PPE Training & Safety Education

MSA has helped protect our customers for over 100 years in all facets of personal protective equipment and services. With this in mind, we recognize that education and training play an integral part as well. We offer:

- **Virtual Led Training (VLT)** — a customized, real-time learning experience conducted by an MSA Instructor via video conferencing.
- **MSA-U® Online Training** — get access to over 150 courses day or night—for free.
- **In-Person Training at One of our State-of-the-Art MSA Training Centers** — allows us to teach students how to safely select, inspect and use PPE in true-to-life simulations.
- **On-Site Safety Training** — we can help you reduce lost time and liability through on-site documented competent equipment inspections.
- **On-Site Survey, Hazard Assessment, & Audit** — an MSA trained professional will conduct a walkthrough of your facility and provide a comprehensive written report documenting risks and recommendations.

See pp. 207–209 for more information about MSA’s training options.

Award-Winning Customer Service

*Every customer wants it.
Every good business has it.*

Our multiple-award-winning Customer Service Center proves that MSA strives for continuous improvement in customer satisfaction. Every year brings positive changes: better-trained associates with more advanced processes, resulting in improved service and faster solutions. Each Customer Service Associate's computer workstation can simultaneously handle a variety of applications, and an automated call distributor monitors and routes call flow to ensure peak performance. Customer Service continues to look for ways to improve its relationship with customers via surveys. Our goal is to provide exceptional customer service, which in turn creates customer loyalty.

The MSA Customer Service Center provides:

- **Pre-Sales Support**
 - Prepare quotations/bids
 - Product support and recommendations
- **Sales Order Support**
 - Process purchase orders
 - Provide price and availability information
 - Order status/delivery information
- **Post-Sales Support**
 - Product support—use and troubleshooting
 - Shipment tracking
 - Order/shipment issue resolution
 - Repair service notifications—return authorizations
 - Credit and corrected invoice requests

N. A. Export Customer Service

Our extensive network of distributors, representatives and MSA-affiliate companies covers most major cities worldwide. Highly-trained international customer service associates guide your export orders from placement to delivery. MSA uses all major air and ocean freight forwarders and courier services due to their ability to consolidate multiple orders and minimize freight expenses. Associates understand international inspections, certifications, licensing and other customs issues necessary for successful importation.

Respiratory Protection

Air-Purifying Respirators
Powered Air-Purifying Respirators
Air-Line Respirators
Self-Contained Breathing Apparatus

Advantage® 420 Half-Mask Respirator

- UniBond over-mold facepiece, AnthroCurve™ face seal, and low-profile design ensures excellent comfort and fit
- Easily switches between lock-down and drop-down mode
- Built-in moisture release chin cup hole, and extra-wide head and neck straps
- Designed for easy integration with other personal protective equipment such as safety glasses and welding shields
- Latex-free
- **Applications include:** asbestos abatement, painting, welding, sanding & grinding

For more information, please see MSA bulletin 1012-57-MC.

	Small	Medium	Large	
ADVANTAGE 420 RESPIRATOR	10102182	10102183	10102184	Advantage 420 Assembly (includes facepiece, head cradle, elastic straps, buckle set, yoke with lever, two (2) inhalation valves, one (1) exhalation valve)

Easy 3-Step Donning Process

Advantage® 900 Half-Mask Respirator

- Innovative and secure respiratory solution for essential workers, first responders, and healthcare workers.
- With the elimination of an exhalation valve, the Advantage 900 Respirator achieves source control by filtering exhaled breath to help reduce the likelihood of contaminating the surrounding area.
- Cost-effective and eco-friendly alternative to disposable filtering facepiece respirators.
- Enables user protection up to P100 level.
- Mechanical speaking diaphragm helps to improve communication between the wearer and others.

For more information, please see MSA bulletin 1012-66-MC.

	Small	Medium	Large	
ADVANTAGE 900 FACEPIECES	10218527	10218528	10218529	Advantage 900 Respirator

NOTE: Advantage 900 is approved for use with Advantage style particulate filter cartridges only. It is not approved for use with flexi, chemical or combination cartridges.

▶ See page 8 for Advantage filters and cartridges and page 9 for flexible pad-style filters.

Advantage® 200 LS Half-Mask Respirator

				• Lightweight, cost-efficient • Thermoplastic rubber increases softness and decreases weight • Patented MultiFlex® System equalizes pressure on the face-seal area, ensuring the respirator doesn't collapse during wear • AnthroCurve face seal conforms to each user's face • Applications include: asbestos abatement, painting, welding, sanding & grinding For more information, please see MSA bulletin 1012-42-MC.
	Small	Medium	Large	
ADVANTAGE 200 LS FACEPIECES	815696	815692	815700	Advantage 200 LS Respirator, with 2-piece neckstrap
	815448	815444	815452	Advantage 200 LS Respirator, with single neckstrap

Advantage® 290 Half-Mask Respirator

 				• First NIOSH-approved half-mask respirator <i>without exhalation valve</i> to achieve source control and minimize risk of introducing infectious agents via exhaled breath. • Cost-effective and eco-friendly alternative over filtering facepiece respirators such as N95. • The Advantage 290 is approved for use with Advantage style particulate filter cartridges only. It is not approved for use with flexi, chemical or combination cartridges. For more information, please see MSA bulletin 1012-60-MC.
	Small	Medium	Large	
ADVANTAGE 290 FACEPIECES	10217165	10217166	10217167	Advantage 200 LS Respirator, with 2-piece neckstrap

Comfo® Classic Half-Mask Respirator

				• SoftFeel® rubber and silicone facepieces enhance softness, increasing wearer comfort • Face seal design provides secure, comfortable fit • Color-coded sizing system makes sorting and identification easy For more information, please see MSA bulletin 1012-02-MC.
	Small	Medium	Large	
COMFO CLASSIC FACEPIECES	808075	808074	808076	Comfo Classic Facepiece, SoftFeel hycar
	808072	808071	808073	Comfo Classic Facepiece, SoftFeel silicone

▶ See page 8 for Advantage filters and cartridges and page 9 for flexible pad-style filters.

▶ See page 9 for threaded Comfo cartridges and filters.

Advantage® 4000 Series Full-Facepiece Respirators

Advantage 4100 Facepiece,
single port, w/net head harness

Advantage 4200 Facepiece w/polyester net
head harness & GMA/OV cartridges

Welder's Adapter
for Advantage 4200 Respirator

- Both twin-port and single-port facepieces are compatible with several MSA respirator models, including air-purifying respirators, supplied-air respirators, and powered air-purifying respirators
- Standard noseclip reduces lens fogging
- Components lock into place in seconds for quick, convenient performance

For more information,
please see MSA bulletin 1012-42-MC.

Advantage® 3000 Series Full-Facepiece Respirators

Advantage 3200 Respirator with rubber harness and chemical cartridges

Advantage 3200 Facepiece with European-style harness

Advantage 3100 Facepiece with rubber harness

- Full-face respirator features innovative design to lower breathing resistance
- Integrated noseclip reduces lens fogging
- Silicone facepiece increases wearer comfort
- Scratch-resistant, optically correct wraparound lens provides wide field-of-vision
- Optional European-style Advantage head harness dons like a catcher's mask
- **Applications include:** asbestos abatement, welding, sanding & grinding

For more information, please see MSA bulletin 1012-42-MC.

	Small	Medium	Large

	10031343	10031342	10031344	Advantage 3100 Facepiece, with European-style harness

Ultra-Twin® Full-Facepiece Respirator

Ultra-Twin Respirator (small) with GMC threaded metal Comfo Cartridges

- Ideal for defense against toxic chemicals
- Wide lens is scratch resistant
- Speaking diaphragm provides clear communications
- Nosecup reduces lens fogging

	Small	Medium	Large	
ULTRA-TWIN FACEPIECES	471298	471286	471310	Ultra-Twin Facepiece, hycar
	480263	480259	480267	Ultra-Twin Facepiece, silicone

▶ See page 8 for Advantage filters and cartridges and page 9 for flexible pad-style filters.

▶ See page 9 for threaded Comfo cartridges and filters.

▶ See page 10 for accessories, and pages 11–12 for fit test kits.

Ultra Elite® Twin-Cartridge Full-Facepiece Respirator

- Widely used mask provides excellent comfort and protection
- Distortion-free lens allows wide field-of-view
- Models include Hycar rubber and silicone versions
- Unique airflow prevents lens fogging
- Speaking diaphragm provides excellent close-range communication

	Small	Medium	Large	
ULTRA ELITE FACEPIECES	10016755	10016756	10016757	Ultra Elite Facepiece, SoftFeel silicone, with twin-cartridge adapter
	493064	493020	493108	Ultra Elite Facepiece, SoftFeel hycar, less twin-cartridge adapter
	493072	493928	493116	Ultra Elite Facepiece, SoftFeel silicone, less twin-cartridge adapter

Note: Ultra Elite Facepieces must be fitted with a twin-cartridge adapter P/N 803622 to be used as a twin-cartridge respirator.

Advantage® Respirator Cartridges			Acid Gases															
The Advantage line of particulate, chemical and combination cartridges is NIOSH-certified to 42 CFR, Part 84 and provides lightweight, low-profile performance. Cartridges fit 200 LS and 420 Half-Mask, G1, 1000, 3000 and 4000 Series Full-Facepiece Advantage Respirators. N95 Snap-On Prefilter and Cover	815394 Pack of 10 816357 Box of 50 815392 Reusable Snap-On Cover, 2 in a pkg	⚠ WARNING																
R95 Snap-On Prefilter and Cover	815397 Box of 20 815401 Reusable Snap-On Cover, 2 in a pkg	An appropriate cartridge change-out schedule must be developed by a qualified professional, unless the cartridge/canister utilizes an end-of-service-life indicator. The change-out schedule must take into account all factors that may influence respiratory protection including specific work practices and other conditions unique to the worker's environment. If using against substances having poor warning properties, there is no secondary means of knowing when to replace the cartridges/canister. In such cases, take appropriate additional precautions to prevent overexposure, which may include a more conservative change-out schedule or using an air-supplied respirator or SCBA. Failure to follow this warning can result in serious personal injury or death. As a reference, below is a partial list of substances having poor warning properties:																
Definitions																		
N95-Particulate Filter (95% filter efficiency level) effective against particulate aerosols free of oil; time use restrictions may apply.		Acrolein			Hydrogen cyanide			Nitric acid			Phosphorus trichloride							
		Aniline			Hydrogen selenide			Nitro compounds			Stibine							
R95-Particulate Filter (95% filter efficiency level) effective against all particulate aerosols; time use restrictions may apply.		Arsine			Methanol			Nitrogen oxides			Sulfur chloride							
		Bromine			Methyl bromide			Nitroglycerin			Urethane or other diisocyanate-containing paints							
P100-Particulate Filter (99.97% filter efficiency level) effective against all particulate aerosols.		Carbon monoxide			Methyl chloride			Nitromethane										
		Diisocyanates			Methylene chloride			Phosgene			Vinyl chloride							
		Dimethyl sulfate			Nickel carbonyl			Phosphine										
Notes																		
1. Do not use in atmospheres containing less than 19.5 percent oxygen, in atmospheres containing gases or vapors or in atmospheres immediately dangerous to life and health.																		
2. Do not use in atmospheres containing less than 19.5 percent oxygen, or in atmospheres immediately dangerous to life and health.																		
3. Do not wear for protection against organic vapors with poor warning properties or those which generate high heats of reaction with the sorbent material in the cartridge.																		
4. 99.97 percent efficient against 0.3 micron DOP.																		
5. Both a prefilter and cover must be used with the cartridge in order to obtain R95 or N95 particulate protection.																		

Comfo® Respirator Cartridges

The Comfo line of particulate, chemical and combination cartridges is NIOSH-certified to 42 CFR, Part 84. Cartridges fit Comfo Classic, Ultra-Twin, Ultra Elite Twin-Cartridge and Duo-Twin Respirators, and certain half-mask and full-face G1, Advantage Respirators with Adapter (P/N 809999).

* Effective against, but not NIOSH-approved for Iodine Vapor. Note: See WARNING on previous page.

Flexi-Filter® Pads for Advantage Respirators

These low-profile, flexible pads fit well under a welding hood and with other personal protective equipment. They offer great balance and weight distribution for maintaining a good face seal, while their swept-back design provides improved vision and comfort.

