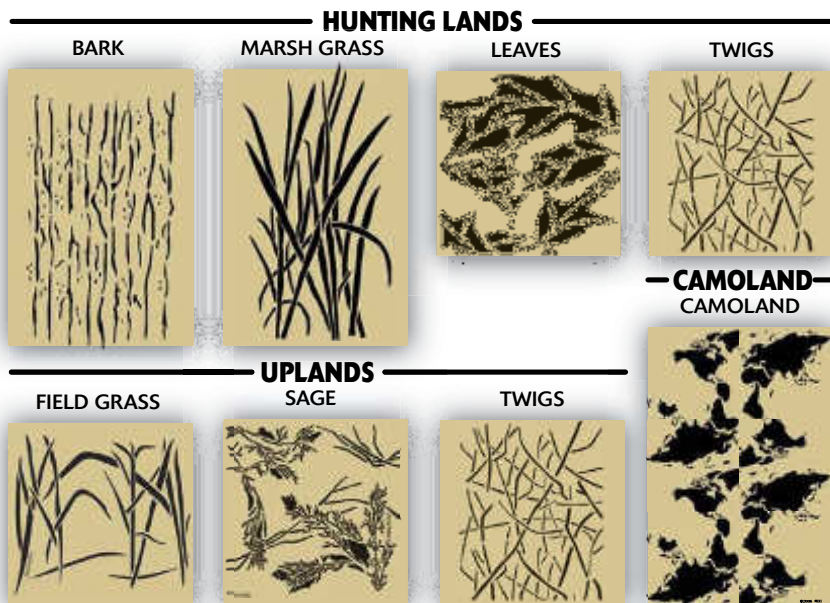

902 MARPAT Desert Digital Kit includes 2 ea #1078 and #1079, 1 ea #1080, and #1081; **902A** = 902 + digital stencil kit

904 Marshland Kit includes 2 ea #1085, and 1 ea #1086, #1087, #1088, and #1089; **904A** = 904 + Hunting Lands Stencil Kit; **904B** = 904 + Camoland Stencil Kit

905 Timberland Kit includes 1 ea #1090, #1091, #1092, #1093, #1094, and #1095; **905A** = 905 + Hunting Lands Stencil Kit; **905B** = 905 + Camoland Stencil Kit

906 Upland Kit includes 1 ea #1085, #1087, #1096, #1097, #1098, and #1099. **906A** = 906 + Upland Stencil Kit; **906B** = 906 + Camoland Stencil Kit

907 Forestland Kit includes 2 ea #1091 and #1092, and 1 ea #1093 and #1095; **907A** = 907 + Hunting Lands Stencil Kit; **907B** = 907 + Camoland Stencil Kit

MINE MARKING PAINT

Aervoe's upright marking paint is a highly pigmented, durable paint designed specifically for overhead marking.

- Sprays upright with or without cap on.
- May be applied by hand or in Aervoe's #244 Spot Marker
- Does not contain ozone depleting substances, lead, CFCs, chromates or chlorinated solvents
- Low flash, low odor
- Mark is water resistant after dry
- Non-clogging; contents empty completely
- Fast drying, highly visible colors

Uses: Overhead marking in mines, on bridges, building construction or any application requiring overhead marking.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-ounce Aerosol (17 oz.)	18 lbs.	12 Cans

COLOR SELECTION

- 195 Fl. Red-Orange
- 196 Fl. Red
- 197 Fl. Orange
- 198 Fl. Green

156 REBAR GREEN EPOXY COATING

A high performance, single system epoxy coating specifically designed to protect rebar from corrosion and other damage. Use to touch-up and repair the original factory coating or bare rebar. May also be used on other approved steel surfaces.

- Meets ASTM D3963, A775, and D3963M-01 specifications
- Prevents rust, corrosion, and the resulting stains when applied to rebar before setting in concrete
- Fast drying, durable finish
- Excellent color retention
- Adheres to all surfaces with very good resistance to corrosion, chemicals, gasoline, and abrasion
- Prevents oxidation with touch up of sheared ends, cuts and other exposed areas
- Performs at temperatures up to 300°F (149°C)

Uses: Rebar, metal, steel, and metal support reinforcement beams.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (12 oz.)	14 lbs.	12 Cans

TREE MARKING PAINT

Specially formulated, long lasting, lead-free solvent-based paints that meet all marking requirements of the forestry industry. Tracer element available for government agencies on special order basis.

- Regular and fluorescent colors available
- Does not contain lead, Toluene, or Methylene Chloride
- Fast drying high solids formula
- Excellent for horizontal numbering, lettering or writing
- Excellent adhesion and visibility
- Ideal for inventory and lumber identification marking of cut wood, trees, logs, railroad ties, pulpwood, and finished lumber
- Heavily pigmented to provide bright visual identification at distances

Uses: Mark cut wood, trees, logs, railroad ties, pulpwood and finished lumber for grade and select cut marking.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (12 oz.)	14 lbs.	12 Cans
Quart Can	27 lbs.	12 Quarts
Gallon Can	23 lbs.	1 Gallon

COLOR SELECTION

610 Red	650 Blue	688 Fl. Green
620 Orange	660 Black	690 Fl. Red
630 Yellow	670 White	691 Fl. Pink
640 Green	680 Silver	692 Fl. Orange-Red
645 Dark Green	681 Purple	693 Fl. Yellow

WET COAT® TREE MARKING PAINT

- For use in wet and/or during rainy conditions
- Mixes with the water from wet wood allowing paint to penetrate deep into pores of lumber
- Displaces moisture while the film is formed to penetrate and adhere to the surface
- Remaining mark is highly visible and will withstand subsequent and continued immersion in water
- Provides long lasting identification on natural bark or cut lumber

Uses: In either wet or dry conditions, apply directly to bark, trees, cut wood, railroad ties, logs, pulpwood and finished lumber for grade and select cut marking.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (12 oz.)	14 lbs.	12 Cans

COLOR SELECTION

694 White	697 Red	699 Yellow
695 Blue	698 Orange	

NOTE: Tracer paint available on a special order basis for government agencies. Minimum 50-gallon yield production. Special quote required.

GALVANIZED AND STEEL COATINGS

Aervoe galvanize coatings and stainless steel paints provide the ultimate in long term protection against rust and corrosion available today. They are acceptable as a coating in federally inspected meat and poultry plants for application to structural surfaces, or any surface where incidental food contact may occur. Crown galvanize coatings have been the industry benchmark for over 50 years... products that "sacrifice" the coating to chemically protect steel.

PREMIUM GALVANIZE COATINGS

7007 COLD GALVANIZE COATING 93% ZINC RICH

The leader in the industry in corrosion prevention. Can be easily sprayed, brushed, or dipped onto any metal surface. Its zinc-rich formula is designed for permanent protection.

- 93% pure zinc in dry film
- Meets performance requirements of MIL-P-46105(MR), MIL-P-21035B, and DOD-P-21035A
- Withstands 2000 hours of 5% salt spray testing (ASTM B-117)
- Light gray, matte finish
- Zinc sacrifices itself to protect the base metal surface
- Provides protection equal to or better than hot-dipped galvanizing
- Outstanding weld-through primer

Uses: Industrial type applications such as aviation, marine, manufacturing, etc.

7008 BRIGHT GALVANIZE COATING 65% ZINC RICH

A restorative coating fortified with zinc for preventing rust and corrosion on ferrous metal surfaces with one coat application.

- A glistening coating with 65% pure zinc in dry film
- Stops rust and corrosion on any iron or steel surface for protection equal to or better than hot-dipped galvanizing
- Restores galvanized surfaces to the bright look of hot-dipped galvanizing
- Meets performance requirements of ASTM A-780-93A
- Good film integrity after 336 hours salt spray (ASTM B-117)

Uses: Repair of welds, handrails, rims, guardrails, metal chain fences, pipes, corrugated metal building, or anywhere the bright look of hot-dipped surfaces is desired.

**7007VG LOW VOC COLD GALVANIZE COATING
93% ZINC RICH**

A low VOC version of our Cold Galvanize Coating with a VOC content of less than 100 g/l. An exceptionally smooth flowing, high-solids compound that provides a fast drying coating to protect ferrous metals in highly corrosive environments. Zinc fuses to metal substrates for protection equal to or better than hot-dipped galvanizing. The sacrificial anodization causes the zinc to sacrifice itself for the base metal's protection. Stops rust and corrosion on any steel or iron surface.

- Contains 97% pure zinc
- Yields 93% zinc in a dry film
- Meets multiple performance requirements of ASTM, MIL, and DOD specifications (see product data sheet for details)
- Performs at temperatures up to 150°F (65°C)
- Withstands up to 2,000 hours salt spray exposure

Uses: Use on damaged galvanized surfaces, structural steel, automobiles, guardrails, bridges, TV and radio towers, welded joints, storage tanks, signs and signposts, equipment, gutters, pipelines, transformers, and corrugated metal buildings.

**7008VG LOW VOC BRITE GALVANIZE
65% ZINC RICH**

A low VOC version of our Brite Galvanize Coating with a VOC content of less than 250 g/l. Provides a restorative coating fortified with zinc for preventing rust and corrosion on ferrous metal surfaces.

- A glistening coating with 65% pure zinc in dry film
- Stops rust and corrosion on any iron or steel surface for protection equal to or better than hot-dipped galvanizing
- Restores galvanized surfaces to the bright look of hot-dipped galvanizing
- Meets performance requirements of ASTM A-780-93A
- Good film integrity after 336 hours salt spray (ASTM B-117)

Uses: Repair of welds, handrails, rims, guardrails, metal chain fences, pipes, corrugated metal building, or anywhere the bright look of hot-dipped surfaces is desired.

MRO/INDUSTRIAL GALVANIZE COATINGS

147 MRO COLD GALVANIZE COATING

This MRO Cold Galvanize Coating is a cost effective zinc spray coating that imparts temporary zinc protection in the weld through process from fabrication, to maintenance, and repair. Even at one coat, interim protection is provided if the surface is scratched or broken, an electrochemical reaction (sacrificial anodization) causes the zinc to sacrifice itself for the base metal's protection.

