

CUP MAGNET ASSEMBLIES

Plated Cup Magnet Assemblies

Secure tarps, cables, wires, brooms and more to any steel surface, including overhead beams, ceiling decks, drop ceiling channels and metal joists. These cup magnet assemblies are quickly installed and repositioned. Plated, low profile, cup magnet assemblies are ideal for holding, hanging, mounting and more.

Note: Ceramic cup magnets are heat resistant up to 300°F (148°C). Rare Earth cup magnets are heat resistant up to 180°F (82°C). Cup magnet (base) +/-0.005" on all dimensions.