Cleaning Supplies

	
PRODUCT NAME	MSA Confidence® Plus 2 Germicidal Cleaner
DESCRIPTION	Mix with warm water for a germicidal cleaner that is effective against various micro-organisms including immunodeficiency virus Type 1 (HIV-1, associated with AIDS). EPA-approved for use on safety equipment.
PART NO.	10009971 (US) 10032737 (Canada)

	
PRODUCT NAME	Personal Safety Equipment Towelettes
DESCRIPTION	Provides an excellent method for wiping and refreshing respirators, hardhats, and other safety equipment between full cleaning periods.
PART NO.	697383 – Box of 100 individually wrapped towelettes (7-1/4" x 5") 697382 – Canister with 220 towelettes (4-1/4" x 6") 10022871 – "The Big Ones", box of 50 individually wrapped towelettes (8" x 11")

Online Resources

Online Response® Respirator Selector

Available at www.MSAafety.com/responseguide

- Helps identify the proper respirator you need
- Has broadest range of respiratory protective devices available
- Recommends respirators for more than 700 chemical hazards

Cartridge Life Expectancy Calculator

Available at www.MSAafety.com/responseguide

MSA's interactive web pages help users determine the life expectancy of specific respirator cartridges in various hazardous situations. This information provides guidance for how long a cartridge should be used before it must be replaced.

* If only qualitative fit test is performed on a full-face negative pressure respirator, then an APF of only 10 can be assigned. If a quantitative fit test is performed, the APF is 50.

± MSA recommends a fit factor of 2000 if the application is a CBRN environment.

† For quantitative fit testing of pressure-demand facepiece, the facepiece must be tested in a negative pressure mode which requires a minimum fit factor of 500.

‡ The Quik-Chek Adapter allows quantitative fit tests to be performed on a pressure demand Ultra Elite Firehawk facepiece by only trained and qualified personnel. Special probed facepiece is not required.

OptimAir® Mask-Mounted Powered Air-Purifying Respirator (PAPR) with Type HE OptiFilter® XL Filter

OptimAir Mask-Mounted PAPR Kits consist of motor/blower, NiMH battery, dual-rate charger, one Type HE OptiFilter XL Cartridge, PVC decon belt, and choice of facepiece. Housing of polycarbonate/polyester construction and stainless steel connectors result in extreme durability. NIOSH-approved as mask-mounted PAPR. **OptimAir Mask-Mounted PAPR offers a full two-year warranty.**

Features

Motor/blower assembly

- Assembly threads onto facepiece inlet; does not impede vision or facepiece fit.
- Connects to battery pack with heavy duty lockable stainless steel power cable connector.
- Lightweight, compact design.
- Low maintenance, easy decontamination.

Compact, lightweight, NiMH battery pack

- Sealed 12.5-oz. NiMH battery pack is small enough to fit in most pockets.
- NiMH batteries do not have NiCad battery memory effect.
- Battery pack is water-resistant for easy shower decontamination.
- Operates for more than eight hours under most conditions.

Approvals and Standards

OptimAir Mask-Mounted PAPR carries NIOSH approval No. TC-21C-0823. Filters must be replaced when air flow drops below 4 cfm (115 lpm).

NOTE: OptimAir Mask-Mounted PAPR is not NIOSH-approved for use with gas, chemical or combination cartridges. Use only Type HE OptiFilter XL Filter.

OPTIMAIR MASK-MOUNTED PAPR KITS

All Kits include: motor/blower, NiMH battery, dual-rate battery charger and cable, one Type HE OptiFilter XL Cartridge, waist belt, & choice of facepiece.

OptimAir® TL Powered Air-Purifying Respirator

✓ Now approved
with **G1 Facepiece**

- Single hip-hugging design for motor blower, cartridges
- Battery provides lightweight comfort and fit
- Low-profile motor blower offers optimal airflow through a crush-proof breathing tube
- Ergonomic battery pack allows for free movement within confined spaces
- Unit automatically adjusts flow rates for altitude changes via an internal pressure sensor
- Audible and visual alarms indicate low flow condition and low battery voltage
- Available with standard or extended-life battery
- Approved with hoods as listed or for facepiece use with Advantage 3000, Advantage 4000, Ultra Elite, or G1 Facepiece. Facepiece style breathing tube required. Single port adapters required for G1 and Advantage 4000 Facepieces

Chin-Type Gas Masks

- Lightweight, comfortable gas masks offer protection against particulate matter, vapors, and gases
- Small round canister and comfortable facepiece provide easy downward head movement
- Canisters offer protection from:
 - Phosphine/Ammonia/Chlorine-P100
 - Organic Vapor-P100
 - Hydrogen Fluoride/Chlorine/P100
 - Formaldehyde/Acid Gas/Chlorine Dioxide/Hydrogen Sulfide/P100

MSA G1 CBRN APR

MSA's innovative G1 Facepiece can be easily adapted into a compliant CBRN Air-Purifying Respirator with the installation of an APR Adapter, CBRN Canister, and CBRN Nosecup for use in atmospheres potentially contaminated with chemical, biological, radioactive and/or nuclear (CBRN) warfare.

Notes:

- G1 APR Facepiece Assembly does not include the CBRN Canister or APR Adapter, must be ordered separately.
- The G1 CBRN APR is approved for the 4-point harness, 5-point harness, and rubber harness.
- The neckstrap is also approved in both cloth and rubber.
- The standard G1 facepiece nosecup is not approved for CBRN applications and the CBRN nosecup is not approved for use in a traditional firefighting situation.
- If using the standard G1 facepiece in a traditional firefighting situation and CBRN environment, use the CBRN nosecup for the Fit Test.

Responder® Powered Air-Purifying Respirator

- Respirator provides constant filtered airflow, which reduces fatigue and prevents facepiece fogging
- Long-life unit provides non-IDLH respiratory protection for up to 8 hours
- Unit is compatible with MSA Millennium and Ultra Elite facepieces
- Batteries can be "hot-swapped"
- Blower's EMI shield eliminates interference with radio communications
- **Applications include:** CBRN incidents, civil disturbances, clandestine labs

You must choose Responder PAPR Kit, facepiece, and cartridge for complete system.

S-CAP™ Fire Escape Hood

- Filters out CO and smoke; designed for minimum rated service time of 15 min.
- Universal size: easily fitted with quick donning and effective within seconds
- Minimal training required
- Wide field of view lens and highly visible yellow hood

Wall box

For miner's cap lamp and support system, see p. 91. For ALTAIR 4X MSHA Portable Gas Detector, see p. 60.

Constant Flow Air-Line Respirator

• Supplies long-duration respiratory protection with continuous air flow from an external source • Maintains a slight positive pressure of air during both inhalation and exhalation to prevent contaminant seeping inside facepiece • For use only in non-IDLH environments			
Kits include: a Constant Flow Air-Line Respirator with an Advantage 4100 Facepiece (medium size, hycar rubber, polyester net head harness) with a High- or Low-Pressure Flow Control Valve, breathing tube and nylon belt assembly, Foster Steel quick-disconnects for connecting the respirator to the air-supply hose, a 50-foot section of neoprene air-supply hose complete with Foster Steel plug to attach the air-supply hose to your air source.			
DUO-TWIN RESPIRATOR COMPLETE ASSEMBLIES	10108494	Constant Flow Air-Line Respirator, LOW pressure control valve, black body	
	10108593	Constant Flow Air-Line Respirator, HIGH pressure control valve, gold body	
	Advantage 4100 Facepiece	Quick-disconnect	
CONSTANT FLOW COMPLETE ASSEMBLIES High-pressure control valve (35–40 psig inlet pressure for 8–300 ft. of hose)	10088132	Snap-Tite aluminum	
	10088134	Foster steel	
	10088136	Hansen brass	
	10088135	CEJN Locking chrome-plated brass	
CONSTANT FLOW COMPLETE ASSEMBLIES Low-pressure control valve (10–15 psig inlet pressure for 8–50 ft. of hose)	10088107	Snap-Tite aluminum	
	10088109	Foster steel	
	10088121	Hansen brass	
	10088110	CEJN Locking chrome-plated brass	

Note: Facepieces can also be ordered in silicone instead of hycar rubber. Three sizes of facepieces are available. For belts, MSA Air-Supply Hose and other accessories, see p. 30. For separate quick-disconnect plugs and sockets, see p. 29. See pages 31–32 for typical Pressure Demand Air-Line and Constant Flow Air-Line Systems setup.

Duo-Twin™ Respirators

• Use where ample air supply is available, such as that provided by air compressor • If air supply fails, user is automatically protected by air-purifying cartridges which protect against a variety of contaminants • Should not be used in atmospheres containing less than 19.5% oxygen • NIOSH approved • Applications: pharmaceutical, chemical, petrochemical, and nuclear industries	 <i>Duo-Twin Respirator with Advantage 4000 Facepiece</i>		
Assemblies come complete with facepiece, breathing tube, adapter assembly/regulator, web belt and Foster steel plug and socket assembly

Abrasi-Blast™ Supplied-Air Respirator

- Provides respiratory and upper body protection for personnel engaged in abrasive blasting
- Heavy, rubber hood protects against rebounding abrasive materials
- In addition to hood, respirator includes facepiece with lens housing, breathing tube, lens cartridge, flow-control device, air-supply hose, support belts
- Removable flat-glass cover lens
- Choose waist-length or shoulder-length style

	Waist-Length Hood	Shoulder-Length Hood	
COMPLETE ASSEMBLIES WITH ADVANTAGE 4000 FACEPIECE	10089177	10089210	Abrasi-Blast Respirator with Advantage 4000 Facepiece Includes hood, medium facepiece with net head harness (10089910), lens housing, one lens cartridge (three 0.12" untempered glass cover lenses per cartridge), breathing tube (470734), web belt (9961), and adjustable valve connector with Snap-Tite (AL) socket assembly. Flow-control device: 35–40 psi. Order air-supply hose separately.

G1 Cadet Air-Supplied Respirator

The G1 Cadet is a pressure-demand, Type C supplied-air respirator with mask-mounted regulator for use in non-IDLH environments. The G1 facepiece can support multiple applications and respirator platforms including Supplied Air, SCBA, APR, and PAPR.

- The G1 Facepiece provides a wide field of view and is available with choice of rubber, polyester or Kevlar head harness to meet your specific needs such as decontamination, comfort and heat/spark resistance.
- Regulator hose lengths in either 30" or 42" lengths can accommodate front, or back positioning of the air line attachment.
- Comfortable waist belt options include secure attachment and nomex, nylon or urethane coating to meet the specific use, comfort, decontamination needs of the work environment.
- Regulator keeper on belt provides secure mounting when not in use.
- Select from a full line of fittings to meet your installation and facility needs.
- Multiple hose options and lengths to provide up to 300' of air supply.
- Compatible with multiple G1 based respirator platforms to support a complete respiratory program.

PremAire® Cadet Supplied-Air Respirator

- Type-C, supplied-air respirator supplies on-demand respiratory protection
- Mask-mounted regulator responds quickly to changing breathing requirements
- Maintains a slight positive pressure of air during both inhalation and exhalation
- Well-suited for chemical, petrochemical, utility and industrial applications
- For use only in non-IDLH environments

Kits include: PremAire Cadet Respirator with Advantage 4000 Facepiece (medium size, hycar rubber, polyester net head harness) with Push-To-Connect Firehawk® Regulator, nylon belt assembly, listed quick-disconnect for connecting respirator to air-supply hose, 50-foot section of neoprene air-supply hose complete with corresponding plug to attach air-supply hose to air source.

PREMAIRE CADET KITS	10108493	PremAire Cadet Air-Line Respirator with Foster Steel quick-disconnects, 50-foot section neoprene air-supply hose with Foster Steel Plug

Note: See p. 29 to order quick-disconnects for use with the PremAire and PremAire Cadet Systems (column 2 for the plug and column 5 for the socket assembly).

PremAire® Cadet Escape Respirator

- Combination supplied-air respirator with SCBA designed especially for use in and escape from IDLH atmospheres
- One-piece first-stage regulator and cylinder valve assembly
- Small size and profile are perfect for confined spaces
- Recessed pressure gauge for added protection
- Choice of cylinder hip placement for freedom and versatility

Kits include Advantage 4000 Facepiece (medium size, hycar rubber, polyester net head harness) with Push-To-Connect Firehawk Regulator and nylon harness, aluminum cylinder, and listed quick-disconnect for connecting respirator to air-supply hose, 50-foot section of neoprene air-supply hose complete with corresponding plug to attach air-supply hose to air source.

PREMAIRE CADET ESCAPE KITS	10108496	PremAire Cadet Escape Air-Line Respirator, 5-minute aluminum egress cylinder, with Hansen brass quick-disconnects, 50-foot section of neoprene air-supply hose with Hansen brass plug

The Assemble-To-Order System for PremAire Cadet Escape Respirator

Thousands of possible combinations lets you build just the right PremAire Cadet Escape Respirator for your specific job with its own distinct part number. Each digit of an ATO part number will represent a specific component, so that the entire part number represents a finished respirator built exactly to your desired specifications. Advantages of the ATO System include: you get the exact model of PremAire Respirator you need; no special orders, because all orders are customized; fresher cylinders from our continually rotated inventory; simplified ordering process; and timely delivery.

A Type

PC PremAire Cadet Escape

B Carrier & Harness Type

- 1 Nylon, strap carrier, standard
- 2 Kevlar, strap carrier, standard
- 3 Nylon, bag carrier, standard
- 4 Kevlar, bag carrier, standard

Notes:

Aluminum escape cylinders are not compatible with bag carriers.