- 97% pure metallic zinc dust with 93% zinc in dry film
- Acts as metallic primer and can be final protective coating at 1 - 2 mil thickness
- If moisture is present, zinc will corrode but it will continue to protect the metal surface
- An economical coating for preventive maintenance on galvanized parts and with multiple coats for longer-term protection
- Meets multiple ASTM and MIL specifications (see product data sheet for details)
- Acceptable as a coating in federally inspected meat and poultry plants for application to structural surfaces where there is a possibility of incidental food contact

Uses: This hard coating acts as a metallic primer for iron, steel, and their welds to provide interim protection during the work process. Use on weld points, damaged galvanized surfaces, structural steel, automobiles, guard rails, bridges, TV and radio towers, storage tanks, signs and sign posts, equipment, gutters, pipelines, transformers, and corrugated metal buildings.

143 MRO CHROME GALVANIZE COATING

A reflective, chrome coating that provides the benefits of zinc flake and the properties of chrome.

- Convenient application when hot-dip repair is necessary
- Fast drying; dries to touch in 10 minutes
- Restores galvanized surfaces to a bright chrome finish
- For best corrosion protection use as top coat over 147 or 148, when chrome look is desired

Uses: On pipes, heavy equipment, highway guardrails, handrails, bridges, metal fences, storage tanks, metal buildings, transformers, television towers, signs and sign posts, railroad equipment, and over welds, or anywhere a chrome finish is desired.

148 MRO BRITE GALVANIZE COATING

Brite Galvanize Coating is an effective way to repair hot-dip galvanizing that has been damaged by abrasion, scratching, cutting or welding. Cosmetically repairs both ferrous and non-ferrous surfaces with one coat interim protection or multiple coats for longer-term protection.

- 97% pure zinc metallic flake with 65% zinc in dry film
- Zinc fuses to metal substrate
- Restores surfaces to the bright look of hot-dip
- Stops rust and corrosion on any iron or steel surface
- Will continue to protect against corrosion even if scratched
- Does not contain lead, chromates, methylene chloride or fluorocarbons
- Meets performance requirements of ASTM A780-01
- Acceptable as a coating in federally inspected meat and poultry plants for application to structural surfaces where there is a possibility of incidental food contact

Uses: Use on pipes, heavy equipment, highway guard rails, hand rails, welds, metal chain fences, bridges, storage tanks, corrugated metal buildings, transformers, television towers, signs and sign posts, railroad equipment, construction equipment, and anywhere the bright look of hot-dipped surfaces is desired.

MARKING PRODUCTS

Aervoe Industries Incorporated offers the most complete line of inverted marking paints and marking coatings in the world. Choose from the wide range of application-specific aerosol and bulk marking products, including paints, chalk, and specialty marking products such as our patented Fugitive Marker. The higher paint solids level that is an Aervoe standard means a more durable mark, and more linear feet per 3/4" mark with one-coat coverage. All inverted aerosol cans are activated by hand with the patented Spray-Thru Cap, or can be used with cap on or off in Aervoe #244 Spot Marker or #245 Marking Stick applicators.

APPLICATORS AND MEASURING DEVICES

244 Spot Marker	1 lb.	1 ea.
245 Marking Stick	2 lbs.	1 ea.
286 Measuring Wheel	3 lbs.	1 ea.

SURVEY MARKING PAINT

Aervoe's Survey Marking Paint is a superior upside-down marking paint that is designed for survey marking. It provides the best quality paint in terms of color visibility and retention, durability, and a lasting mark of up to six months.

Note: Survey Marking Paint contains a non-freezing formula; operational to 14°F (-10°C).

INVERTED MARKING PAINTS

SUPREME UTILITY MARKING PAINT

Supreme Utility Marking Paint provides superior quality in terms of initial color brightness, color retention, adhesion, durability, and color consistency. It is uniquely designed for identifying utilities under pavement, gravel, and soil with a formula that has maximum durability, dries within 2-5 minutes, and won't freeze.

TURF MARKING PAINT

This patented (#5,128,609), water-based formulation is made specifically for marking on turf surfaces. It will not damage or burn grass roots. Provides a mark that will last up to two months, but can be cut off after the grass has grown out.

4750 GREEN-OUT COVER COATING

- Temporary cover up of brown spots on grass
- Lasts 6–8 weeks
- Low cost answer to off-season “green”
- Easy clean up and 5-minute dry time

CAN SIZE (NET)	WEIGHT	CASE PACK
20-oz. Aerosol (18-oz.)	19 lbs.	12 cans
Gallon Bottle	27 lbs.	1 Gallon

INVERTED SPECIALTY MARKING PAINTS / COATINGS

MARKING CHALK

AerVOE chalks are a special blend of raw materials that are safe on all surfaces, and are designed specifically for temporary marking. Mark disappears in 10 – 20 days when exposed to water, traffic, and other abrasions. It can also be washed off with a pressure washer if desired. 100% biodegradable.

APWA/ONE-CALL COLORS

The American Public Works Association (APWA) requires public agencies, utilities, and contractors that excavate underground to use this color standard to identify the location and type of sub-surface utilities. Aervoe Industries was the first marking paint manufacturer to provide the uniform standard for these colors, and our products still proudly carry the original One-Call Systems International trademark.

APPLICATION	AERVOE PRODUCT	CONSTRUCTION	ALL PURPOSE	SURVEY	SUPREME
Electric	Red	256	1381	201, 281	—
Gas-Oil	Yellow	252	1382	202, 282	295, 296
Water	Blue	254	1383	203	—
Sewer	Green	259	1384	204	—
Communication/ CATV	Orange	257	1385	205	—
Proposed Excavation	White	255	1387	207	—
Reclaimed Water	Purple	260	—	212	—
Temporary Survey Marking	Pink	249	1399	229	—

Fluorescent colors may be utilized in place of organic colors if acceptable by local standard.

MARKING ENAMELS AND INKS

MARKING INKS

A permanent marking ink specifically formulated for metalworking and color coding.

- Excellent for marking hot metal up to 500°F
- Waterproof, very good weather resistance
- Quick drying; no smears or smudging
- Outstanding adhesion and UV resistance

Uses: For use on most metals and non-porous surfaces including sheet and cold rolled steel, iron pipe and girders, and metal coils, tube stock, and drums.

PAINT PENS / TAPES / FLAGGING

INDUSTRIAL PAINT PENS

Medium point, felt tip, valve action pens. Mark virtually any surface.

- Xylene-free
- Industrial strength, oil-based paint
- Heavy duty valve action tip
- Aluminum barrel
- Fast drying, permanent
- Airtight cap increases pen life
- Mark a variety of surfaces, including wood, glass, metal, or plastic

CAN SIZE (NET)	WEIGHT	CASE PACK
Fiber Tip Pen	5 lbs.	48 Pens

COLOR SELECTION			
1221 Red	1222 Yellow	1226 Black	1227 White

FLAGGING TAPE

- Easy-to-handle PVC material
- Standard colors 2 mil thick, fluorescents 4 mil thick

STRIPING PAINT AND APPLICATORS

STRIPING PAINT (Solvent-Based)

Aervoe Striping Paint is designed to adhere to a variety of surfaces, especially asphalt and concrete. Asphalt black is available to correct mistakes, or cover existing lines.

- Fast drying; 5 minutes to touch, 30 minutes to handle
- Durable, long-lasting, high-visibility colors
- VOC compliant and lead-free
- Non-clogging spray tip
- Excellent resistance to traffic, oil, and gasoline
- One case of aerosols will yield a 4-inch stripe approximately 700 linear feet
- Apply aerosol with #745 Striping Stick, #798 Econo Striper, #800 or #801 Vers-A-Striper

Uses: Parking lots, warehouse aisles, school yards, apartment complexes, road surfaces, tennis courts, fairgrounds, and factory safety aisles.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-oz. Aerosol (18 oz.)	19 lbs.	12 cans
Gallon Can	24 lbs.	2 Gallons

COLOR SELECTION

710 Traffic White	750 Traffic Blue
720 Traffic Yellow	760 Traffic Green
730 Traffic Red	770 Asphalt Black
740 Traffic Orange	

All Aervoe aerosol striping paints use a new tip design to produce the sharpest edges available.

ATHLETIC STRIPING PAINT (Water-Based)

A highly pigmented formulation that will not cause leaf yellowing or root damage, or burn grass on athletic surfaces.

- Fast drying; 15 minutes to touch, 30 minutes to handle
- Non-clogging spray tip
- Will not crack tennis court sealant
- VOC compliant and lead-free
- Classified under NFPA 30B, Level I for warehouse storage
- One case of aerosols will yield a 4-inch stripe approximately 800 linear feet
- Apply aerosol with #745 Striping Stick or #801 Vers-A-Striper

Uses: Grass or dirt for line striping playgrounds, football, baseball, soccer, and track fields. Can also be applied on concrete, cement, and other similar surfaces.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-oz. Aerosol (18 oz.)	19 lbs.	12 cans
Gallon Can	24 lbs.	2 Gallons

COLOR SELECTION

790 Athletic White	792 Athletic Blue	796 Athletic Fl. Orange
791 Athletic Yellow	793 Athletic Red	

SUPREME STRIPING PAINT (High Solids, Solvent-Based)

Our top-of-the-line solvent-based striping paint with the highest pigment, solids-to-weight ratio attainable with today's packaging technology.

- Fast drying; 15 minutes to touch
- VOC compliant and lead-free
- One case of aerosols will yield a 4-inch stripe approximately 800 linear feet
- Durable, long-lasting colors
- Non-clogging tip
- Apply with #745 Striping Stick, #798 Econo Striper, #800 or #801 Vers-A-Striper
- Provides an opaque line that remains durable against ground traffic scuffing

Uses: Parking lots, warehouse aisles, school yards, apartment complexes, road surfaces, tennis courts, fairgrounds, factory safety aisles, and baseball and track fields.

AEROSOL STRIPING APPLICATORS

745 STRIPING STICK

For stenciling and touch-up. Approximately 36" long. Use with Aervoe Stripping Paint only.

797 STENCIL KIT

Seventeen 22-inch by 36-inch composition boards with full alphabet and numbers, plus 13 setups - such as handicap, exit, no parking, etc.

800 VERS-A-STRIPER® - Pavement

A lightweight, heavy-duty applicator for Aervoe aerosol Stripping Paint. Stripe widths up to 4-inches. For use on hard surfaces such as asphalt and concrete. Includes a striping alignment guide and radius wheel for making smooth arcs.

801 VERS-A-STRIPER® - Turf and Dirt

Specially designed for striping athletic fields and other turf and dirt surfaces. For use with Aervoe aerosol Stripping Paint. Same model as #800, with 8-inch diameter wheels. Includes a striping alignment guide and radius wheel for making smooth arcs.