C Pad Option

- 0 None
- 1 Shoulder

D Escape Cylinder

- A 5-minute aluminum
- B 10-minute aluminum
- C 5-minute carbon
- D 10-minute carbon
- E 15-minute carbon
- F 5-minute aluminum, less air
- G 10-minute aluminum, less air
- H 5-minute carbon, less air
- J 10-minute carbon, less air
- K 15-minute carbon, less air

E MMR Regulator

- A Firehawk, pushto- connect, solid cover
- C Firehawk, slideto- connect, solid cover

Notes:

Firehawk, slide regulators not compatible with Advantage 4000 facepiece.

MSA Airline Respirator Selection Guide

The easy-to-follow MSA Airline Respirator Selection Guide is a web-based tool designed to help configure an airline assembly starting at the PremAire Cadet Escape Respirator, and ending at the point of the attachment.

Available at: <http://webapps.msasafety.com/product-selection-guide/airline/>

The Assemble-To-Order System for the G1 PremAire Cadet Escape Respirator

MSA G1 Facepiece offers:

- Wide field of view, 86%
- Comfortable, robust seal geometry to help ensure secure seal every time facepiece is donned
- An open port to provide low breathing resistance, both on- and off-air

PremAire Cadet Escape Respirator with G1 Facepiece features:

- Low-profile escape cylinders that can be worn on either right or left hip, making movements easier in tight spaces
- Escape cylinders rated at 5-, 10- and 15-minutes
- Pressure gauge recessed into valve housing that protects gauge and reduces size and profile
- Two harness materials: standard nylon for chemical resistance and Kevlar for high heat environments or those with spark potential
- NIOSH approval as combination supplied-air respirator and self-contained breathing apparatus

A Type

PCG PremAire Cadet Escape G1

B Carrier & Harness Type

- 1 Nylon, strap carrier, standard
- 2 Kevlar, strap carrier, standard
- 3 Nylon, bag carrier, standard
- 4 Kevlar, bag carrier, standard

Notes:

Aluminum escape cylinders are not compatible with bag carriers.

C Pad Option

- 0 None
- 1 Shoulder

D Escape Cylinder

- A 5-minute aluminum
- B 10-minute aluminum
- C 5-minute carbon
- D 10-minute carbon
- E 15-minute carbon
- F 5-minute aluminum, less air
- G 10-minute aluminum, less air
- H 5-minute carbon, less air
- J 10-minute carbon, less air
- K 15-minute carbon, less air

E MMR Regulator

A G1 Regulator, purge cover

F G1 Facepiece

- 1 None
- 2 G1 Facepiece with 4-pt adjustable head harness, medium^m
- 3 G1 Facepiece with 5-pt adjustable head harness, medium^m
- 4 G1 Facepiece with rubber head harness, medium^m

Notes:

If desired facepiece is not available here, choose "None" and select from the G1 Facepiece ATO.

G Quick Disconnect

- 0 None
- A Snap-Tite, aluminum
- B Snap-Tite, stainless steel
- C Snap-Tite, brass
- D Hansen, stainless steel
- E Hansen, brass

PremAire® Air-Supplied Respirator System

- Full-face, pressure-demand, Type-C supplied-air respirator features patented waist-mounted manifold for incredible flexibility
- Dual-supply option lets users connect from one pressurized continuous air source to another without losing continuity of airflow
- Vortex tube option delivers whole-body temperature control for added comfort
- Modular system allows user to match respiratory needs to the task at hand
- Suitable for IDLH environments (with escape cylinder option)

Assemblies come with medium hycar Ultra Elite Facepiece and noseclip with rubber harness. Quick-disconnects must be ordered separately (see page 29; you need a male plug with female 1/4" NPT (column 2), and a female socket assembly (column 5).

Notes:

^[1] Unit requires use of a Quick-Disconnect to maintain approval.

Note: If you have selected the Dual-Supply option, you will need two of the same Quick-Disconnects. Just put one letter in the part number to indicate your selection, but when you calculate the price of your system, make sure you include a price for each Quick-Disconnect.

L Case

- 0 None
- 1 Hard case
- 2 Soft case

Note:

This matrix must only be used for ordering complete PremAire Systems. This matrix cannot be used for ordering individual components (i.e., facepieces, escape cylinders, etc.). Please order components separately using their standard MSA part number.

An additional surcharge will be added to configurations that are classified as hazardous materials

Key:

^[1] For applications strictly limited to non-IDLH atmospheres, NIOSH requires that the respirator system be configured without a bypass on the mask-mounted regulator (MMR). Please contact MSA Customer Service for more information.

PART NUMBER

Air-Line Systems and Accessories

Quick-Disconnects for Air-Line Respirators and Air-Supplied Hoods

Quick-disconnect assemblies connect air-supply hoses to the manifold and to the air source.

For more information, please see MSA's Pocket Guide to Air-Line Systems (Bulletin 0114-28-MC).

Standard Air-Line Setup

Note: Respirator approvals include all fittings and hoses from the respirator up to, but not including, the manifold/point of attachment to the air source. Breathing air couplings and fittings must be incompatible with other non-respirable air or other gas systems.

Manifold/ Point of Attachment	QD 1 Female Socket 1/4" NPT	QD 2 Male Plug w/Female 1/4" NPT	QD 3 Union Adapter 1/4" NPT x 3/4" UNF	Air-Line Hose	QD 4 Female Socket Assembly	Respirator
 Dual outlet shown. Images not to scale.						
Quick-Disconnects & Adapters (AL) = Aluminum (S) = Steel (SST) = Stainless Steel (BR) = Brass Interchangeability A B C D E F <i>Fittings with the same letter code are interchangeable</i>	Used at manifold or point of attachment to air source.	Plugs into the female socket (QD 1) at the manifold or point of attachment. Also installed on the respirator to plug into socket assembly (QD 4).	Used at the end of the air line hose to connect to the male plug (QD 2). Teflon tape used to attach to the male plug.	See air-line hose information on the following page. A maximum total 300' and 6 hose sections is allowed on most pressure demand and high pressure constant flow setups.	Used to connect air-supply hose to male plug (QD 2) on respirator.	Male plug (QD 2) connects respirator to female socket assembly.

			471511	481058	15 ft.
			471512	481059	25 ft.
			471513	481060	50 ft.
			484225	—	100 ft.
COILED NYLON AIR-SUPPLY HOSE		0° to 160°F	491513 ¹	—	8 ft.
			491514 ¹	—	15 ft.
			491515 ¹	—	25 ft.
			474043 ¹	—	50 ft.

¹Recommended usable length 4–25 ft

Note: Do not use non-locking quick-disconnects to interconnect air supply hoses. Locking quick-disconnects may be used or hoses may be threaded together directly as shown at left.

Locking Quick-Disconnects for Air-Supply Hose

Locking quick-disconnects are the only means to interconnect lengths of MSA air-supply hose (besides directly threading the air-supply hose together). For most systems, you can use up to 12 sections of hose to make up maximum length.

Air-Line Systems and Accessories

Type-C Supplied-Air Respirators, more commonly referred to as air-line respirators, are designed to provide long-duration respiratory protection. For in-depth information on these systems, please see MSA Bulletin 0114-14-MC.

Typical Plant-Supplied Air-Line Systems: Constant Flow or Pressure Demand System

1	PLANT AIR COMPRESSOR	Not supplied by MSA
A	OUTLET FITTING FOR SYSTEM	Varies with system
B	NIPPLE	(½" x ½" x 1-½" NPT) P/N 68833
C	AIR LINE FILTER	P/N 81857
E	PRESSURE REGULATOR	P/N 66716
F	OUTLET CONNECTIONS	Bushing (½" M x ¼" F) P/N 625528
G1	FEMALE SOCKET NIPPLE	Female Socket-P/N varies with type (See p. 29-column QD 1) Nipple-¼" x ¼" NPT-(needed only w/Female Socket) P/N 459867
G2	2-OUTLET MANIFOLD	Foster Steel P/N 84416 Snap-Tite Aluminum P/N 486053 (See p. 32)
G3	4-OUTLET MANIFOLD	Foster Steel P/N 474370 Snap-Tite Aluminum P/N 93931 (See p. 32)

H	MALE PLUG WITH MALE ¼" NPT	(See p. 29-column QD 2)
I	UNION ADAPTER	(See p. 29-column QD 3)
J	MSA AIR-SUPPLY HOSE	P/N varies with type (See p. 30)
K	OPTIONAL LOCKING QUICK-DISCONNECT ASSEMBLIES for interconnecting lengths of MSA air-supply hose	CEJN Locking Quick-Disconnect Assembly (Chrome) P/N 479009 Snap-Tite Locking Quick-Disconnect Assembly (Aluminum) P/N 479010
L	FEMALE SOCKET ASSEMBLY	P/N varies with type (See p. 29- column 5)

Pressure Regulator

- Used with plant air compressor system to reduce compressor pressure to desired operating pressure
- Maintains pressure on outlet side until readjusted for use with inlet pressure of up to 125 psig

PRESSURE REGULATOR 66716 Pressure regulator

Air-line Filter

- Removes minimum of 99% of 0.3 micron and larger particulates, including dusts, mists, fumes, smoke, and petroleum vapors. Does **not** remove carbon monoxide.
- Can be used at inlet pressures up to 125 psig

AIR-LINE FILTER	81857	With 1/2" NPT female inlet and outlet
	488041	With 3/4"-16 straight threads
	484923	Replacement Filter Kit

Air-Line Systems and Accessories

Typical Cascade Cylinder Air-Line Systems: Pressure Demand System

1	AIR CYLINDER	Not supplied by MSA
A	AIR TEE BLOCK	P/N 68850 or P/N 10081206 (See below)
B	AIR PIGTAIL	P/N 68851 or P/N 10081205 (See below)
C	AUDI-LARM WARNING DEVICE	P/N 85078 or P/N 492307 (See below)
D	AIR CYLINDER PRESSURE REGULATOR	P/N 68858 or P/N 633352 (See below)
E1	OUTLET CONNECTIONS	Female Socket—P/N varies with type (See p. 29); Nipple 1/4" x 1/4" NPT (needed only w/Female Socket) P/N 459867
E2	2-OUTLET MANIFOLD	Foster Steel P/N 84416 Snap-Tite Aluminum P/N 486053 (See below)
E3	4-OUTLET MANIFOLD	Foster Steel P/N 47370 Snap-Tite Aluminum P/N 93931 (See below)

F	MALE PLUG WITH FEMALE 1/4" NPT	P/N varies with type (See p. 29)
G	UNION ADAPTER	(See p. 29)
H	MSA AIR-SUPPLY HOSE	P/N varies with type (See p. 30)
I	OPTIONAL LOCKING QUICK-DISCONNECT ASSEMBLIES for interconnecting lengths of MSA air-supply hose	CEJN Locking Quick-Disconnect Assembly (Chrome) P/N 479009 (See p. 30) Snap-Tite Locking Quick-Disconnect Assembly (Aluminum) P/N 479010 (See p. 30)
J	FEMALE SOCKET ASSEMBLY	P/N varies with type (See p. 29)

Cascade System Accessories

- Components for assembling cascade system, which consists of bank of respirable-air cylinders (user-supplied) that supply a flow of air to pressure-demand air-supplied respirators

CASCADE SYSTEM ACCESSORIES	85078	Audi-Larm Warning Device, low-pressure CGA 346, 0–3000 psig
	492307	Audi-Larm Warning Device, high-pressure CGA 347, 0–5500 psig
	68850	Air coupler tee—low-pressure CGA 346, 0–3000 psig
	10081206	Air coupler tee—high-pressure CGA 347, 0–5500 psig
	68851	Air pigtail—low-pressure CGA 346, 0–3000 psig
	10081205	Air pigtail—high pressure CGA 347, 0–5500 psig
	68858	Air cylinder pressure regulator, dual-gauge, 0–3000 psig
	633352	High-pressure air cylinder regulator, dual-gauge, 0–5500 psig
	55716	Male air-supply hose adapter for Foster quick-disconnects (for PVC hose)
	69542	Union adapter (required to attach male plug)

Manifolds

Required when using multiple (2–4) respirators from single air source

Note: Gauge required when greater than 10' between air-line point of connection and regulator

	Manifolds	
	4-outlet	2-outlet
With Foster quick-disconnects	47370	84416
With Snap-Tite quick-disconnects	93931	486053
Less quick-disconnects	488914	84418

Air-Line Accessories

Industrial Air Cart

Industrial Air Cart permits up to 4 NIOSH-approved air-line respirators to be connected to 2 one-hour 4,500 psig breathing apparatus cylinders (not included). See table below for cylinder ordering information. 60-minute cylinder will provide maximum air supply.