M.R.O. PRODUCTS

Professionals turn to Aervoe for the hallmark of specialty cleaners, lubricants, and protective coatings for manufacturing, industrial, and commercial use. Formulated with high solids, Aervoe ToolMates® MRO products hold up to ensure continued performance, help prevent downtime, and increase operating efficiencies. Choose from a wide variety of lubricants, penetrants, and specialty formulations to provide a specific solution to your problem. Aervoe is your one source shop for all the basics in MRO products. Select products are available in our newest bulk package dispenser, the Giant Pressurized Tank, as noted on page 54. Most products available in gallons may also be obtained in 5 and 55-gallon containers.

MULTIPURPOSE WET LUBRICANTS

7340 ALL-4®

Clean, penetrate, lubricate, protect - does All-4

- Silicone free
- Displace moisture
- Cleans away dirt and grease
- No gummy residue
- Fills microscopic irregularities on surfaces
- Meets Military Spec. #MIL-C-16173D, Group III
- Spray-Any-Way valve allows product to be applied in either an upright or upside down position

Uses: For use on machinery, spare parts, nuts, bolts, lawn mowers, guns, wheels, aircraft parts, taps and dies, marine and mining equipment, office machines, sliding doors, and hinges.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (10 oz.)	12 lbs.	12 Cans
Gallon Can	8 lbs.	1 Gallon
5-Gallon Pail	40 lbs.	1 Pail
55-Gallon Drum	400 lbs.	1 Drum

TEF-LUBE™

Tef-Lube™ is a superior lubricant that combines the advantages of high-grade petroleum oils and solvents with micron-sized PTFE to provide the finest multi-component penetrating lubricant system available.

- Protects against corrosion; displaces moisture
- Keeps equipment running longer
- Reduces friction and increases part life
- Reduces costly breakdowns caused by worn and dirty parts
- Penetrate inaccessible areas with extension tube
- Spray-Any-Way valve allows aerosol to be applied in either an upright or upside down position
- Performs at temperatures from -60°F to 475°F (-51°C to 246°C)
- Meets MIL-C-372B (Small arms bore cleaner), MIL-C-23411/A (Corrosion preventive compound), VV-P-216B (Penetrating oil), VV-L-820C (General purpose lubricating oil), and VV-L-751C (Chain, wire rope lubricating oil)

Uses: Chains, bearings, gears, sprockets, conveyors, electric motors and switches, locks, air tools, firearms, fishing reels, sporting equipment, office machines, home appliances, and in aircraft maintenance and automotive assemblies.

CAN SIZE (NET)	WEIGHT	CASE PACK
937 - 16-ounce Aerosol (11 oz.)	13 lbs.	12 Cans
938 - 8-ounce Aerosol (7 oz.)	9 lbs.	12 Cans

APC-961 GREASE-FREE LUBE/FILM

This light lubricant penetrates into tight crevices, provides a dry film, and *resists oil, dust, and dirt buildup.*

- Provides short term corrosion protection
- Displaces moisture
- Cleans and lubricates delicate mechanisms
- Does not contain chlorinated solvents or ozone depleting substances
- Will not harm plastics or rubber
- Conforms to MIL-C-23411A and O-W-001284
- Spray-Any-Way valve allows product to be applied in either an upright or upside down position

Uses: Electric motors, ignition systems, cables, nuts and bolts, locks and hinges, O-rings, weight training equipment, and general office equipment.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (11 oz.)	13 lbs.	12 Cans
Gallon Can	17 lbs.	2 Gallons
5-Gallon Pail	39 lbs.	1 Pail
55-Gallon Drum	392 lbs.	1 Drum

APC-962 H.D. MULTIPURPOSE LUBE

A strong, multipurpose lubricant that doesn't contain harmful solvents or silicones.

- Displaces moisture and unlocks rusted parts
- Reduces wear brought on by corrosion or friction
- Spray-Any-Way valve provides for application in either upright or upside-down position
- Non-drying oil that provides extra protection against corrosion

Uses: For use on engines and electric motors, cables and linkages, stored parts, hand tools, pulleys, production equipment, tracks, fasteners, bits, and dies.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (11 oz.)	13 lbs.	12 Cans
Gallon Can	18 lbs.	2 Gallons
5-Gallon Pail	40 lbs.	1 Pail
55-Gallon Drum	397 lbs.	1 Drum

APC-963 H.D. CORROSION INHIBITOR

Stops rust and corrosion in its tracks.

- Penetrates and removes moisture
- Provides sacrificial wax-like film that deters corrosion on surfaces that have become exposed due to abrasion
- Spray-Any-Way valve

Uses: Great on bare metal, battery terminals, cables and chains, elevators, cranes, fork lifts, pumps, outdoor tools and equipment, airbrake release springs, aircraft fuselages, and offshore drilling equipment.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (11 oz.)	12 lbs.	12 Cans

FOOD GRADE LUBRICANTS

932 FOOD GRADE LUBE OIL

Aerove's Food Grade Lube Oil is an economical, non-silicone lubricating oil.

- NSF H-1 - clear mineral oil
- Penetrates the surface to loosen rust, corrosion, scale, and dirt
- Leaves a clear, stainless film that prevents machinery parts from sticking
- Resists moisture and does not leave a residue
- Excellent in areas where silicone over spray might interfere with carton sealing or capping operations
- Separates from water even under acid/alkali conditions
- Dielectric strength of 30kV/mm

Uses: Equipment in food processing plants, dairies, bakeries, soft drink plants, supermarkets, breweries, and grain elevators. Apply to chains, chain drive belts, bearings, belts, machinery valves, pistons, rollers, stainless steel pumps, bottle filling machinery, and slicing machines.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (11 oz.)	13 lbs.	12 Cans
Gallon Can	18 lbs.	2 Gallons
5-Gallon Pail	42 lbs.	1 Pail
55-Gallon Drum	410 lbs.	1 Drum

933 FOOD GRADE LUBE GREASE

Multi-service, non-melting, fortified waterproof grease forms a durable film that withstands daily equipment washdowns.

- NSF H-1
- PTFE fortified
- N.L.G.I. Grade 2
- Grease forms a tough, durable film that prevents metal-to-metal contact
- Lubricates, seals out water and resists chemical attack
- Performs at temperatures up to 475° F
- Compatible with most plastics
- 35 lbs. load-carrying capacity based on Timken OK load tests
- Dielectric strength of 30kV/mm

Uses: Use as a general purpose lubricant on slides, guides, chains, conveyors, and other transfer equipment found in food, beverage, meat, dairy, and marine processing plants. Best when used on unpainted surfaces.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (11 oz.)	13 lbs.	12 Cans
Gallon Can	9 lbs.	1 Gallons
5-Gallon Pail	42 lbs.	1 Pail
55-Gallon Drum	415 lbs.	1 Drum

8036 FOOD GRADE SILICONE LUBE

A low viscosity silicone lubricant that eliminates squeaks, insulates and waterproofs electrical parts.

- NSF H-1
- 4% silicone formula
- Odorless, colorless, non-staining, dry residual film
- Prevents sticking and won't transfer to end parts
- Will not interfere with carton sealing, bottle capping, or other food preparation applications
- Will not harm paint, metal, wood surfaces, and most plastics
- Reduces noise and wear where friction may occur
- Separates from water even under acid/alkali conditions
- Waterproofs ignition systems
- Dielectric strength of 35kV/mm

Uses: Metal hinges, plastic rollers, guide rails, slides, or anything that sticks. Can also be used on air tables and on food preparation equipment such as dough mixers, guards, food racks, knives, saws, and slicing machines.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (10.5 oz.)	12 lbs.	12 Cans
Gallon Can	15 lbs.	2 Gallons

9152 ANTI-SEIZE FOOD GRADE

Designed to lubricate and protect most metals from corrosion and seizure. See page 39 for other anti-seize products.

- Will not harden, separate, or evaporate
- Protects parts under extreme heat, cold, pressure, steam, and salt water exposure
- Protects against corrosion, seizing, rust, galling, galvanic pitting, and carbon fusing
- Contains a premium white paste containing zinc oxide
- Cannot be burned off, and will not melt or run after application
- Provides excellent lubricity and better make-up and breakout torque.
- Durable, long-lasting film
- Does not contain clay or soap-based thickeners
- Eliminates parts wear and breakage
- Meetl MIL-A-907E
- Brush top bottle has an angled applicaton brush so the entire contents can be removed
- Color - off white
- Boiling point: 61°F to 500°F
- Flash point: 375°F
- Specific gravity - 1.11
- Operational temperature range -40°F to 1000°F

Uses: Food processing equipment, threaded fittings, metal fittings, packing sleeves, valves, pumps, bushings, compressors, and castings.

FOOD GRADE - White (zinc oxide)

9152	8-ounce B/T Bottle	8 lbs.	12 Bottles
------	--------------------	--------	------------

MOLYBDENUM DISULFIDE-BASED LUBRICANTS

7041 MOLY GREASE

This high-grade molybdenum disulfide lubricant waterproofs and rustproofs while under heavy stress and vibration.

- Prevents seizing and galling
- Stays in place under extreme pressure loads; will not leak out
- Performs at temperatures up to 450°F (232°C)

Uses: Electric motor bearings, open or exposed gears, fan bearings, pump bearings, conveyor bearings, power take-off, wire rope, fifth wheels on tractor trucks, machine tools, metal forming presses, threads, sprockets, hoists, and anywhere heat is generated from metal-to-metal contact. Ideal for forklift maintenance of cables and chains as well as flexible couplings.

6080 DRY MOLY LUBRICANT

This quick drying lubricant leaves a thin film that provides extreme pressure lubrication.

- Provides lubrication at temperatures between -100°F to 700°F (-73° to 371°C)
- Withstands pressures up to 100,000 psi
- Quick drying
- Ideal for assembly and break-in lubrication
- Resists corrosion
- Bonds to metal surfaces without attracting dirt or dust
- Prevents sliding or threaded parts from seizing
- Does not contain oil or dilutants

Uses: Automotive and industrial gaskets, grinding belts, threaded connections, metal belts, rubber components, sliding surfaces and gears, shafts, hinges, cams, bearings, chain drives and pulleys, chutes and bins, vending machines, and conveyor belts where heat is present. Works well in assembly and break-in of motors, machinery, pumps, compressors, and valves.

7043 WIRE ROPE, CHAIN, & CABLE LUBE

A high grade lubricating oil that is fortified with molybdenum disulfide to penetrate inaccessible areas and provide superior lubrication where temperature and stress will break down ordinary lubricants.

- Excellent water displacing characteristics provide corrosion protection
- Provides excellent metal penetration
- Travels deep into wire ropes and exposed gearboxes, and along cabling
- Dark gray color allows easy visibility of application
- Will not wash away or rub off
- Reduces wear and increases chain life
- Performs at temperatures between -20°F and 300°F (-29°C and 149°C)
- FALEX E.P. Test Fallen Load to 4,500 lbs.

Uses: Chain drives and pins, open gearing, sprockets, wire ropes, bushings, rollers, clippers, cables, hoists, gearboxes, chain saws, conveyors, motorcycle and bicycle chains, and other metal surfaces.

SPECIALTY LUBRICANTS / PENETRANTS

950 PERFORMANCE BLEND RUST-SOLV™

Quickly loosens rust while penetrating grease and dirt. This product is not a lubricant, but a deep penetrant made especially for freeing seized and/or frozen parts and assemblies.

- High speed, high flash, non-acid penetrating fluid
- High-solvency value makes it an ideal degreaser
- Safe to use in non-heat, electrical exposure
- Works on all forms of oxides, including copper, iron, lead, and zinc
- Dielectric strength 25kV/mm
- Will not harm painted surfaces

Uses: Loosens corroded or frozen nuts, pipes, locks, pumps, hinges, valves, screws, springs, pulleys, mufflers, lugs, stud bolts, brake linkage, heat risers, and battery cable terminals.

6030 PENETRATING OIL

Loosens rust and corrosion formed by alkali, fruit acids, water, and electrolysis.

- Formulated with low surface tension for fast penetrating action
- Makes disassembly of parts possible with savings in time and material; attacks rust and corrosion
- Displaces moisture; free frozen parts
- Bulk flash point >160°F (71°C); dielectric strength 35kV/mm

Uses: Metals, alloys, rubber, and most painted surfaces. Release rusted and corroded nuts, pipes, pumps, hinges, valves, screws, pulleys, shafting, mufflers, stud bolts, heat risers, battery cables, roller conveyors, and wheel lug nut release.

6075 DRY FILM LUBRICANT

An industrial strength dry PTFE lubricant that is ideal whenever silicone products are not acceptable, and higher temperatures or pressure performance is required.

- Durable up to 500°F (260°C) for extended periods
- Won't interfere with post-finishing operations
- Reduces clean-up labor time
- Safe for rubber, wood, and metals
- Unique, dry lubricating qualities; will not collect dust

Uses: Recommended for use in any situation where reduced friction and drag is desired on plastic, glass, rubber, metal, or wood. Ideal in textiles industry, on instruments, tools, drawers, windows, conveyor belts, cord, wire, and machine parts.

7037 LITHIUM GREASE

This all weather grease and lubricant is recommended for general metal-to-metal applications. It is compatible with plastics and rubber. Heavy conical spray doesn't drip or run on vertical surfaces.

- Resists corrosion and oxidation on unpainted metal surfaces
- Provides all-weather lubrication for moving parts
- Effective from -70°F to 360°F (-57°C to 182°C)
- Reduces friction and eliminates squeaks and squeals
- Excellent compatibility with exotic metals, plastics, and rubber
- Case includes 12 alternate tips with extension tubes for precision application in hard to reach areas

Uses: Chains, gears, drives, hinges, intricate metal catches, fine gear cases, bolts, and other vertical or overhead surfaces. Can also be used on knockout pins on mold equipment.

7045 HEAVY DUTY OPEN GEAR & WIRE ROPE LUBE

This high-grade asphaltic grease won't become brittle, is not affected by weather, and has outstanding adhesion properties.

- Minimizes internal friction
- Displaces water to provide excellent rust and corrosion protection
- Prevents metal bearing surfaces from becoming crazed and brittle
- Withstands extreme pressures with maximum adhesion
- Withstands wash downs; migrates on metal surfaces to the core of wire rope and spring windings
- Performs at temperatures between 0°F and 250°F (-18°C and 121°C)

Uses: Wire rope, exposed gears, winches, roller chains, elevator cables, conveyor rolls, fifth wheels on tractor trucks, draglines, construction machinery, and anywhere else that lubrication and superior mastic properties are desired.

8034 GENERAL PURPOSE SILICONE LUBE

This multi-purpose lubricant leaves a clear residual dry film that helps prevent sticking without transferring to the surface. Slower dry allows full penetration into rubber surfaces.

- 5% silicone formula
- Insulates, stops squeaks and sticking, prevents freezing
- Brings life back to old rubber and weather-stripping keeping it soft and flexible
- Will not harm most plastics
- Repels water; waterproofs ignition systems

Uses: Metal hinges, plastic rollers, rubber mountings, O-rings, electrical insulation, slides, guides, conveyors, dough mixers, saws, grinders, doors, locks, trunk lids, and any sliding surface.

8078 DRY GRAPHITE LUBRICANT

Specifically designed for engine or mechanical parts prior to their assembly. Made of natural colloidal graphite and is an ideal lubricant when petroleum products must be avoided.

- Provides lubrication at temperatures of -100° to 1000°F (-73° to 538°C)
- Excellent choice for extreme temperature lubrication
- Dry, oil-free coating that won't attract dirt or dust
- Does not contain oil or moisture-based dilutants
- Stops squeaks and sticking on contact with excellent conductivity
- Uniform coat bond prevents scoring and seizing
- Unique protective film gives "new finish" appearance

Uses: Ideal on automotive and industrial gaskets, conveyors, bearings, sliding windows and doors, locks, springs, chains, sprockets, plating non-conductors, mating surfaces on machines, and pre-assembly lubrication of moving parts.

METALWORKING COMPOUNDS AND FLUIDS

887 ANTI-SPATTER

This vegetable based formulation provides a protective film coating to aid in removal of weld spatter, and keeps welding tips and nozzles clean.

- Light yellow, tacky film visually confirms coverage
- Prevents spatter from adhering to surrounding metal surfaces
- Eliminates grinding and chiseling
- Quick and easy clean up
- Does not contain silicones

Uses: Welding and torch cutting devices, including MIG and TIG nozzles and tips, weldments, electrode holders, fixtures, resistant welding tips, and in all types of maintenance/production welding applications.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (12 oz.)	14 lbs.	12 Cans

890 CUTTING OIL

This non-flammable, thinnable water-based cutting oil improves metal cutting operations and increases efficiencies in machining operations.

- Reinforced with high-viscosity oils and sulfur-free, extreme pressure additives
- Prolongs tool life, reduces tool sharpening and down time
- Lubricates and cools at the cutting point

Uses: Sawing, tapping, grinding, machining, threading, and drilling. Recommended for use on all metals including stainless steel and soft metals such as aluminum, brass, and copper. Use on turret lathes, gear cutters, broaches, and automatic screw machines.

6001 TOOLMAKER'S INK BLUE

This specially formulated blue layout fluid is for use in tool and die making, pattern-making, machining and other related applications.

- Dries instantly; will not peel, flake or rub off
- Ultimate coverage for accurate scribing without glare
- Excellent adhesion to all metals, aluminum and glass
- Easily removed with Crown #6095 Toolmaker's Ink Remover
- Heat resistant, non-corrosive formula

Uses: Tool and die making, pattern making, machining, templates, machined parts and maintenance mechanicals.

9106 TAP TOOL

A synthetic lubricant that increases tool life by as much as 200%.

- Carries heat away from cutting edge and tool
- Reduces breakage and friction

Uses: For drilling, tapping, milling, threading, boring, broaching, reaming, turning, and engraving.

CAN SIZE (NET)	WEIGHT	CASE PACK

PROTECTIVE COATINGS

INSULATING EPOXY

A tough, flexible coating that protects and insulates exposed wires and electrical windings. Ideal for insulating coils, transformers and other electrical components.

- Air dries in 15 minutes, hardens in 1 hour
- Dielectric strength – up to 2,270 V/mil
- Excellent adhesion and high arc resistance
- Superior to lacquers and acrylics
- Class F thermal resistance
- Allows for motor heat expansion and contraction
- Resists abrasion and wear; will not chip, peel, or become brittle
- Resists oil, water, acids, and alkalis
- Penetrates, coats, and seals in one step

Uses: Field coils, motor windings, taped coils, exposed metal, frayed insulation, pitted motor windings, bus bars and switchboard parts, transformers, commutator ends, sealing electrical and electronic components, collector rings, transformers, armatures, and inside walls of control boxes.

595 UNDERCOATING AND SOUND INSULATOR

Aerovoc's Undercoating & Sound Insulator is a quick-drying, rubberized film designed to offer maximum coverage and superior insulation properties against road and chassis noise.

- Tough, flexible coating
- Superior protection against rust, road salt, mild alkali and acids, dust, fumes, and moisture
- Deadens sound
- Coating remains flexible; will not flake or chip off under vibration
- Not available for sale in the state of California

Uses: Auto underbodies, trunks, fender and body seams, rust holes, weld joints, gas tanks, fenders, rocker panels, door panels. Can also be used to seal rain gutters, coat tree wounds, for minor roof repairs, driveway cracks, and swamp and tower cooler coatings.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-ounce Aerosol (15 oz.)	16 lbs.	12 Cans

6005 BATTERY TERMINAL COATING

Provides a tough, durable coating for battery terminals, cables, and clamps.

- Resists the corrosive effects of battery acid, moisture, dirt, grease, and oil
- Provides an airtight and waterproof insulated coating
- Assures continued high-voltage output
- Prolongs battery life
- Prevents hard starting, current loss, and battery failure
- Adheres to all types of surfaces and remains flexible at low temperatures
- Will not crack, chip, or peel
- Dries quickly and protects instantly
- Insulated seal minimizes leakage

Uses: Effective on all types of batteries for auto, cycle, marine, and aircraft. Use on battery terminals, cable connectors, casings and frames, clamps and battery posts.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (12 oz.)	14 lbs.	12 Cans

6007 RUST INHIBITOR

Prevents rust on tools, steel stock, and parts. Provides temporary or extended protection of machinery. Great for long term indoor storage.

- Absorbs moisture
- Fortified with lanolin
- Neutralizes acid formed by corrosive atmosphere

Uses: Prevents rust on tools, steel stock, parts, and temporary or extended protection of machinery.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (11 oz.)	13 lbs.	12 Cans
Gallon Can	16 lbs.	2 Gallons
5-Gallon Pail	35 lbs.	1 Pail
55-Gallon Drum	354 lbs.	1 Drum

6013 CORROSION SUPPRESSANT 101

Provides excellent rust protection for metal parts that must be stored, indoors or outdoors, for long periods of time. Excellent for outdoor metal shipments and outdoor storage.