Features

- Two-wheel poly powder-coated cart, two sets of double-cylinder straps, air-line hose rack and adjustable pull handle
- 5,500 psig pressure regulator reduces 4,500 psig cylinder air to proper air-line respirator inlet pressure
- Low-pressure cylinder alarm whistle
- An outlet pressure gauge operates in 0-125 psig range
- Four-outlet manifold is available with 4 outlet fitting options

Cart Weight and Dimensions

Size: 35" H x 21" W x 15.25" D

Unit Weight: 38.5 pounds without cylinders

For more information, please see MSA bulletin 0114-28-MC.

	With union adapters	With Snap-Tite aluminum quick-disconnects	With Foster steel quick-disconnects	With Hansen brass quick-disconnects

The TransportAir™ System

- Impact-resistant handle with urethane-coated nylon straps that fit around standard MSA SCBA air cylinder (purchased separately), regulator, and regulator-to-hose adapter
- Audi-Larm device provided standard on high-pressure system, optional for low-pressure system
- Designed for use with MSA supplied-air respirators equipped with dual-supply option, which improves worker mobility; workers need not remain tethered to single air-supply hose throughout work period

For more information, please see MSA bulletin 0114-21-MC.

TRANSPORTAIRE SYSTEM	812217	TransportAir Assembly, high-pressure (4500 psig)—complete with cylinder carrier, regulator, and regulator-to-hose adapter, and Audi-Larm low-pressure warning device
	10125955	TransportAir Assembly, low-pressure (2216 psig)—complete with cylinder carrier, regulator, and regulator-to-hose adapter
	85078	Low-pressure Audi-Larm assembly
	491513	8-ft. Coiled nylon hose

Cylinders

CYLINDERS All cylinder weights shown are approximate.	807586	L-30* carbon-wrapped cylinder, 30-minute NIOSH service-life rating, 2216 psig, weight (empty): 8 lb. 0 oz.

	10127946-SP	H-60SL* , SuperLite, 60-minute NIOSH service-life rating, 4500 psig, weight (empty): 10 lb. 12 oz.
	809872	Aluminum cylinder, 30-minute NIOSH service-life rating, 2216 psig, weight (empty): 18 lb. 0 oz.

*These cylinders are capable of custom options. Contact MSA Customer Service at 1-800-MSA-2222 for more information. All weights approximate.

Air-Line Accessories

Breathing Air Distribution System Filtration Box

• Portable Grade-D filtration system provides breathing air for up to four air-line respirators • Housed in a rugged polymer case • Equipped with three-stage filtration, pressure regulator, four-outlet manifold and continuous flow 115 VAC carbon monoxide monitor • May be used in portable or stationary position • Two models of filtration boxes: one box provides 50 cubic feet of air per minute and second box provides 100 cubic feet of air per minute			
	For use in the United States (Carbon Monoxide monitor set at 10 ppm)	For use in Canada (Carbon Monoxide monitor set at 5 ppm)	
FILTRATION BOXES 50 CFM	10107538	10113347	With union adapters

TransAire® 5 and TransAire® 10 Escape Respirators

- Provides emergency air in dangerous and deadly atmospheres, including those with high concentrations of toxic gases or vapors or oxygen deficiency
- 5- and 10-minute standard-flow air supply
- One-control operation for swift exit
- Compact and lightweight for easy egress from tight spaces
- Fog-reducing hoods in urethane or Teflon easily fit over eyeglasses and facial hair
- Rugged, high-density polyethylene carrying case available
- Washable nylon cloth carrier can be worn on waist, neck or shoulder

Respirators include cylinder, carrier, hood tube, and hood assembly

TRANSAIRE 5 ESCAPE RESPIRATOR	10008292	With aluminum cylinder
	10066739	With aluminum cylinder, less air
TRANSAIRE 10 ESCAPE RESPIRATOR	10008293	With aluminum cylinder
	10083327	With full -wound carbon cylinder
	10066740	With aluminum cylinder, less air

Accessories

Chemical-resistant ABS plastic cases resist weathering, moisture, and corrosion to ensure escape respirators stay in ready-to-use condition

ACCESSORIES	696192	Single-unit wall-mounting case
	696193	Two-unit wall-mounting case
	10012530	Single unit carrying case, yellow polyethylene, with handle, for all escape respirators

G1 Facepiece

Lightweight & Low-Profile

- Enhance situational awareness and visibility through a wide field of view.
- Prevent potential cross-contamination when units are shared through unique mask design, which restricts exhaled air from entering the mask-mounted regulator.
- Open port design allows for lower breathing resistance both on and off air with the goal of reducing fatigue.
- Enable short-range communication with mechanical speaking diaphragm.
- Meet a variety of user needs with head harness options available in Kevlar, rubber, or polyester.

G1 Carrier and Harness Assembly

Customized Comfort & Fit

- Clean quickly with easy-to-remove soft goods.
- Improve harness durability in tough environments with nanosphere-coated webbing to improve resistance to water and chemical exposure.
- Increase comfort with optional shoulder pads and lumbar support to help reduce fatigue.
- Improve ease of donning through shoulder pad placement to reduce twisting and increase comfort.
- Choose either nylon or Kevlar harness components and cylinder bands to meet the needs of your work environment.

	Part Number	Description
G1 INDUSTRIAL SCBA G1 IRC	10215805	Low-pressure 30-min. aluminum cylinder, nylon harness without padding and chest strap, medium G1 Facepiece with polyester head harness, hard case included
	10215806	Low-pressure 30-min. aluminum cylinder, nylon harness without padding and chest strap, medium G1 Facepiece with polyester head harness, no case
	10215807	High-pressure 45-min. low-profile carbon cylinder, nylon harness with shoulder and lumbar pads, no chest strap, medium G1 Facepiece with polyester head harness, hard case included
	10215808	High-pressure 45-min. low-profile carbon cylinder, Kevlar harness with shoulder and lumbar pads, no chest strap, metal cylinder band, medium G1 Facepiece with 4-pt. Kevlar head harness, hard case included

Cylinders

- Choose from two different low-pressure (2216 psig), 30-minute-rated cylinders; or
- Four high-pressure (4500 psig) carbon-wrapped cylinders in 30-, 45- or 60-minute durations.

Cylinder Connection

Choose from a quick-connect cylinder attachment for easy change out, or standard threaded connection. The color-coded band on first stage reducer provides an at-glance indicator as to whether the system is high- or low-pressure.

Shoulder-mounted Quick-Fill® System EBS Accessory

This optional connection allows for SCBA cylinder refill from a mobile compressor or cascade system. It also allows transfilling between two SCBA wearers, providing an emergency breathing system in IDLH atmospheres.

Air-Line Attachment

The optional air-line attachment creates a second port for air-line connection to an independent air source, such as an air compressor or cascade system, to conserve cylinder air for emergency escape.

The Assemble-To-Order System for G1 Industrial SCBA

A SCBA Type

NEW G1 IRC

- 5 2216 w/ threaded remote cylinder connection
- 6 2216 w/ quickconnect remote cylinder connection
- 7 4500 w/ threaded remote cylind
- 8 4500 w/ quickconnect remote cylinder connection

B Harness Assembly

- 1 Nylon harness, no padding
 - 2 Nylon harness, shoulder pads only
 - 3 Nylon harness, lumbar pad only
 - 4 Nylon harness, shoulder pads and lumbar pad
 - 5 Kevlar harness, padding included
 - 6 Reflective Kevlar with padding, adjustable lumbar
- Notes:**
Option 6 cannot include an Air-Line Attachment from Column I.

C Harness Chest Strap

- 0 None
- 1 Chest strap

D Cylinder Cradle

- 1 Fabric band cradle
- 2 Metal band cradle, turn latch
- 3 Metal band cradle, G1 latch

E Cylinder

- A None
- B 3AL aluminum, 2216 psi
- C 30 min carbon, 2216 psi
- D 3AL aluminum, 2216 psi, less air
- E 30 min carbon, 2216 psi, less air
- F 30 min carbon, 4500 psi
- G 45 min carbon, 4500 psi
- H 45 min carbon, low profile, 4500 psi
- J 60 min carbon, 4500 psi
- K 30 min carbon, 4500 psi, less air
- L 45 min carbon, 4500 psi, less air
- M 45 min carbon, low profile, 4500 psi, less air
- N 60 min carbon, 4500 psi, less air

F Cylinder Handwheel

- 0 None
 - 1 Non-locking
 - 2 Locking
- Notes:**
Only choose "none" if cylinder is not being purchased in Column E.

G MMR Regulator Type

- A Continuous hose, hard cover
- B Threaded hose, hard cover
- C Quick connect hose, hard cover
- D Universal quick connect hose, hard cover
- E Continuous hose, purge cover
- F Threaded hose, purge cover

H Pressure Gauge

- 1 Standard pressure gauge
- 2 Pressure gauge with Quick-Fill®
- 3 Pressure gauge with Quick-Fill, 3ft. hose w/Quick-Fill pouch

I Air-Line Attachment

- A None
- B Snap-Tite, aluminum
- C Snap-Tite, stainless steel
- D Snap-Tite, brass
- E Hansen, stainless steel, HK Series
- F Hansen, brass, 3000 Series
- G Hansen, stainless steel, 3000 series
- H Foster, steel
- J Foster, stainless steel
- K Foster, brass
- L Snap-Tite, locking, aluminum
- M Snap-Tite, locking, stainless steel

J Emergency Breathing System

- A None
- B ExtendAire® II, universal coupler, less airline adapter
- C ExtendAire II, universal coupler, w/ airline adapter Snap-Tite, aluminum
- D ExtendAire II, universal coupler, w/ airline adapter, Snap-Tite, stainless steel
- G ExtendAire II, universal coupler, w/ airline adapter, Hansen, brass, 3000 series
- T ExtendAire II, less airline adapter
- U ExtendAire II, w/airline adapter, no quick-disconnect coupler
- V ExtendAire II w/airline adapter, Snap-Tite, aluminum
- W ExtendAire II w/airline adapter, Snap-Tite, stainless steel
- Y ExtendAire II w/airline adapter, Hansen, stainless steel, HK series

K Facepiece

- A None
 - B Small w/small noseclip, 4-pt. polyester head harness
 - C Small w/small noseclip, 5-pt. rubber head harness
 - D Small w/small noseclip, 4-pt. Kevlar head harness
 - E Small w/small noseclip, 5-pt. Kevlar head harness
 - F Medium w/medium noseclip, 4-pt. polyester head harness
 - G Medium w/medium noseclip, 5-pt. rubber head harness
 - H Medium w/medium noseclip, 4-pt. Kevlar head harness
 - J Medium w/medium noseclip, 5-pt. Kevlar head harness
 - K Large w/large noseclip, 4-pt. polyester head harness
 - L Large w/large noseclip, 5-pt. rubber head harness
 - M Large w/large noseclip, 4-pt. Kevlar head harness
 - N Large w/large noseclip, 5-pt. Kevlar head harness
- Notes:**
Regulator keeper is included with every unit. Facepiece clip is included on Kevlar harnesses only. Neckstrap is not included.

L Case

- 0 None
- 1 Hard case
- 2 Soft case

Note:

An additional surcharge will be added to configurations that are classified as hazardous materials

10156460	G1 Facepiece, large, 4-pt. Kevlar head harness

See G1 Facepiece ATO for additional options.

Connected Firefighter Solution Overview

The MSA Connected Firefighter Platform is a system of devices and solutions to help keep your team safe, connected, and able to make proactive and confident decisions—on and off the fire ground. The platform is comprised of the **G1 SCBA**, **MSA HUB Fire Service**, **LUNAR® Connected Device**, and **FireGrid™**. The Connected Firefighter Platform is supported by our cloud connected products which enable incident management and inventory management, as well as reporting and analytics.

Incident Command

■ LOCAL MONITORING

With advancements in technology, tablet-based local monitoring extends visibility of all cloud connected users on-scene, devices being used and their associated statuses to Incident Command.

With MSA's local monitoring

application, FireGrid Monitor, information such as alarms, warnings, search status, estimated location, teams and air status complement existing tools, techniques, and processes to aid in more confident decision making.

■ SEARCH AND RESCUE

When a device is in alarm, all LUNAR devices within the vicinity are notified with the personalization of the device in alarm and the reason for the alarm—motion, manual, or hardware. In addition to each team member being notified, Incident Command is also notified in FireGrid Monitor about which device is in alarm, when the search starts, and who is searching. When a search begins, the searcher is given distance and directional information in addition to having their thermal imaging. Search and rescue functionality operates on the LUNAR-to-LUNAR network and is available with or without cellular connectivity.

■ SITUATIONAL AWARENESS

LUNAR provides personal thermal imaging with edge detection to identify hot spots and ventilation points, improving situational awareness and making it easier to navigate through environments with low visibility.

FirstNet®

LUNAR is available for use on FirstNet, the only nationwide communications network built with and for first responders and those who support them.

Inventory Management Compliance

In MSA's web-based application, FireGrid Web, manage assets, work orders, purchase orders, tests, people, parts, and other details for your department. This asset management application supports MSA's SCBAs, facepieces, cylinders, HUBs, LUNARs, turnout gear, and helmets, as well as competitive turnout gear and helmets. Depending on product type, asset management will retain information such as type, model, serial number, sizing information, usage status, inspection/cleaning information, issued department/asset location, history or personnel assigned to, all aiding in compliance and data to aid in better fleet utilization.

Reports and Analytics

After-scene data is automatically sent, aggregated and stored for report generation and data analytics—device and incident information. Each reported incident is listed on the Reports page. Incidents can be filtered by date or alarm type, and reports can be created for each incident.

The MSA G1 SCBA stands out from the crowd.

FACEPIECE

- Open port design with cross-contamination protection
- Comfortable and easy to use, with low breathing resistance on and off air
- Zero electronics, reducing weight, snag hazards and cost

SITUATIONAL AWARENESS

- Wide field of view through the G1 Facepiece
- Seven three-stage buddy lights providing 360-degree visibility of pressure status
- Highly reflective material on shoulder straps and cylinder band
- Optional integrated TIC provides visibility when it is needed most

COMMUNICATIONS

- Loud and clear communications are included with every G1 SCBA
- Intelligently removes background and inhalation noise, helping your commands to be heard

MSA G1 5500 SCBA

- Staying at the forefront of safety means constantly evolving to meet the ever-changing demands you face each day on the job. Helping meet these demands MSA's tried-and-trusted G1 SCBA now comes available in a 5500 psig operating system. The MSA G1 offers our lowest profile, most comfortable, streamlined, balanced and configurable SCBA with the lightest weight 5500 psi cylinders on the market today

READY FOR THE FUTURE

- Bluetooth connectivity, RFID, Near Field Communication (NFC), long-range radio
- Quickly update the G1 SCBA with the latest advancements through Bluetooth technology, ensuring the SCBA you buy today can easily adapt to meet your needs far into the future

CONTROL

- Integrated Thermal Imaging Camera (TIC) allows firefighter to see within dark, smoke-filled environments
- Five user-selectable palettes—10+ additional programmable palettes available via MSA A2 Software
- Compatible with all G1 SCBA via simple field upgrade
- Control module provides both colorLCD and analog displays
- Display automatically turns on when control module is lifted into viewing position
- No matter which button is pressed, necessary information displays
- Improved visibility through *buddy lights*

INFORMATION

- HUD provides more information than ever before and can be customized to meet your SOP; cylinder pressure, battery status, evacuation (optional), and so much more

COMFORT

- Swiveling, adjustable lumbar pad properly positions SCBA weight
- Improved comfort, balance, fit

POWER

- Single power source
- Uses alkaline or rechargeable battery
- Eliminates the need to maintain multiple battery sizes or multiple battery locations
- Low cost of ownership

BUILT JUST FOR YOU

- Control module and HUD display required information; easily customized to meet your existing standard operating procedure
- Modular designs allows for quick component change

How to Order SCBA: Get the Exact Model You Need

The MSA Assemble-To-Order System (ATO) makes ordering the right mask fast and easy. Instead of choosing from a handful of complete air mask assemblies, you can order a custom-made air mask with every option exactly as desired. Contact MSA Customer Service for details.

Assemble-To-Order System for the MSA G1 SCBA

A System Pressure

- 2 2216 psig

G1 FACEPIECE

MSA G1 SCBA Cylinders

Standard, Lightweight Carbon Cylinders

MSA Standard, Lightweight Carbon Cylinders (also known as SuperLite Cylinders) are a staple in the Fire Service. Available in 2216, 4500, and 5500 psi, these cylinders are durable and lightweight. The cylinder is wound thousands of times with high-strength carbon fibers impregnated with epoxy resin. A final over-wrap of fiberglass fibers enhances abrasion resistance. Then, a glow-in-the-dark luminescent band is applied for improved night visibility.

G1 SCBA Cylinder Options

MSA G1 SCBA Cylinders are available for purchase in a wide variety of options and ability for customization.

Connection Type

Threaded Remote Connection

Threaded Remote Connection is available in CGA 346 (2216 psi) and CGA 347 (4500 and 5500 psi) for a traditional, thread-on connection.

Quick-Connect Remote Connection

The Quick-Connect option is available for rapid, quick changing of cylinders. The Quick-Connect Cylinders come with an installed adapter to easily push-to-connect with the remote handwheel.

Handwheel Type

Standard Handwheel

The Standard handwheel allows for simple and easy opening and closing of the cylinder valve by turning the handwheel knob.

Locking Handwheel

The Locking handwheel locks when the cylinder valve is in an open position. It requires only a simple turning motion of the handwheel to open the cylinder, but to close the cylinder valve the user must pull the handwheel outward and then turn to close.

Custom Logo

For easy-to-read cylinder identification, MSA can customize any G1 Cylinder to have a department's logo wrapped under the clear coat of the cylinder. This customization can be done by either a reflective or paper band in single or multi-color.

Custom Labels

MSA G1 SCBA Cylinder Accessories

PART NO.	Description
10149701-SP	Quick-Connect adapter for 2216 psig cylinders
10149702-SP	Quick-Connect adapter for 4500/5500 psig cylinders
10158389	Retainer kit for 4500 psig, 30-min. cylinder (type 2 dovetail)
10158390	Retainer kit for 4500 psig, 45-min. low-profile cylinder (type 3 dovetail)
10158401	Retainer kit for 4500 psig, 45-min. cylinder (type 4 dovetail)
10158402	Retainer kit for 4500 psig, 60-min. cylinder (type 5 dovetail)
10162403	Quick-Connect adapter for fill station
10183992	Kit, protective cap & boot for 30-min. cylinder
10183993	Kit, protective cap & boot for 45-min. low-profile cylinder

Cap & Boot

The Cap & Boot provide a protective rubber cover to the top and bottom of the cylinder.

Only available for Standard, Lightweight Carbon Cylinders in 30-minute and 45-minute LP 4500 psi.

MSA G1 SCBA Accessories

MSA G1 SCBA Accessories

PART NO.	Description
10148740-SP	Replacement alkaline battery pack
10148741-SP	Replacement rechargeable battery pack
10158385	Rechargeable battery charging station
10158403	Tool Kit
10083875	RFID tag
10158407	RFID reader/writer
10175010-SP	G1 Control Module w/ Integrated TIC upgrade kit - 2216 psig
10175021-SP	G1 Control Module w/ Integrated TIC upgrade kit - 4500/5500 psig

MSA G1 SCBA Facepiece Accessories

PART NO.	Description
10144230	Spectacle Kit for G1 Facepiece
10144220-SP	Replacement cloth neck strap
10159699-SP	Replacement rubber neck strap
10144231-SP	Single Port APR Filter adapter assembly
10199720	Twin Port APR Filter adapter assembly
805078	Quick Chek® III Fit Test Adapter

MSA G1 Soft Goods Kits

The G1 SCBA Soft Goods can be easily removed for enhanced cleaning protocols and provides a second set of G1 Soft Goods to reduce out-of-service time and extend the life of your SCBA's soft good components.

PART NO.	Description
10181021	G1 Soft Goods Kit (serviceable tunnel straps, basic lumbar, 4-pt harness)
10181022	G1 Soft Goods Kit (serviceable tunnel straps, swiveling lumbar, 4-pt harness)
10181023	G1 Soft Goods Kit (serviceable tunnel straps, basic lumbar, 5-pt harness)
10181024	G1 Soft Goods Kit (serviceable tunnel straps, swiveling lumbar, 5-pt harness)

Self-Contained Breathing Apparatus (SCBA)

MSA Rescue Belt II System for MSA G1 SCBA

MSA's innovative device for emergency egress, the Rescue Belt II System for the G1 SCBA, is an integrated personal escape system that allows firefighters to rappel to safety should they become trapped in a building's upper level. G1 Rescue Belt II System is NFPA 1983-certified for use as a personal escape system for emergency escape when installed on MSA-approved air masks. Device can also be used as a standalone product when not installed on an air mask. The Rescue Belt II System can be ordered as an MSA G1 SCBA option or as an individually-sold component for upgrade of your existing MSA G1 SCBA.

Ergonomically-contoured Ara-Shield rescue belt pouch stores:

- 50-ft. FireTech 32 rescue rope
- Auto-locking Sterling F4 Descender
- Choice of Crosby, Lightning, Lightning GT hook, or carabiner

Rope	Connectors

MSA Accountability System

A new way to monitor vital information

- Each MSA HUB can monitor as many as 50 firefighters; multiple HUBs can be used on a single computer.
- MSA G1 SCBA Air Mask with telemetry transmits to incident command the firefighter's name, team assignment, cylinder pressure, service-time remaining, PASS alarms (motion or manual), thermal alarms, battery status, radio connectivity, and evacuation acknowledgement.

A fireground management system

- Personalized ID tags for each firefighter tell incident command exactly who is on scene.
- Integrated PAR (personnel accountability report) timer helps manage radio calls to each team.
- Incident command can manually add firefighters who are not wearing SCBA or mutual aid firefighters, so all personnel can be accounted for.

Intuitive and easy to use

- Assign firefighters to teams by clicking on firefighter's icon and dragging to appropriate team.
- Critical information is available at a screen glance due to large number of firefighters that can display, as well as pictorial information format.
- Receive both audible and visual indications of critical events such as PASS alarms or low-pressure alarms.

Two-way evacuation feature

- Individual firefighter, team of firefighters or all firefighters can be evacuated with click of a button.
- When incident command transmits an alarm through MSA G1 SCBA Air Mask, they'll know that the firefighter received it, as unit automatically sends confirmation message to the HUB.
- Firefighters hear evacuation alarm on their personal PASS devices. Visual HUD indications and control module icon alert firefighter that it is time to evacuate.
- By simply pressing control module, firefighters can send manual confirmation to acknowledge that they have received and understand critically important evacuation message.
- Although certain concrete and steel commercial structures can challenge any radio signal, MSA's Accountability System coverage with radio technology provides highly reliable performance for one-mile line-of-sight range.
- Due to spread-spectrum design, system does not interfere with other high-band radio frequency equipment.
- For additional safety, both HUB and firefighter modules have icon message to inform users if firefighter leaves radio signal range, so that alternate accountability measures, such as voice contact with teammates, can be taken.

MSA HUB Fire Service and Replacement Parts

PART NO.	Description
10197700	MSA HUB Fire Service – US
10201790-SP	Wall power supply
10204998-SP	Power cable for car installation (82 ft./25 m)

10195743-SP	Ethernet cable, 66 ft./20 m (Fire Service)
10195747-SP	Ethernet cable, 16 ft./5 m (Fire Service)
10203364	Wall brackets (all)

MSA G1 Rescue Breathing Options

MSA G1 ExtendAir™ System

The all new MSA G1 ExtendAir II System is a Universal Emergency Breathing Supply System (UEBSS) accessory that uses intermediate pressure air to provide firefighters with emergency breathing air.

The G1 ExtendAir II System allows firefighters to quickly and easily interconnect to a fellow firefighter's air supply. The ExtendAir II System integrated into the G1 SCBA, providing mobility and easy access during emergency situations. The system uses locking quick-connects with integrated check valve.

The new MSA G1 ExtendAir II System features an integrated rescue hose and manifold assembly that uses both male and female quick-connect fittings. The system is stowed in a low-profile pouch that mounts on the carrier assembly, positioned to help prevent snagging and accidental opening.

Approvals & Standards

The G1 ExtendAir II is NIOSH approved and NFPA 1981-2018 edition compliant.

EXTENDAIR II SYSTEM	G1 ExtendAir II can be configured on the purchase of a new G1 SCBA or by installing a field upgradeable conversion kit.	
	PART NO.	Description
	10205767	G1 ExtendAir II System Conversion Kit, UEBSS, 2018 Ed.
	10203820	Replacement pouch for G1 ExtendAir II System, UEBSS, 2018 Ed.
	10156464	G1 ExtendAir II System Conversion Kit, 2013 Ed.
	10156466-SP	Replacement pouch for G1 ExtendAir II System, 2013 Ed.

MSA G1 Airline Capabilities

The MSA G1 ExtendAir II also provides an airline solution for quick connection at emergency events requiring an extended air supply like bucket operations, Hazmat or confined spaces. An airline adapter connects to the ExtendAir II manifold assembly, to provide external air from distances up to 300 feet away.

AIRLINE ADAPTERS FOR EXTENDAIR II SYSTEM	PART NO.	Description

	10188846	Airline Adapter, Foster, Locking, Stainless Steel, ExtendAir II, UEBSS
	10188847	Airline Adapter, Ceijn, Locking, ExtendAir II, UEBSS

Self-Contained Breathing Apparatus (SCBA)

MSA G1 Quick-Fill System

The Quick-Fill System lets MSA air mask users refill and transfill air cylinders¹ while SCBA is worn, without removing the air cylinder—even in IDLH atmospheres. Use this MSA option to:

- Fill SCBA cylinder from a mobile compressor or cascade system in less than a minute.
- Transfill between two cylinders, providing emergency breathing system.¹
- Extend air supply over longer durations, using a remote compressed-air source.