- Non-sticky, film provides excellent corrosion protection
- Seals out acid, moisture, air, salt water and other corrosive elements
- Neutralizes acid formed by corrosive atmosphere
- Prevents corrosion caused by fingerprints
- Penetrates cracks, assuring complete protection
- Easily removed with a mild solvent
- Does not contain silicone
- Does not contain CFCs, HCFCs, or chlorinated solvents
- Meets MIL-C-16173E, Grade 4

Uses: All metal surfaces, marine equipment, farm machinery, construction equipment, electric motors, engines, storage tanks, pipes, dies, molds, parts, tools, vehicle and machinery bodies and frames, containers, cables, industrial parts, electrical equipment, threads, locks, gears, railroad equipment, and sporting equipment.

6084 RED INSULATING VARNISH

Flexible, tough, oil-proof film. This insulating varnish is a Class F epoxy ester with a dielectric strength of 1200V/mil wet and 2100 V/mil dry.

- Cures completely in 24 hours
- Darkness of color indicates coating thickness
- Penetrates, coats, and seals in one step
- Class F thermal resistance

Uses: For armature and stator windings, high voltage circuits, coating frayed insulation, and to restore dielectric properties lost as a result of wear or damage.

8079 DRIVE BELT DRESSING

Prevents belt slippage and glazing for better motor efficiency and longer belt life.

- Restores suppleness and flexibility to belts
- Increases pulling power up to 50%
- Reduces squeaks and slippage by aiding in traction
- Effective on all types of belts, new and used; rubber, canvas, leather, and fabric
- Can be applied to belts while running
- Will not glaze or collect dirt or dust

Uses: Industrial belt drives including generators and fans; flat, round, or V-style belts, auto fan, water pump, transmission, power steering, farm machinery, appliance, air conditioners, equipment, and power tool belts.

COPPER ANTI-SEIZE COMPOUNDS

This copper-based anti-seize is designed to lubricate and protect most metals from corrosion and seizure.

- Will not harden, separate, or evaporate
- Protects parts under extreme heat, cold, pressure, steam, and salt water exposure
- Cannot be burned off and will not melt or run out after application
- Provides excellent lubricity and better make-up and breakout torque
- Durable, long-lasting film
- Does not contain clay or soap base thickeners
- Eliminates parts wear and breakage
- Contains the maximum blend of metallic boundary lubricants homogenized into a specially designed semi-synthetic lubricating grease
- Food grade anti-seize is available - see page 30
- Meets MIL-A-907E
- Does not contain CFCs, HCFCs, or chlorinated solvents
- Brush top bottle has angled applicator brush so entire contents can be removed
- Protects against corrosion, seizing, rust, galling, galvanic pitting, and carbon fusing

CLEANERS / DEGREASERS

399 Lfp CLEANER/DEGREASER

This fast-drying, industrial strength solvent is inexpensive and ideal for cleaning and degreasing. Removes grease, oil, wax, adhesives, and other contaminants without leaving a residue. Has a low flash point (Lfp).

- Fast evaporation
- Non-chlorinated
- High-pressure spray action and unique wetting action, penetrates and degreases
- Reduces failures and helps to increase equipment life by eliminating faulty operation of dirty moving parts
- Can be applied while mechanical parts are operating
- Non-corrosive, non-conductive formula displaces moisture
- High dielectric strength of 33kV/mm
- Does not contain CFCs or HCFCs
- Includes extension tube for precision application in hard to reach cracks and crevices

Uses: Motors, tools, machinery, metal parts, mechanical equipment, air conditioners, aircraft parts, automotive parts, bearings, chains, packaging machinery, compressors, generators, portable tools, office machinery, pumps, mechanical brakes and clutches, relays, gears, cables, locks, sporting equipment, solenoids, and more.

5070 CLEANER / DEGREASER - WB

A dilutable liquid concentrate developed to meet a variety of applications and surfaces.

- Water-based
- Non-flammable
- Non-butyl concentrate
- Does not contain chlorinated solvents
- Available in drums (5070D), and totes (5070T)

Uses: To clean grills, driveways, floors, fiberglass, vinyl, glass, lights, tile, mirrors, etc.

CAN SIZE (NET)	WEIGHT	CASE PACK
1-Quart Can	25 lbs.	12 Quarts

400 Nfp SAFETY SOLVENT H.D.

Aervoe 400 Safety Solvent HD effectively removes oil, grease, wax, dirt, and moisture. The high-delivery (H.D.) spray combined with its unique wetting action penetrates inaccessible areas, effectively flushing away contaminants without leaving a residue.

- No-flash point (Nfp)
- Clean warm motors in place
- Can be used on energized equipment
- High dielectric strength of 36kV/mm
- Reduces failures and helps to increase equipment life by eliminating faulty operation of dirty moving parts
- Non-corrosive, non-conductive formula displaces moisture
- Includes extension tube for precision application

Uses: Chains, motors, electrical boxes, aircraft parts, machinery, automotive parts, tools, mechanical brakes and clutches, relays, cables, locks, gears, portable tools, radar equipment, generators, bearings, compressors, switch gears, office machinery, pumps, mechanical brakes and clutches, and more.

E-Z-EST® PRODUCTS

Speed Dip® Silver Cleaner

This instant silver cleaner removes tarnish from sterling silver and silverplate without rubbing.

- Very economical, may be used over and over
- Fast acting, cleans instantly without rubbing
- Can be used on sterling, silverplate, duralite, gold, and copper
- Available in bulk packaging on request

CAN SIZE (NET)	WEIGHT	CASE PACK
1951 10-oz. Liquid	13 lbs.	12 Jars
1951G Gallon	20 lbs.	2 Gallons

Coin Cleaner

E-Z-Est Coin Cleaner is unmatched in its cleaning ability and is invaluable to the numismatist. There is no equal for cleaning coins.

- Special formula removes tarnish & finger marks quickly
- Coins stay bright long after cleaning
- Versatile - product has characteristics that lend itself to a multitude of applications, including the forensics field
- Cleans copper, gold, and silver coins

CAN SIZE (NET)	WEIGHT	CASE PACK
1985 5-oz. Liquid - 12 each	6 lbs.	12 Jars
1985G Gallon	20 lbs.	2 Gallons

8060 Nfp SAFETY SOLVENT

This quick drying, no flash point (Nfp) product removes grease deposits, oil, metallic particles, carbon dust, and other dangerous materials, and prevents costly flash-overs.

- Non-flammable, non-corrosive formula
- Can be used on energized equipment
- Fast evaporation; does not leave residues
- High dielectric 36kV/mm
- Clean warm motors in place

Uses: Safe for cleaning electric motors, lathes, mining equipment, grease fittings, molds, switches, generators, relays, brake linings, rheostats, and fuse holders.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-ounce Aerosol (20 oz.)	21 lbs.	12 Cans
Gallon Can	27 lbs.	2 Gallons

55-Gallon Drum	652 lbs.	1 Drum

8260 HEAVY DUTY CITRUS CLEANER /DEGREASER

A heavy duty degreaser that is safe on most plastics.

- Citrus based cleaner
- Wipes off without rinsing
- Does not leave a residue
- Does not contain CFCs, HCFCs, or chlorinated solvents

Uses: Removes grease and grime from alternators, pulleys, chains, brakes, engines, forklifts, etc.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-ounce Aerosol (15 oz.)	16 lbs.	12 Cans
1-Gallon Can	16 lbs.	2 Gallons

CONTACT CLEANERS

415 OFF-LINE CONTACT CLEANER H.D.

This fast evaporating cleaner is highly refined and designed for use on high-tech electronic hardware and PCBs and PWBs. It is safe for use on metal, plastics, rubber, and glass surfaces.

- Flammable, not to be used on energized equipment or in operation
- Quick, penetrating action, leaves no residue
- Plastic-safe
- Effectively removes grease, oil, dirt, and other contaminants, displaces water and moisture
- Includes extension tube for precision application
- High-delivery spray action assures complete saturation
- Unique wetting action cleans the finest of instruments, contacts, relays, precision mechanical or electrical solenoids, and other delicate hardware

Uses: Electrical components, connectors, contacts, magnetic tape heads, semiconductor assemblies, precision instruments, printed circuits, computer components, relays and controls.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-ounce Aerosol (15 oz.)	17 lbs.	12 Cans
Gallon Can	14 lbs.	2 Gallons
5-Gallon Pail	38 lbs.	1 Pail
55-Gallon Drum	375 lbs.	1 Drum

8377 ELECT. COMPONENT CLEANER

This no-flash, fast penetrating, high pressure cleaner is designed for precision cleaning on electronic hardware and printed circuit boards.

- Effectively removes grease, oil, dirt, and other contaminants
- No flash cleaner
- Dielectric strength 26kV
- Evaporates quickly without leaving a film or residue
- Safe on most plastics, coatings, or paints
- Includes extension tube for precision application
- Low surface tension allows for easy penetration and eliminates the need for disassembly of component parts
- Restores and maintains original electronic values and constants

Uses: Electrical contacts and terminals, semiconductor assemblies, precision instruments, circuit breakers, printed circuits, switches, relays and controls, mechanical or electrical solenoids, telephone equipment, motors, sensors, and televisions.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (14 oz.)	15 lbs.	12 Cans

8276 OFF-LINE CONTACT CLEANER

A fast-evaporating, low-odor cleaner for off-line equipment maintenance.

- Does not leave a film or residue
- Safe on most plastics and metals
- Does not contain CFCs, HCFCs, or chlorinated solvents

Uses: To be used on out-of-service electronic components. For relays, terminals, switches, etc.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (10.9 oz.)	13 lbs.	12 Cans

ADHESIVES

8177 MULTIPURPOSE ADHESIVE

Provides holding power on most surfaces, rough or smooth.

- Fast drying, just spray and stick
- California VOC-compliant
- Repositionable - flexible
- Best for non-porous surfaces
- Conical misty spray pattern
- Colorless

Uses: Ideal for light production work, especially the temporary pinning alignment of parts for final assembly. Adheres to paper, cardboard, wood, or metals.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-ounce Aerosol (14 oz.)	15 lbs.	12 Cans

8190 HI-STRENGTH ADHESIVE

This high-strength, industrial grade adhesive is ideal for extra-strong bonding of materials to a variety of surfaces.