Air masks compliant to recent NFPA standards have Quick-Fill System URC fitting located at the Audi-Larm Audible Alarm warning device. Quick-Fill System hose with quick-disconnect connects air source to adapter for air transfer. See Bulletin 0105-92-MC for a Quick-Fill System Q&A.

¹SCBA to SCBA Transfilling is not available with the 5500 psig operating system

	PART NO.	Description
MSA G1 QUICK-FILL SYSTEM REPLACEMENT PARTS	10156465	Waist-mounted Quick-Fill for MSA G1 SCBA

25-ft. lengths are stocked; custom lengths are available on special material basis. All SAE fittings are for high-pressure service. Female quick-disconnect fittings have dust covers.

RescueAire™ II Portable Air-Supply System

The MSA G1 RescueAire II System provides Rapid Intervention Teams (RITs) and firefighters with emergency breathing air within almost any situation quickly and easily. Versatile system enables selection of the right option for your application, including capability of supplying emergency breathing air to trapped firefighters wearing SCBA with compatible system(s). Built for extreme fire service conditions, G1 RescueAire II System is available in two operating pressures, 2216 and 4500 psi. Optional-use shoulder strap provides hands-free carrying.

G1 RescueAire II System incorporates a G1 Regulator, allowing a RIT team to provide air to a downed firefighter wearing a G1 Facepiece. Feature-packed system consists of G1 Cylinder, Quick-Fill® emergency breathing system (EBS), ExtendAire™ System EBS, and G1 Regulator (The G1 Regulator connects directly to the MSA G1 Facepiece for maximum rescue capability), supported by a flame- and heat-resistant carrying harness.

G1 RescueAire II System features include:

- 36" Quick-Fill System EBSS Connection
- ExtendAire System EBSS Connection
- G1 PR-14 Pressure Reducer
- G1 Regulator
- Carrying harness with adjustable shoulder strap
- Audi-Larm™ Audible Alarm low pressure warning device

MSA G1 RIT System

The G1 RIT System provides multiple options for RIT response. Internal pneumatics include G1 RIT System quick-connect pressure reducer that mounts directly onto user-supplied SCBA cylinder. Available in 2216, 4500, and 5500 psi operating pressures, cylinders are sold separately.

G1 RIT System features include:

- Six-foot high pressure supply line that terminates with female Quick-Fill System fitting
- Six-foot intermediate pressure supply line that terminates with ExtendAire II System manifold assembly
- Quick-connect second-stage G1 MMR
- Remote external gauge for easy cylinder pressure readings
- Medium size G1 Facepiece with four-point Speed-ON® Head Harness
- URC fitting on G1 RIT System pressure reducer that allows for interconnection of G1 RIT Systems

MSA G1 RIT SYSTEM	This RIT system does NOT include cylinder. Please see cylinder ordering information on p 43–45.

Technical Rescue Cart

Technical Rescue Cart is of steel construction with color-designated control panel that allows one side of panel to be used for primary respirator breathing-air and one side for tool/secondary air requirements.

Two one-hour cylinders provide air for respirators. High-pressure cascade (fire truck) cylinder air is used to operate pneumatic tools.

Features

Breathing-air segment includes:

- Two-wheeled, poly-coated steel cart, two sets of double-cylinder straps, air-line hose rack, and adjustable pull handle
- Low-pressure cylinder bell alarm
- Four-outlet manifold—available with four outlet fitting options

Tooling-air segment includes:

- CGA-347 fitting to attach to auxiliary remote high-pressure air source
- Low-pressure pneumatic alarm whistle
- Four-outlet manifold with quick-disconnects

Technical Rescue Cart is sold without air cylinders. These MSA cylinders can be used with cart:

- 60-minute, H-60SL carbon-wrapped cylinder, PN 10127946-SP
- 45-minute, H-45SL carbon-wrapped cylinder, PN 10127945-SP
- 30-minute, H-30SL carbon-wrapped cylinder, PN 10127944-SP
- 45-minute, H-45S SL SuperLite Carbon Cylinder, short, PN 10149432-SP

See pp. 43–45 for cylinder ordering information. 60-minute cylinders provides maximum air supply.

Field Maintenance and Repair

MSA offers a complete program for maintenance and repair of MSA air masks. The program is supported with personalized training tailored to customer needs and taught in the field by MSA-authorized personnel.

User maintenance covers procedures necessary to conduct general cleaning, inspection and limited maintenance in accordance with the Occupational Safety and Health Administration (OSHA), National Fire Protection Association (NFPA) and American National Standards Institute (ANSI) standards.

C.A.R.E. Certified Air Mask Repair Education covers all maintenance for both low- and high-pressure SCBA. Air mask inspection and maintenance can be performed by MSA or a factory-authorized service center. Individuals can also obtain training for C.A.R.E. certification from MSA. With a C.A.R.E.-certified technician on staff, fire departments and other facilities with a large number of air masks can perform all inspection and maintenance in-house.

- All repairs and maintenance can be done in the field.
- A selection of overhaul kits, spare parts and tool kits is available.
- Users may conduct periodic performance testing using an authorized MSA regulator tester.

Cleaning Accessories

CLEANER AND TOWELETTES	PART NO.	Description
	10009971	MSA Confidence Plus 2 Germicidal Cleaner, 32 oz. bottle
	697383	Box of 100 individually wrapped towelettes, 7¼" x 5"
	697382	Canister with 220 towelettes, 4¼" x 6"
	10022871	The Big Ones box of 50 individually wrapped towelettes, 8" x 11"

G1 CLEANING	PART NO.	Description
	10207584	G1 Washing and Decon Kit

- Clean your entire G1 SCBA (including cylinder and facepiece) in a qualified SCBA Washing Machine*
- Solo Rescue and Meiko are qualified manufacturers to clean the G1 SCBA

Other SCBA Accessories

	PART NO.	Description
ACCESSORIES FOR FILLING LOW-PRESSURE CYLINDERS	68846	Air outlet connection, complete w/ gauge
	68850	Air coupler tee
	68851	Air pigtail
	476156	Low-pressure air-filling hose, 5-ft.
HIGH-PRESSURE FILLING HOSE	476105	High-pressure filling hose assembly (provides convenient means to connect and charge high-pressure air into high-pressure 4500 psig cylinder)

* Internal testing determined no degradation of the G1 SCBA after 180 wash cycles.

Gas Detection

MSA Connected Work Platform
Multigas Portable Gas Detection
Single-Gas Portable Gas Detection
Calibration

MSA Connected Work Platform

The MSA Connected Work Platform builds connections between workers and worksites, providing actionable data that helps safety managers create safer and more efficient work environments.

ALTAIR io™ 4 Gas Detection Wearable

Tough. Intuitive. Connected.

With fully integrated cellular connectivity right out-of-the-box, the ALTAIR io 4 delivers real-time visibility to help drive safety and productivity across workers, worksites, and workflows.

ALTAIR io 4 features:

- Available through MSA+, our comprehensive subscription program including hardware and software, gives you access to powerful cloud-based solutions enabling faster implementation, increased warranty coverage and automatic software and firmware upgrades —with minimal capital expense.
- Designed with fully integrated connectivity for real-time visibility across your worksites from Day One.
- CAT-M LTE cellular connectivity and integration with the MSA Grid.
- Deploys in seconds, right out of the box. No IT required.
- Rugged, durable design and Industry-Leading XCell® Sensors.
- Survives a 25-foot drop test. Breakthrough sensor design enables faster response and shorter span calibrations.
- 1 to 4 gas options available. Sensor Options: Combustible (LEL), Oxygen, Carbon Monoxide, Hydrogen Sulfide, Methane, Sulfur Dioxide, Nitrogen Dioxide, H₂S Low-Concentration, CO, Hydrogen-Resistant SO₂.

The ALTAIR io 4 is part of the **MSA Connected Work Platform**, which helps to simplify safety, curb risk, and boost productivity.

Zero-Effort, Cloud Compliance

Out of the box and into the cloud. All device data streamed instantly and securely to the cloud and available anytime on the MSA Grid.

Proactively Manage Your Fleet

Your safety should be about progress, not pain. Take control of your fleet with one-click configuration updates and real-time, actionable data at your fingertips.

Designed to be Workproof

A device as rugged as your work. Patented, rugged sensor technology that leads the industry in response time and lifetime, military-grade durability, and the ability to survive a 25 ft. (7.6 m) drop test.

Monitor Your Workforce & Worksite Safety in Real-Time

Know when, where, and who in real-time. With connectivity to the cloud, integrated GPS, and seamless MSA id™ digital device assignment, your safety program has a level of visibility its never had before.

Build your safety program with the simplicity of an MSA+ subscription.

MSA+ gives you access to powerful cloud-based solutions enabling faster implementation, increased warranty coverage, and automatic software and firmware upgrades—with minimal capital expense.

Zero Up-Front Capex Expense

Skip the capital expenditure process and up-front purchase of devices and get your gas detection program approved and running quickly.

Always Under Warranty

While you're a subscriber, you're covered under warranty regardless of the age of the device. Peace of mind and less hassle.

Better with Time

Features and functionality routinely released to improve your safety program. And you're never stuck with old devices—upgrade to latest generation devices with every subscription renewal.

How it Works

We have a range of packages to suit your safety program's needs.

ALTAIR io™ Accessories & Services

Accessories

ALTAIR io DOCK

Plug & Play With Automated Testing

Plug the system in and get going—no networking required. And with the smarts of the ALTAIR io 4 Device, the correct test starts automatically.

Monitor Your Systems Effortlessly in the Cloud

The ALTAIR io 4 Device is your cloud connectivity to the ALTAIR io DOCK Test Stand without any networking required. Know your calibration gas needs across your entire fleet.

ALTAIR io CHARGE

Zero-Interaction Digital Device Return

When you place an ALTAIR io 4 Device in the charger, it is marked as returned to the company in the Fleet Management System.

Organize & Charge Your Fleet in a Compact Design

The ALTAIR io 4 Multi-Device Charger's wall-mountable five-bay design provides an organized home for every device in your fleet.

Services

AutoFill Calibration Gas

Calibration gas shows up when you need it—fully automated. Monthly cost includes order, delivery, and calibration gas.

ALTAIR 5X Assemble-To-Order (ATO) Options

To select your configuration, select instrument options and mark the code in the selection boxes at the bottom. Check MSA24 for additional options.

A INSTRUMENT TYPE

All ALTAIR 5X Multigas Detectors come standard with data logging and MotionAlert and InstantAlert features. Choose your instrument type, equipped with internal pump. The monochrome full-graphic display is standard; a high-resolution crystal-clear color display with logo customization is optional.

- A Pumped with monochrome display
- B Pumped with color display
- D Pumped with color display for PID (unit must be configured with PID sensor)

B COMBUSTIBLE SENSOR

Choose your combustible sensor calibration. To select 0-100% LEL pentane, please choose L; for 0-5% Vol methane choose M. For no combustible sensor, select 0 for none.

- 0 None
- L LEL 1-100% pentane
- M 0-5% Vol methane

C SENSOR #1

To have an oxygen sensor installed in your new ALTAIR 5X Multigas Detector, please select K; if you plan on configuring the ALTAIR 5X Detector with two exotic sensors with CO/H2S, please select 1 for both CO and H2S sensors; for no sensor enter 0. NOTE: Please go to www.msasafety.com and navigate to the ALTAIR 5X product page. There you can click on and use the Configure This Product tool to determine which sensor combinations are allowed in configuring an ALTAIR 5X. For example, you can not combine NH3 and Cl2 sensors in one ALTAIR 5X.

- 0 None
- K Oxygen 0-30%
- 1 CO/H2S 0-1999 ppm & 0-200 ppm
- 2 CO 0-1999 ppm
- 3 H2S 0-200 ppm
- 4 CO/H2S-LC 0-1999 ppm & 0-99.9 ppm
- 5 CO-HC 0-10,000 ppm
- 6 CO/NO2 0-1999 ppm & 50 ppm
- 7 CO H2-ResH2S 0-1999 ppm & 0-200 ppm

D SENSOR #2

Choose your toxic gas sensor.

- 0 None
- A SO2 0-20 ppm
- B Cl2 0-10 ppm
- C NO2 0-20 ppm
- D NH3 0-100 ppm
- E PH3 0-5 ppm
- F HCN 0-30 ppm
- G ClO2 0-1 ppm
- H NO 0-200 ppm

E SENSOR #3

Choose your additional toxic gas sensors.

- 0 None
- 1 CO/H2S 0-1999 ppm & 0-200 ppm
- 2 CO 0-1999 ppm
- 3 H2S 0-200 ppm
- 4 CO/H2S-LC 0-1999 ppm & 0-99.9 ppm
- 5 CO-HC 0-10,000 ppm
- 6 CO/NO2 0-1999 ppm & 50 ppm
- 7 CO H2-ResH2S 0-1999 ppm & 0-200 ppm
- A SO2 0-20 ppm
- B Cl2 0-10 ppm
- D NH3 0-100 ppm

F ADVANCED SENSOR

Add your advanced IR or PID sensor to complete your sensor suite in the ALTAIR 5X Multigas Detector. Combustible sensors are not available with CSA performance approvals.

- 0 None
- 1 10.6eV 0-2000 ppm
- B CO2 0-10% Vol
- D Butane 0-25% Vol
- F Propane 0-100% Vol
- L Methane 0-100% Vol

G PACKAGING

For an economy plastic carrying case, choose E; for red, choose R; for standard carton packaging, choose 0.

- 0 Standard carton
- E Economy plastic
- R Red economy

H APPROVAL LABEL

Choose the applicable approval label for your area. For North America, choose C, for Europe choose E, for Australia, choose A.

- C NORTH AMERICA
- T UL only (no catalytic combustible sensor in unit)
- E Europe ATEX
- A Australia

I LOGO EXPRESS® SERVICE

Upon startup, the ALTAIR 5X Multigas Detector can display your company logo or other information. Be sure to select color display for this option. To add your company logo, choose L and upload your logo to the web address which will be sent automatically to you via email. Your order with customized logo cannot be processed without uploading your logo.

- 0 None
- L Logo Express Service

J SAMPLING LINE AND PROBE KIT

MSA's quality sampling lines and probes are durable, easy to use and offer high speed and convenience using our quick-connect fittings. If you are sampling Cl2, ClO2 and/or NH3, please select option 2; for all other gases select options S or I. Options 1 and 2 come with quick disconnect sampling lines and probes. For no sampling line or probe, select 0.

- 0 None
- S 1-ft clear probe and 10-ft PU Line
- 1 1-ft probe and 10-ft PU line w/ QD
- 2 1-ft probe and 10-ft teflon line w/ QD (reactive gases)

Note:

An additional surcharge will be added to configurations that are classified as hazardous materials

PART NUMBER

ALTAIR® 4XR Multigas Detector

Reliability

- State-of-the-art MSA XCell Sensors—two times faster than industry average

Rugged Durability

- Drop-tested
 - 25 drops from 4 ft (1.2 m)
 - 25-ft (7.5 m) drop onto concrete
- MIL-STD-810g
- Temperature: -40° F (-40° C) to +140° F (+60° C)

Real-Time Connectivity

- Live gas readings
- Text alerts from the field for gas alarm or man-down alarm
- Non-compliance warnings

Warranty

- Four-year warranty for instrument and sensors

ALTAIR® 4X Detector (MSHA)

- 3-year instrument warranty
- Lower maintenance cost
- Reduced required calibration gas
- GALAXY GX2 System compatibility for powerful calibration and fleet management
- MotionAlert feature activation when no movement is detected for 30 seconds, indicating “man down”
- InstantAlert feature manually-activated alarm to alert others of hazardous situations
- 30+ hour run time for continuous operation over three shifts

ALTAIR 4X Multigas Detector with North American approval, quick-start card, data logging, charger, calibration cap, tubing, and CD manual. MotionAlert feature comes standard on all detectors.

	DESCRIPTION	PART NO.
ALTAIR 4X MINING MULTIGAS DETECTOR	ALTAIR 4X Multigas Detector (CH ₄ , O ₂ , CO) Charcoal	10125912
	ALTAIR 4X Multigas Detector (CH ₄ , O ₂ , CO) Phosphorescent	10125913
	ALTAIR 4X Multigas Detector (CH ₄ , O ₂ , CO, NO ₂) Charcoal	10125914
	ALTAIR 4X Multigas Detector (CH ₄ , O ₂ , CO, NO ₂) Phosphorescent	10125915

ALTAIR® 4X Detector (MSHA)

To select your configuration, select instrument options and mark the code in the selection boxes at the bottom. Check MSA24 for additional options.

The ALTAIR 4X Multigas Detector now comes standard with MSA's new XCell Sensors and MotionAlert feature to indicate "man down". Please select your instrument's case color; select option C for charcoal and option G for phosphorescent (glow-in-the-dark).

- C Charcoal
G Phosphorescent (glow-in-the-dark)

B COMBUSTIBLE SENSOR

To have a combustible sensor installed in your new ALTAIR 4X Multigas Detector, please select C. For no combustible sensor, please select 0.

- 0 None
C 0-5% Vol methane

To have an oxygen sensor installed in your new ALTAIR 4X Multigas Detector, please select 1. For no sensor, enter 0.

- 0 None
1 0-30% Vol

D TOXIC SENSOR

To configure your new ALTAIR 4X Multigas Detector, choose 0 for no toxic sensor. Choose A for both CO and H2S sensors, choose B for CO, C for H2S, D for CO and NO2, and E for NO2.

- 0 None
A 0-1999 ppm CO and 0-200 ppm H2S
B 0-1999 ppm CO
C 0-200 ppm H2S
D 0-1999 ppm CO and 0-50 ppm NO2
E 0-50 ppm NO2

Select the correct power supply for your region. Add an instrument cradle to firmly secure your instrument while charging on the shelf or in a vehicle.

- 0 None
N North American
M North American with cradle

F APPROVAL LABEL

The ALTAIR 4X Multigas Detector is fully approved by MSHA.

- M MSHA

MSA includes a full 3-year warranty on the ALTAIR 4X Multigas Detector, including sensors, battery and electronics. Choose 1 for an additional year (4 years total).

- 0 3 years standard warranty
1 Extended warranty (4 years total)

Note:

An additional surcharge will be added to configurations that are classified as hazardous materials

10153105	50-foot polyurethane Sampling Line

ALTAIR® 2X Gas Detector

- incorporates proven XCell sensor technology.
- enhances worker safety, compliance and traceability.
- minimizes cost of ownership.
- demonstrates rugged durability.

ALTAIR 2XP Gas Detector with XCell Pulse Technology *Compliance, Traceability and Simplicity without Compromising Safety*

The industry best practice of conducting a bump test prior to each day's use is easily achieved with the ALTAIR 2XP. Bump anywhere, any time, without bottled gas or accessories.

ALTAIR 2XT – Two-Tox Gas Detector

The ALTAIR 2XT Detector eliminates the need for a second detector by utilizing proven XCell Two-Tox Sensors. XCell Two-Tox Sensors detect two gases on distinct sensor channels with digital output that minimizes cross-channel interference.

ALTAIR 2X – Single-Gas Detector

ALTAIR 2X Gas Detectors: CO, CO-HC (High Concentration), CO-H₂ (Hydrogen Resistant), H₂S-LC, SO₂, NO₂, NH₃ and Cl₂

LOW COST OF OWNERSHIP	• Fastest sensor response times, lowest calibration gas flow rate on the market • 4-year expected instrument & sensor life • 3-year warranty on instrument & most sensors (2 years on Cl₂, NH₃)
INCREASED SAFETY AWARENESS & REAL-TIME COMPLIANCE	• Bump PASS: Green LED flash every 15 seconds, large on-screen checkmark for real-time compliance • Bump FAIL: Red LED flash every 15 seconds, no checkmark • End-of-sensor-life warning and alarm
FULL-TIME TRACEABILITY	• Records 75 alarm events and over 100 hours of periodic data, including bump and calibration records • Records can be easily downloaded during periodic gas calibrations using the GALAXY GX2 Automated Test System
RUGGED DURABILITY	• Tough over-molded rubber armor • Survives multiple 25-ft drops onto concrete • Agency-certified dust- and water-tight IP67 and intrinsically-safe construction
EASY TO USE	• 1-button, gloved hand operation • Large LCD, characters, and status icons

PART NUMBER

ALTAIR® Pro Gas Detector

ALTAIR Pro toxic gas and oxygen detectors combine reliable detection and LED/audible/ flashing/vibrating alarms with clear, backlit LCD displays. Electrochemical sensors measure concentrations of toxic gas (chlorine dioxide, hydrogen cyanide, phosphine) or percent oxygen.

	Instrument Type	Part No.	Low Alarm	High Alarm	STEL	TWA
ALTAIR PRO SINGLE-GAS DETECTORS	Oxygen (O ₂)	10074137	19.50%	23.00%	N/A	N/A
	Hydrogen Cyanide (HCN)	10076729	4.5 ppm	10 ppm	10 ppm	4.7 ppm
	Chlorine Dioxide (ClO ₂)	10076717	0.1 ppm	0.3 ppm	0.3 ppm	0.1 ppm
	Phosphine (PH ₃)	10076735	0.3 ppm	1.0 ppm	1.0 ppm	0.3 ppm
Alternate Set Point Model	Oxygen (O ₂)	10076732	18.00%	19.50%	N/A	N/A

ALTAIR® Maintenance-Free Single-Gas Detector

- Sensor options for CO, H₂S, and O₂
- Patented electrochemical sensors & MSA-built button sensors operate for over 2 years
- Stainless steel and solid electrolyte construction virtually eliminate sensor leakage
- Automatically records the last 25 alarm/test events and can communicate data by connecting to MSA Link via built-in IR communication port
- No-miss triple alarm system includes bright flashing LEDs, piercing audible alarm, and an internal vibrating alarm
- Rubberized armor housing and one-button operation for maximum durability and simplicity

	Instrument Type	Part No.	First Alarm	Second Alarm
ALTAIR PRO SINGLE-GAS DETECTORS	Carbon Monoxide (CO)	10092522	25 ppm	100 ppm
	Hydrogen Sulfide (H ₂ S)	10092521	10 ppm	15 ppm
	Oxygen (O ₂)	10092523	19.5% Vol	23% Vol
Alternate Set Point Model	Carbon Monoxide (CO)	10071334	30 ppm	60 ppm
	Carbon Monoxide (CO)	10071335	35 ppm	100 ppm

GALAXY® GX2 Automated Test System

Ease of Use: Calibrate & Test Effortlessly

- Easy setup, simple use with touch-free testing.
- Color touch screen enhances user experience at the test stand.
- Can be used with a PC or as a stand-alone system, the perfect solution for large fleet end users, as well as for smaller applications.
- Automated test system provided in many commonly spoken languages.
- Your MSA ALTAIR 5X, 5X PID, 4XR, 4XM, 2X, Pro, and Single Gas Detectors are always ready for use. If you're faced with an urgent, short-notice situation, these units are ready for deployment, ideal for emergency applications.

Cost of Ownership: Save Time, Save Gas, & Save Money

- Exceeds 50% reduction in cost of ownership, including calibration gas expenses when combined with high-performance MSA XCell Sensors.
- Faster total testing of ALTAIR Family Gas Detectors.
- Test up to 10 gas detectors simultaneously in the time most competitive systems take to test one device.
- RFID-tagged calibration gas.

Portable Gas Detection Instruments

GALAXY® GX2 Automated Test System

Galaxy GX2 Assemble-To-Order (ATO) Options

To select your configuration, select instrument options and mark the code in the selection boxes at the bottom. Check MSA24 for additional options.

A TEST STAND INSTRUMENT TYPE

Each instrument type has a dedicated GALAXY GX2 System test stand. 10 test stands can be banked together in any combination, allowing for ultimate flexibility.

A ALTAIR/ALTAIR Pro/ALTAIR 2X Detector

B ALTAIR 4/4X Detector

C ALTAIR 5/5X Detector

B ACTIVE CYLINDER PORTS

Single valve test stands allow for only one calibration cylinder to be used. 4 valves allow for 1- 4 calibration cylinders to be accessed.

1 1 Valve / 1 Cylinder

4 4 Valves / Up to 4 Cylinders

C INSTRUMENT CHARGING

Instrument charging allows for a single instrument to be charged per test stand. Only available on ALTAIR® 4/4X and ALTAIR 5/5X Multigas Detector test stands. Choose Yes/1 if you wish to use the "always ready" function of ALTAIR 4X or ALTAIR 5X Detectors.

0 No

1 Yes

D SMART CYLINDER HOLDER

Smart cylinder holder provides calibration gas information and gas levels. Information such as part number, gas types, concentrations, expiration date, lot number, and real time pressure levels are automatically set up in the test stand. Smart cylinder holder provides end users with automated, remote warnings as to low or no gas and expired or nearly expired cylinders.

0 None

1 1 Cylinder Holder

2 2 Cylinder Holders

3 3 Cylinder Holders

4 4 Cylinder Holders

E MULTI-UNIT CHARGER

Selection of ALTAIR 4/4X Detector and multi-unit charger provides charging for 1-4 ALTAIR 4/4X Detectors. Selection of ALTAIR 5/5X Detectors and multi-unit charger provides charging for 1-4 ALTAIR 5/5X Detectors. Additional units may be purchased from accessory list below.