- California VOC-compliant
- Low Soak-in
- Best for porous surfaces
- Extremely fast dry time: 1-minute to tack
- Web fan spray
- Withstands temperatures up to 130°F (54°C)
- Flexible and waterproof
- High sheer and peel strength

Uses: For bonding insulation, hard plastic, wood, metal, fabric, and paper.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-ounce Aerosol (12 oz.)	14 lbs.	12 Cans

8192 CONTACT ADHESIVE

A high performance, two-sided contact adhesive that will permanently affix flexible and rigid materials, such as laminates, many plastics, metal, and wood.

- Web Spray
- Bonds in one to three minutes
- 15% solids
- Withstands temperatures up to 190°F (88°C)
- California VOC compliant

Uses: For auto trim applications, van conversions, cabinet shops, and manufacturing assembly operations. Not recommended for use on vinyl.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-ounce Aerosol (14 oz.)	15 lbs.	12 Cans

8178 EPS FOAM/CONCRETE ADHESIVE

Aerove's unique pressure sensitive, upside down spray adhesive provides fast tacking and extra-strong bonding or laminating of expanded polystyrene (EPS).

- Product is flexible for adhesion to smooth or rough substrates
- Quick set up allows for faster construction times
- Binds both porous and nonporous surfaces
- Will not damage EPS
- Provides temporary light-duty performance or permanent bonds in heavy-duty applications
- Resistant to UV, heat, and water damage
- Stain free, mild odor formulation
- Not available for sale in California

Uses: Can be used throughout general industry and construction for bonding EPS to concrete and other surfaces.

CAN SIZE (NET)	WEIGHT	CASE PACK
20-ounce Aerosol (14 oz.)	15 lbs.	12 Cans

NON-DESTRUCTIVE TEST INSPECTION SYSTEMS

Crown die penetrant inspection systems quickly locate cracks and defects in metals, glass, and plastics. Ideal for NDT testing in the fields of welding, automotive (manufacturing and repair), aircraft, airlines, railroads, government, oil drilling, foundry, fastener, construction machinery, etc.

CONVENIENT AND PORTABLE TEST KITS

Group 1 and 1A Inspection Kits

Includes carrying case, instructions, 4 cans Cleaner, 2 cans Penetrant, 2 cans Developer

Fault Finder Kit Group 1A - #1010
 Fault Finder Kit Group 1 - #1070

GROUP 1A (INSPECTION KIT #1010)

1. Cleaner #1011
2. Penetrant #1012
3. Developer #1013

Conforms to MIL-I-25135. Active ingredients meet chlorine and sulfur requirements of NAVSHIPS 250-1500 and MIL STD 271.

Group 1A is certified low in chlorine and sulfur-bearing solvents. Group 1A is our *least flammable system* because of its carrier solvents.

CAN SIZE 12-oz. aerosol (Net)	WEIGHT	CASE PACK
1011 Cleaner (8.5 oz.)*	10 lbs.	12 Cans
1012 Penetrant (8.5 oz.)*	10 lbs.	12 Cans
1013 Developer (8.5 oz.)*	11 lbs.	12 Cans

*Only available for #1010 kit; these products also available in gallon 2-packs; add "G" to part number to order.

GROUP 1 (INSPECTION KIT #1070)

1. Cleaner #1071
2. Penetrant #1072
3. Developer #1073

Does not contain chlorine or sulfur-bearing solvents. Group 1 was developed specifically for test materials where halogenated safety solvents are not permitted.

This system meets RDT F-3-6T standard as established by the Atomic Energy Commission. Conforms to MIL-I-25135. Active ingredients meet chlorine and sulfur requirements of RDT F-3-6T Standard, NAVSHIPS 250-1500 and MIL STD 271.

CAN SIZE 12-oz. aerosol (Net)	WEIGHT	CASE PACK
1071 Cleaner (7.5 oz.)	10 lbs.	12 Cans
1072 Penetrant (8.5 oz.)	11 lbs.	12 Cans
1073 Developer (7.5 oz.)	10 lbs.	12 Cans

1. Spray on Cleaner and wipe off

2. Spray on Penetrant and allow time to set.

3. Wipe excess Penetrant from surface with Cleaner.

4. Spray on thin layer of white Developer.

5. Visual inspection. Red cracks and other faults will appear in white developer area.

MISCELLANEOUS

420 DUST AIR™

Aervoe Dust Air™ is a pure, non-CFC controlled air source that removes dust and airborne contaminants from delicate instruments without scratching the surface.

- High-delivery trigger spray action
- Includes extension tube for precision application in hard to reach areas
- Non-abrasive
- Safe for use on plastics
- Energized equipment use only
- Effectively removes microscopic particles of lint, ferrous oxide, and other contaminants
- Ideal for use on delicate components and instruments where residual entrapment could be a problem
- Dirt, dust, pollen, and other debris are forcefully dislodged from delicate instruments

Uses: Electronics, laboratory equipment, data processing and optical, precision mechanical parts, personal computers, electrical circuitry, and photographic equipment.

590 CARB & CHOKE CLEANER

Aervoe's Carb & Choke Cleaner is a fast-acting blend of solvents that maximizes carburetor performance.

- Eliminates rough idling, stalling, engine run-on, and starting hesitation
- Quick and easy to use
- Removes varnish build-up; does not leave a film or residue
- Will not harm catalytic converters or oxygen sensors
- Cleans heat risers by dissolving buildup around shaft
- Does not contain CFC's, HCFC's, or chlorinated solvents
- Includes extension tube for precision application in hard to reach areas
- Meets VOC requirements in all 50 states, including CARB

Uses: PVC valves, automatic chokes, carburetor components, crankcase breather elements, exhaust gas recycling valves (ERGs) and intake parts. Can be used in any carburetor or fuel injected gasoline engine.

591 LOW VOC BRAKE & PARTS CLEANER <10% VOC 592 BRAKE & PARTS CLEANER <20% VOC

This non-corrosive degreaser is effective in removing oil, grease, wax, dirt, and moisture from brake drums, linings, and pads. Low VOC version meets the stringent California VOC and SCAQMD Requirements.

- Non-chlorinated
- Dries in less than 2 minutes
- High-pressure action and unique wetting properties degreases and penetrates inaccessible areas
- Includes extension tube for precision application
- Stops annoying brake squeal
- Reduces airborne asbestos dust
- Keeps brake shoe pads at top level of performance
- Does not contain CFCs, HCFCs, or chlorinated solvents

Uses: Drum and disk-type brakes. Can also be used for cleaning chains, gears, bearings, clutches, U-joints, and other areas where grease and oil have accumulated.

860 GLASS & SURFACE CLEANER

This industrial glass and surface cleaner is a fast acting foam that cuts through dirt, grease, and grime to clean a variety of surfaces.

- Wipes off to a bright and sparkling, streak-free finish
- Removes greasy residue, fingerprints, road and factory film, and grime
- Will not scratch or harm glass, Plexiglas, or other plastic materials; will not harm painted surfaces
- Retards fogging

Uses: Glass and baked enamel objects, auto windshields, porcelain, vinyl surfaces, Plexiglas, laminated surfaces, countertops, tiles, stainless steel, chrome, bumpers, safety glass, and showcases.

HAND-Y CLEANING TOWELS

These waterless cleaning towels are lint-free, and are packaged in a convenient tub with a dispenser lid for easy access, or handy single-towel foil packs that go anywhere. The Hand-Y Pro Towel is smooth on one side and rough on the other for scrubbing grit action.

- Same great Crown towel
- Replaces many light hand cleaners
- Cleans hands, tools, equipment, and more
- Pre-moistened, no need for water
- Fresh citrus scent

Uses: Ideal for removing adhesives, grease, grime, ink, lubricants, tar, and other industrial stains and soils.

MOLD SPECIALTIES

Aervoe's high-quality mold specialties and release agents provide a variety of choices for every imaginable molding operation application.

3090 TOOL AND DIE SAVER

Protect stored tools and dies from moisture during storage. Ideal for long-term indoor storage.

- Absorbs moisture and neutralizes acid formed by corrosive atmosphere
- Easy to remove
- Delivers a greasy, elastic film that won't harden or crack with age
- Provides protection for indoor or outdoor storage

Uses: Good for chucks, set-up jigs, tools, stored metal molds and dies, and seldom-used parts.

CAN SIZE (NET)
16-ounce Aerosol (11 oz.)

WEIGHT
13 lbs.

CASE PACK
12 Cans

3091 MOLD AND DIE PROTECTOR

Maximum storage protection for valuable tools, jigs, hardware, molds, dies, and bare metal surfaces. Excellent for long distance shipment.

- Translucent waxy film that protects against dust, grime, and moisture
- Neutralizes fingerprints
- Ideal for short- or long-term storage
- Penetrates metal pores and spreads over entire surface to seal out air and moisture

Uses: Bare metal surfaces, molds, dies, tools, jigs, etc.

AERVOE MOLD RELEASES

A high quality line of aerosol, silicone, non-silicone, food-grade, and paintable mold releases that are **NON-FLAMMABLE** and **NON-CHLORINATED**. All are packaged with the Spray-Any-Way valve to accommodate application in any position. In this section of the catalog, Aervoe Mold Releases are indicated in **GREEN**.

RELIABLE MOLD RELEASES

Reliable Releases are low cost, **FLAMMABLE** and **NON-CHLORINATED** mold releases with low toxicity and environmentally friendly attributes. In this section of the catalog, Reliable Mold Releases are indicated in **RED**.

SILICONE MOLD RELEASES

Industrial strength release agents that are economically priced and help resist costly breakdowns.

- Silicone formulas
- Heat stable at temperatures up to 500°F (260°C)
- Increases molding efficiencies
- Allows for multiple parts releases per application
- Ideal for hot or cold molding processes
- Non-staining, non-corrosive formulas
- Low toxicity

Uses: Plastic injection molders, compression molders, extruders, and foundries, blow molders, investment castings, and candle molders. Recommended for use on A.B.S. resins, acrylics, wax, rubber, polyesters, cellulose and polystyrenes.

2011 FOOD GRADE SILICONE MOLD RELEASE

Food grade silicone release that is ideal for all polypropylene and polyurethane moldings, including toys, food containers, closures, etc.

- Non-staining, non-corrosive formula
- Ideal for hot or cold molds

Uses: Plastic injection molders, compression molders, extruders, and foundries, blow molders, investment castings, and candle molders. Provides excellent lubricating properties for guides, saws, conveyors, and rollers on packaging equipment.

3445	Heavy Duty Silicone 16-ounce Aerosol (13 oz.)	15 lbs.	12 Cans

PAINTABLE MOLD RELEASES

Specially formulated paintable silicone fluids provide excellent release properties that are ideal for all types of plastics where decorating is required after molding.

- Odorless, non-staining, non-corrosive formula
- Heat stable up to 500°F (260°C)
- Long lasting, anti-stick film
- Allows for multiple part releases per application
- Parts can be readily decorated with all types of solvent-based paints, enamels, and lacquers
- Increases molding efficiency
- Ideal for injection molding and hot or cold molding processes
- Compatible with most moldable resins, elastomer compounds, rubber, wax, and plastic

Uses: Hot or cold molding processes for rubber, polystyrenes, polyurethane foams, plastic, metal castings and elastomeric materials.

MOLD RELEASE COMPARISON RESULTS

Test results shown represent independent tests of mold releases by Plastics Product Review. The numbers reflect an average number of shots before part sticking occurs.

BRAND	PRODUCT	ABS	TPE	PP	ALL MATERIALS
Aervoe	Heavy Duty	7.8	7.0	11.4	8.73
Brand K	Heavy Duty	7.2	6.8	11.4	8.47
Brand D	Frekote	4.4	10.0	11.8	8.73

2014 T.F.E. DRY FILM MOLD RELEASE

This economical release provides excellent anti-stick properties that leaves a thin, dry film which doesn't transfer to finished parts.

- Non-silicone formula; contains PTFE
- Provides multiple releases per application
- Will not harm most plastics or attack rubber, paints, or metals
- Compatible with most urethanes and styrenes, moldable resins and elastomeric compounds
- Does not contain ozone depleting substances
- Will not interfere with post-finishing operations; parts can be painted, stenciled, hot stamped, glued, plated, or otherwise decorated
- Heat stable up to 500°F (260°C)
- Meets MIL-L-60326 MU Type II performance requirements

Uses: Nylon, rubber, foam, some plastics, metal, phenolic resins, filament windings, epoxy potting and encapsulating, polypropylenes, polystyrenes and polyurethanes.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (12 oz.)	13 lbs.	12 Cans

2015 ZINC STEARATE DRY POWDER MOLD RELEASE

High-grade, finely milled, dry zinc powder releases that controls hot spots, gobbing, and reduces rejected parts.

- Heat stable at temperatures up to 450°F (232°C)
- Repels dust and increases molding efficiency
- Ideal for thermosetting and thermoplastic applications
- Will not interfere with post-finishing operations; parts can be painted, stenciled, hot stamped, glued, plated, or otherwise decorated
- Excellent for start up operations
- Will not harm most plastics

Uses: Clear styrenes and acrylics, reflex lenses, rubber manufacturing and polysulfones, polycarbonates (LEXAN), most plastic molds, polystyrenes, molding ceramics and polypropylenes.

CAN SIZE (NET)	WEIGHT	CASE PACK
16-ounce Aerosol (12 oz.)	13 lbs.	12 Cans

PAINTABLE LECITHIN MOLD RELEASE

Designed for quick, clean releases on thermosets and thermoplastics.

- Will not interfere with post-finishing operations; parts can be painted, stenciled, hot stamped, glued, plated, or otherwise decorated
- Resists crazing and stress cracking
- Will not mar clear polyethylene, polystyrene, or other plastics
- Heat stable up to 500°F (260°C)

Uses: Plastic wrap cutting equipment, compression molding, gaskets and seals for tank closures, toy and furniture manufacturing, urethanes, epoxy resins, polyesters and polystyrenes.

3470 MOLD RELEASE & PROTECTOR

Wax-based mold release that eliminates part imperfections. Perfect for overnight protection - helps to eliminate flash rust caused from condensation after shut-down. Then at startup no need to remove, just shoot mold clean.

- Ideal for epoxy molding
- Ideal for manufacturers of flexible and rigid polyurethane
- Wax-based
- Overnight protection
- No silicones

Uses: Epoxy molding, polyurethane, and phenolics.

SHIPPING ESSENTIALS

Aervoe Shipping Essentials® were designed for ease of use in small and medium size shipping/receiving operations. Fast-drying, highly opaque Stencil and Cover-Up Inks and two industrial grade adhesives meet the requirements of the most demanding users.

STENCIL INKS AND COVER-UP INKS

Aervoe Stencil and Cover-Up Inks are fast-drying, highly opaque coatings for use where product coding, stenciling, color coding, applying instructional information or covering over old markings is required.

- Dry to touch in 3 minutes; allows for fast handling in production lines
- Complete coverage in one application
- Will not smear or smudge
- Hot or cold applications
- Water proof and weather resistant
- Provides excellent outdoor color retention
- Can be applied to virtually any porous or non-porous surface
- Matched to Fed Std. 595 colors
- Meets MIL-A-A-208A

Uses: Corrugated boxes, cartons, paper, fabrics, wood, plastics, stone, concrete, asphalt, metals, glass, masonry, wood crates, steel coils, fiber or steel drums, and lumber.

876 CARTON ADHESIVE

This high-strength industrial adhesive is specially formulated for either temporary or permanent bonding to uneven or porous surfaces and weighted materials.

- Strong, flexible, and waterproof
- Provides immediate grab with low soak in characteristics
- Wide web spray pattern
- Will not bleed, stain or wrinkle
- For permanent or temporary bonds
- Quick set up allows for faster production times
- Effectively bonds materials such as leather, cardboard, most plastics, polyethylene sheeting and cloth
- Does not contain chlorinated solvents or ozone depleting substances
- California VOC compliant

Uses: Use for carton sealing, fiberglass insulation, weather stripping, felt bonding, label application, truck and aircraft interiors, tacking drop cloths, bonding gaskets in water pumps, adhering upholstery, metal-to-metal contact applications and decorative laminates.

875 LABEL ADHESIVE

Aervoe Label Adhesive is formulated for permanent or temporary bonding of a variety of materials to painted, unpainted, smooth, or rough surfaces.

- Fast-drying, colorless adhesive adheres in seconds
- Provides immediate grab with low soak in characteristics
- Provides a very long tack range
- Will not bleed, stain, or wrinkle
- Bonds porous and non-porous surfaces
- Misty conical spray
- Allows for material repositioning
- Does not contain chlorinated solvents or ozone depleting substances
- California VOC compliant

Uses: Lightweight materials such as labels, paper, foam, rubber, cloth, cardboard, stencils, felt, fabric, arts and crafts, photographic prints, acetate, foil, and most plastics.

UTILITY/MUNICIPAL SPECIALTY PRODUCTS

Aervoe Industries offers a high quality comprehensive line of outside plant maintenance products specifically for utility and municipal applications. These specialized formulations were designed to meet demanding outdoor maintenance applications and provide the superior product characteristics that customers have come to expect from Aervoe.

862 HORNET & WASP SPRAY

Use this fast-acting, powerful aerosol spray to saturate nests instantly and eliminate hornets, wasps, and yellow jackets from inside (attics and other areas where nests are built) and outdoors.

- USDA F-2
- Sprays up to 20 feet; pinpoint stream reaches dense and hard to reach cracks and crevices
- High-delivery valve for complete saturation
- High percentage of active ingredient ensures the best knockdown and kill rate
- High dielectric strength of 41kV/mm
- EPA Reg. No. 11623-38-27417
- Lasting residual deposit prevents reinfestation for weeks
- Approved for sale in the state of California
- Not available for sale in Canada

Uses: Ideal on utility meters and boxes, outside surfaces of screens, doors and window frames, nesting areas in shrubs and bushes, telephone poles and eaves. Also for use at golf courses, picnic grounds, beaches, warehouses, and storage areas where food is not exposed.

CAN SIZE (NET) 20-oz Aerosol (14 oz.) **WEIGHT** 17 lbs. **CASE PACK** 12 Cans

INSECT REPELLENT

Aervoe's Insect Repellent is available in individually packaged, pre-treated towels.

FOIL-PACK TOWEL

- 30% DEET
- EPA Reg. #11694-111-27417, EPA Est. #11694-KS-1
- Not available for sale in Canada

Uses: Provides hours of protection from mosquitoes, biting flies, ticks, chiggers, and fleas. Apply directly to clothes or skin. Frequent applications are not necessary.

CAN SIZE (NET) 885 Foil-Pack Towel (8" x 10") **WEIGHT** 4 lbs. **CASE PACK** 100 Towels

889 SUNSCREEN TOWEL

Sunscreen protection in an individually packaged, pre-treated towel.

- SPF 30
- Blocks UVA and UVB rays
- Water resistant
- No greasy residue
- Reduces skin damage and premature aging that occurs with unprotected skin

Uses: On all exposed skin areas.

PKG. SIZE (NET) Foil Pack Towel (8" X 10") **WEIGHT** 4 lbs. **CASE PACK** 100 Towels

5062 ANTI-VANDAL SPRAY

A clear spray blend of solvents that removes lipstick, pencil, ink, crayon, and spray paint from a variety of hard surfaces.

- Ideal for public areas prone to graffiti abuse
- Removes stubborn marks from road signs, washrooms, buildings, sidewalks, underpasses, and a variety of other surfaces
- Safe for use on most hard, unpainted surfaces, including concrete, brick, wood, fiberglass, ceramic tile, Formica, and some plastics
- Eliminates the need to sandblast and grind marks off concrete and brick surfaces

Uses: For use on tile, brick, aluminum, steel, granite, marble, Formica, and dozens of other hard surfaces. Ideal for removing unwanted marks from road signs, metal panels, washrooms, public buildings, sidewalks, underpasses, school locker rooms, transit system buildings and vehicles, and rail cars.

5205 WATERWORKS COATINGS REMOVER

Crown Waterworks Coatings Remover has a unique ability to utilize the physical energy released by chemical reactions to break the bond between the coating and the substrate, which lifts the paint off and allows it to be washed away.

- Water-based paint and varnish remover
- Easy clean-up
- Works on most paints
- Easy on the environment

Uses: Effectively removes paint from steel, aluminum, and other alloys, wood, masonry, and a variety of other substrates. Performs effectively on polyurethane, urethane, epoxy, lacquer, varnish, alkyds, and latex paints.

CAN SIZE (NET)

Sprā-tool® Spray Gun

Provides fast, professional results. The Sprā-tool® operates on the same principle as commercial spray guns without the bulky equipment. Its unique design will atomize nearly any liquid, including latex paint. Fast action trigger maintains constant pressure for a smooth, professional-looking finish.

APPLICATIONS

- Homeowners can purchase any color latex paint and use the Sprā-tool® at home
- Contractors and maintenance workers needing the perfect touchup tool can purchase custom colors and use on the job site
- Perfect for stain or varnish projects

TIP CHOICES

- Red - high delivery
- White - regular delivery
- Blue - fine mist

Interchangeable spray tip inserts

Sprā-tool® Snap-on Head #8213 (extra insert spray tips n/c)

- No wires, hoses, batteries, or bulky compressors
- Interchangeable spray tip inserts
- Sprays most liquids, including higher-viscosity paints such as latex (thin 50% for proper operation)
- Ideal for fast drying, short-life epoxies
- Controlled spray pattern provides even coverage
- Convenient size with resealable poly jar
- Safe to transport
- Fast clean-up, no brushes, rollers, or pans

Uses: Cover scratches and paint blemishes on pick ups, forklifts, antique cars, buses, bikes, boats, walls, trim, doors, etc. A quick and easy way to refinish shutters, decks, outdoor furniture, flag poles, craft items, etc. Can also be used to apply insecticides to protect plants from insects and diseases.

BULK DELIVERY SYSTEMS

GPT (GIANT PRESSURIZED TANK)

Designed to deliver the ultimate in efficiency and performance for a wide variety of industrial and OEM applications. The GPT provides the convenience of an aerosol spray with the cost savings of a longer lasting bulk container.

- Refillable 5-gallon tanks minimize storage concerns
- Eliminates aerosol can disposal issues
- Delivers the ultimate in efficiency and performance
- Disperses cleaners, lubricants and mold release agents
- Spray valve and tip match actual aerosol can components
- Ideal for industrial and O.E.M. use

A.S.A. — American Standards Association. Of particular interest in setting the color standard reference for electrical industry equipment.

ANSI — American National Standards Institute - A published guide for product color matching standards for O.S.H.A., APWA, traffic, and striping paint products.

Aromatic Solvents — Solvents with strong evaporation odor and whose main chemical structure is the benzene ring. Toluene, xylene, ethyl benzene, and others are of this type. While they do not have the extreme adverse health affects of benzene, there are more and more studies showing them to pose significant health risks. They are also in a group of the most reactive air pollutant organic compounds.

Atomize — To divide a liquid into extremely minute particles, either by impact with a jet stream of compressed gas, or by passage through a mechanical device (spraytip).

Biodegradable — Capable of being decomposed by bacteria or other living organisms.

California Proposition 65 — A California State Act: "Safe Drinking Water and Toxic Enforcement Act" effective in 1987 that requires special labeling of products deemed by that state to cause cancer or reproductive toxicity. Not consistent with any Federal Hazardous Substance labeling requirements, sets no action levels for any ingredients, but refers to trace elements.

CARB — California Air Resources Board

Category H-1 — Acceptable as a lubricant with incidental food contact for use in official establishments operating under the Federal Meat and Poultry Products Inspection Program. Such products may be used on food processing equipment as a protective anti-rust film, as a release agent on gaskets or seals of tank closures, and as a lubricant for machine parts and equipment in locations in which there is potential exposure of the lubricated part to food.

C.A.S. Number — Chemical Abstract Service number is used to identify a chemical ingredient.

The service is an organization which indexes information published in Chemical Abstracts by the American Chemical Society, and provides index guides by which information about a particular substance may be located.

CFCs — Chlorofluorocarbons are a family of inert, non-toxic, and easily liquefied chemicals used in refrigeration, air-conditioning, or prior to 1976, as a solvent and aerosol propellant. Because CFCs are inert and not destroyed in the lower atmosphere, they drift into the upper atmosphere where their chlorine components destroy ozone. Aervoe products contain no CFCs.

Chlorinated Solvents — Volatile liquids containing one or more chlorine atoms in their structure. Widely used in cleaning applications where non-flammability and rapid evaporation rate is required. Exempt for many years from VOC regulations, and widely used because they are non-flammable.

Corrosive — A chemical agent that reacts with the surface of a material, causing it to deteriorate or wear away.

CPSC — Consumer Product Safety Commission

Dielectric Properties — The measurement of a material's ability to insulate (or not conduct) electricity; in other words, a measure of the ability of the material to maintain a difference in electrical charge over a specific distance.

Evaporation — The process of a solvent or liquefied gas dissipating in a vapor or invisible minute particles.

FDA — Food and Drug Administration

Federal 595 Color Standards — A wide range of color chips for a matching reference system in world-wide uniform color matching.

Flame Propagation (F.P.) Flammability Test — Test method used to determine flammability rating as expressed on the front panel of an aerosol can label. The test involves spraying product through a candle flame and measuring the distance of the flame extension and observing for flash-back to the sprayhead.

Flammability — How easily something will burn or ignite, causing fire or combustion. OSHA defines flammable liquids as having a flashpoint below 100°F. Extremely Flammable is defined by a flash point below 20°F.

Flash Point — The minimum temperature at which a liquid gives off sufficient vapors to form, with air, an ignitable mixture.

FTC — Federal Trade Commission

Greenhouse Effect — The warming of the earth's atmosphere caused by a build-up of carbon dioxide or other trace gases. This allows the sun's rays to heat the earth, but prevent a counter-balancing loss of heat.

IATA — International Air Transport Association provides procedures for the shipper and the operator by which articles and substances with hazardous properties can be safely transported by air on a commercial air transport.

IMDG Code — International Maritime Dangerous Goods Code is a detailed international regulation for shipments of marine pollutants as ocean cargo. Their classification and storage location requirements are designed to prevent harm to the marine environment.

KB Value — A measure of the solvent power for a hydrocarbon solvent, and is governed by an ASTM standardized test, ASTM D1133.

Lead Content — Many orange, yellow, and red paint products today still use inorganic pigments which contain heavy metals such as lead, chromium and cadmium. Organic replacement pigments can be used to provide the identical colors, but require more pigment, resulting in higher cost. Aervoe products contain no lead.

Liquefied Propellants vs. Compressed Gases — Most common liquefied propellants are dimethyl ether, butane, isobutane, and propane (hydrocarbons), or blends of the four. They have very low boiling points, and exit as a gas at ambient temperatures and atmospheric pressure. Under pressure as in an aerosol container, they are liquids, and are intimately mixed with the other ingredients of the formulation. As the product is dispensed from the container,

the pressure drops and the liquefied propellant boils, causing atomization of the product. In contrast, compressed gases such as carbon dioxide, nitrogen, air, and nitrous oxide do not liquefy at the pressure inside the container. They mix only very slightly with the other components of the formula. Compressed gases deliver product by acting as a piston to push product to the aerosol sprayhead.

MIR — Maximum Incremental Reactivity. Developed for use by the California Air Resources Board (CARB) for various regulatory applications. Currently used in conjunction with VOC (Volatile Organic Compounds).

M.S.D.S. — Material Safety Data Sheets required by O.S.H.A. for worker right-to-know regulations describing the product's hazardous ingredients, and safety precautions associated with its use.

NFPA-30B — National Fire Prevention Association 1991 standard. NFPA 30B is a standard for the manufacture and storage of aerosol products. The standard establishes classification for levels of aerosols. The levels are I, II, and III, each classified by the percentage of flammable material in them, Level I having the least amount and Level III having the greatest amount.

Net Weight vs. Fluid Ounces — Net weight expressed in ounces or grams is the weight of the contents of the package. Fluid ounces is the volume of liquid content of the package. By example, a gallon of water weighs more than a gallon of gasoline, but fills the same volume of space. For aerosol cans, the required measurement of the ingredients is by net weight.

Non-Ferrous Metal — Metals that contain no iron.

NSF Authorized — National Sanitation Foundation. When noted, Aervoe coatings, lubricants, cleaners and corrosion protection products have been formulated to be accepted for use under the Federal Meat and Poultry Inspection Program by the NSF. The final granting of authorization for the proposed use of any such compound is the responsibility of the inspector in charge of the official facility.

ORM-D — A material such as a Consumer Commodity which, although otherwise subject to the regulations of 49 CFR 172.101, presents a limited hazard during transportation due to its form, quantity, and packaging. For a product to meet the ORM-D classification it must meet the Consumer Commodity and limited quantity definitions. Aerosol containers under twenty-eight fluid ounces are classified as ORM-D.

OTC States — Ozone Transport Commission. A multi-state organization created under the Clean Air Act (CAA). Responsible for advising EPA on transport issues and for developing and implementing regional solutions to the ground-level ozone problem in the Northeast and Mid-Atlantic regions.

Ozone Depleting Substance (ODS) — Identified Class I and II chemicals per the Clean Air Act Amendments of 1990 which must contain warning notices on the product label as of May, 1993. These are volatile chemicals containing chlorine atoms in their structure and must be stated "to be harmful to public health and the environment."

pH — A measure of the acidity or alkalinity of a solution.

PSI — Pounds per square inch.

Steel Can Recycling Logo — Can recycling symbol to encourage the recycling of all containers made from steel, including aerosols. Aervoe Industries Incorporated has actively supported steel can recycling for more than 20 years.

REACH — Registration, Evaluation, Authorization and Restriction of Chemicals. Adopted by the European union on December 18, 2006 to improve the protection of human health and the environment while maintaining the competitiveness and enhancing the innovative capability of the EU chemicals industry. The Consumer Products Safety and Quality (CPS&Q), formerly known as the European Chemicals Bureau (ECB) was responsible for developing methodologies, tools and technical guidance needed for implementation.

SCAQMD — South Coast Air Quality Management District.

TAC — Toxic Air Contaminants

Tag Closed Cup (TCC) Flammability Standard — Also known as Tag Closed Test (TCT), is one of several types of apparatus for determining flash points. This test is intended for use with liquids having a viscosity less than 45 SUS (Saybolt Universal Seconds) at 100°F (38°C), and a flash point below 200°F (93°C).

Viscosity — A measure of the resistance of a fluid, which is being deformed by either shear stress or tensile stress.

VOC — Volatile Organic Compounds

Water-based vs. Water-added — True water-based aerosols are propelled with dimethyl ether, and contain water, which is working as a vital component of the solvent system. Water-added products are solvent-based products to which a surfactant and water has been added. The presence of added water has only a slight effect