0 None

B Multi-unit charger, ALTAIR 4/4X

C Multi-unit charger, ALTAIR 5/5X

D Multi-unit charger, ALTAIR 4/4X & 5/5X (2 positions of each)

F POWER CORD

Each test stand (with the exception of Argentina version) comes with 6V power supply. Power cord option then chooses the appropriate power cord by region. None provides power supply and no power cord. Argentina version provides no power supply and no power cord.

N North America

E Europe

U United Kingdom

A Australia

R Argentina

0 None

H SECURE DIGITAL USB

Allows end user to securely configure instrument set points at GALAXY GX2 System test stand. Must be inserted to process any setting changes to an instrument.

0 None

A 1 Secure Digital USB Key

Note:

An additional surcharge will be added to configurations that are classified as hazardous materials

Model RP and Model R Calibration Cylinders—Non-Reactive Gases	Model RP and Econo-Cal Calibration Cylinders—Reactive Gases	BD-20 Calibration Cylinder—Reactive or Non-Reactive Gases
Model RP Cylinder • Contents: Pressure 1000 psig; approximately 100 liters at atmospheric pressure • Material: Steel	Model RP & Econo-Cal Cylinders • Contents: Pressure 500 psig–1000psig • Material: Aluminum	Cylinder • Contents: Pressure 2216 psig • Material: Aluminum • Part No. 10152629 (standard quad gas)

Call for availability of other gas mixtures

MODEL RP CALIBRATION CHECK KIT	
• Includes regulator with cylinder pressure gauge, adapter hose, sensor adapter (where applicable), instructions, and two-cylinder case • Model RP Kit steel calibration gas cylinders measure approximately 14¼" high, 3½" in diameter • Aluminum container 13¼" high, 3" in diameter • Depending upon individual pressure requirements, cylinders contain 58 to 100 liters of specified gas mixture	
P/N	Description
477149	Model RP Calibration Check Kit, with 0.25 lpm regulator, includes:
467895	Regulator (0.25 lpm)
24194	Tubing, 30" (without sampling line connection)
10089321	Calibration cap: ALTAIR 4/4X
635833	Quick disconnect fitting
628474	Zero plug for MSA electrochemical sensors
465898	Quick disconnect fitting, internal, ⅜ barb

Calibration Cylinders Are Recyclable

MSA has affiliated with The Arc™ of Butler County—a nonprofit organization that employs people with intellectual and developmental disabilities—and established a Cylinder Recycling Center. The calibration cylinders are not refilled, but salvaged for scrap. All money generated from selling the scrap cylinders is placed in the Arc operating fund for salaries and operating costs.

Calibration cylinders are considered hazardous unless the cylinders are empty. MSA has developed special devalving tools that will ensure the cylinder is empty and render the cylinder non-fillable. For your convenience, MSA also offers a specially pre-addressed shipping box (also recyclable) which helps you pay the lowest shipping costs available.

The MSA Recycling Center limits the return of calibration cylinders to MSA-logoed cylinders only. Non-MSA cylinders will be rejected. Contact the Customer Service Center for additional details at 1-800-MSA-2222.

DID YOU KNOW?

All V-Gard Helmets have UV inhibitor molded right in.

CUSTOMIZATION:

Imprinting and striping available—see pages 83–84

REPLACEMENT SUSPENSIONS: See page 85

DID YOU KNOW?

MSA helmets marked **LT** meet voluntary requirements for “Lower Temperature.” Helmets marked LT are conditioned to -22°F and then tested for impact and penetration, as outlined in the Standard. Any helmet NOT marked with LT is tested to 0°F.

Did you know that MSA offers a complete line of MSA hard hat accessories?
See pages 92–108 for more information.

¹Certified to CSA.

²V-Gard Cap/Hat meets voluntary standard for hi-visibility as prescribed by ANSI/ISEA Z89.1-2014. Look for official hi-visibility marking [HV] on the helmet's ANSI label.

V-Gard® GREEN Hard Hats: *the world's first hard hat made from renewable resources*

V-Gard® H1 and H1 Pro Safety Helmets

The V-Gard H1 and H1 Pro Safety Helmets and accessories provide **exceptional comfort** and **ease of use** in a **stylish low-profile design**. A complete above-the-neck platform **for all applications**, especially work-at-heights, confined spaces, and rescue.

Classification	Type I
Markets	Utilities; oil, gas and petrochemical; general industry; construction
Application	General Industry; construction; working-at-heights; confined space; rescue
Shell Material	HDPE (high-density polyethylene)
Styles	Novent; trivent (H1 and H1 Pro); bivent (H1 only)
Sizes	Standard 6½ – 8 (52–64 cm) head circumference
Standards	See chart on p. 81

V-Gard H1 Safety Helmet Features (Global & Canada)

- Fas-Trac® III Pivot ratchet suspension for superior comfort, adjustability and range of motion; field replaceable
- Non-contact foam liner maximizes air flow & breathability for optimal cooling and hygiene
- 4-point chinstrap with multiple adjustment points for customized fit and comfort; field replaceable
- Convenient rescue whistle integrated into the chin strap buckle
- Premium sweatband with sweat-wicking fabric, breathable foam and Velcro® attachment for easy field replacement
- Patent pending “push-button” accessory attachment rail and universal light strap clips for simplicity and convenience
- Suspension and chinstrap fully assembled
- Reflective gray 360° striping included

V-Gard H1 Pro Safety Helmet Features (ANSI Only)

- Fas-Trac® III H1 non-pivoting ratchet suspension comes standard for superior comfort, easy cleaning and durability; field replaceable
- Non-contact foam liner maximizes air flow & breathability for optimal cooling and hygiene
- 4-point chinstrap with multiple adjustment points for customized fit and comfort; field replaceable
- Convenient rescue whistle integrated into the chin strap buckle
- Sewn-in vinyl sweatband for added comfort, easy cleaning and durability
- Patent pending “push-button” accessory attachment rail and universal light strap clips for simplicity and convenience
- Meets the requirements of European standard EN124922012 for Shock Energy Absorption Capacity [4.2.1.1 (vertical/top), 4.2.1.2 (front), 4.2.1.3 (lateral), 4.2.1.4 (rear)], Penetration [4.2.2] and Retention System [4.2.3 (strength), 4.2.4 (effectiveness)]

V-Gard® H1 and H1 Pro Safety Helmets

Customization Options for V-Gard H1 Safety Helmet (Global & Canada)

- Multiple printing services, from simple one-color logo to four-color with gradients
- Up to three logo locations: Front, Back Left, Back Right
- With or without reflective gray 360° striping

Customization Options for V-Gard H1 Pro Safety Helmet (ANSI Only)

- Multiple printing services, from simple one-color logo to four-color with gradients
- Up to three logo locations: Front, Back Left, Back Right
- With or without reflective gray 360° striping
- Suspension type: Pivoting with Velcro Sweatband or Non-Pivoting with Sewn-In Vinyl Sweatband
- Chinstrap type: EN397 or EN12492 compliant
- Custom helmet colors available

Care & Maintenance

- Clean helmet assembly regularly with MSA's Confidence Plus Cleaning Solution (P/Ns 10009971 or 10032737) or mild soap (no detergents) and warm water
- Do not throw, drop, use as support or abuse helmet to ensure proper working condition
- Store helmet in clean, dry environment, 5–35°C (41–95°F)

Technical Assistance/Additional Information

For more information about V-Gard Helmets and other MSA products, please contact MSA Customer Service at 1-800-MSA-2222 or visit MSAsafety.com.

Service Life Guidelines

- V-Gard Helmets are made with high-quality, wear-resistant materials
- Inspect the helmet before and after each use and replace any part(s) as required
- Always replace the helmet after it has withstood an impact or penetration. MSA recommends:
 - Replacing the suspension after no more than 12 months of use.
 - Replacing the chinstrap after no more than 12 months of use.
 - Replacing the shell after no more than five (5) years of use.
- Storage Life is 2 years from date of manufacture when stored as directed
- Warranty: 1 year from date of purchase (free from manufacturer's defects)
- Please consult user instructions for additional details

V-Gard H2™ Safety Helmets

The V-Gard H2 Safety Helmet provides superior comfort and versatility while incorporating the latest technology to help protect against lateral impacts. The optional Mips® brain protection system adds another layer of protection in industrial safety helmets, designed to help reduce the risk of brain trauma by redirecting rotational energies in the event of certain angled impacts.

- **Quick and easy customization** with thousands of existing logos, easy creation of new logos, and reflective stripes.
- **Integrated headlamp strap clips** for easy and secure donning and doffing of lights on the helmet.
- **ANSI Z89.1 Type II certification** with integrated chinstrap for enhanced protection against lateral impacts.
- **Non-vented options** for use in electrical applications where Class E certification is needed.
- **Optional venting** for improved air flow, cooling and reduced heat stress.
- **Extensive accessory compatibility with nearly all V-Gard H1 and V-Gard accessories** for a wide variety of industrial applications and easy integration with existing inventory.
- **Comfortable ratchet suspension** that's easily adjustable with a gloved hand.
- **Antimicrobial sweatband, crown pad, and ratchet pad** with Ionic+® high-purity silver to eliminate odor-causing bacteria.
- **Optional Mips® system** for additional rotational impact protection designed to help reduce the risk of traumatic brain injury.

V-Gard® C1™ Full-Brim Hard Hats

• ReflectIR™ Thermal Barrier

(*patent-pending*) works to block the energy of the sun, keeping the inside of the hard hat up to 20°F (11°C) cooler¹, reducing the risk of heat stress.

• Largest vents MSA offers on a full-brim hat

(*vented version*) are strategically placed to optimize airflow, increase comfort and further reduce heat stress.

• Premium moisture-wicking sweat band

pulls sweat away from the head allowing it to evaporate into the air, while breathable foam padding keeps you dry and comfortable. Can be easily removed for laundering or replacement.

• Full brim on the V-Gard C1 Hard Hat offers 12% more coverage², providing additional shade while protecting you from harmful UV rays. Unique textured brim provides added grip when donning and doffing the hard hat.

CUSTOMIZATION

- Full-color logos available in up to three locations:
 - Front and back
 - Front, back left, and back right
- Reflective striping available in silver or yellow up to 360° coverage: front, back, and sides
- Custom hard hat colors available

¹Compared to a hard hat without the ReflectIR Thermal Barrier in sunny conditions; testing done with black, non-vented, V-Gard C1 Hard Hats.

²Compared to a full-brim V-Gard or V-Gard 500 Hard Hat.

³V-Gard Cap/Hat meets voluntary standard for hi-visibility as prescribed by ANSI/ISEA Z89.1-2014. Look for official hi-visibility marking [HV] on the helmet's ANSI label.

Head, Eye, Face, and Hearing Protection

Helmet Customization For 30+ Years

Practice makes *perfect* logos

- MSA uses inks and processes that create durable logos.
We have never had a complaint about a logo “scratching off” in the 30+ years we have been in the logo business!
- It can be tricky to avoid logo distortion due to the curvature of the hard hat. That’s why MSA Logo Express® Service employs graphic designers who process logos onto hard hats. These skilled artisans ensure each logo is placed properly so it not only endures, but also accurately represents your brand and logo in color, size and shape—despite the curve of the hard hat.
- MSA offers multiple printing services from simple one-color logo to digital photos, in up to four locations
- We don’t require “color-separated” artwork for 1+ color logos; nor do we require customers to identify the PMS colors in their logos. Our graphic artists can manage that, if you do not have these details.
- Re-ordering is easy because we keep your logo on file until you change it¹.

Our Process

Once your order has been received by the MSA Logo Express Service Design center we get to work. Files are imported from your on-line hard hat configuration, assessed for usability and colors separated (if the PMS colors have not been identified) and layout finalized.

Delivery

Once the layout process is complete, our factory craftsman get to work on your order. Your order for a new hard hat logo should ship within eight (8) days from our Murrysville, PA plant from the date we receive your approval on the artwork².

Minimum Order Quantities (MOQ)

MSA requires MOQs, by hard hat type, for logoing and striping. Qualifying MOQs of custom-imprinted or striped hard hats must be of the same size, model and options (i.e., color and suspension). MOQs are:

- 20 for V-Gard, SmoothDome®, Topgard, Comfo Cap Hard Hats, and Nexus Climbing Helmets
- 16 for Skullgard or Thermalgard® Hard Hats
- 12 for Super-V and Vanguard Hard Hats
- 40 for Bump Caps

Pricing

Please refer to your local distributor for pricing details on standard and non-standard charges that may apply to your order.

Striping

Add any of 27+ different reflective and retro-reflective stripes to your hard hat. MSA reflective stripes help enhance the visibility of workers in daytime conditions, while retro-reflective stripes³ offer additional enhancement in nighttime or low-light conditions. Stripes are available in various sizes and shapes, and can be placed on all types of MSA hard hats.

Keep in mind too, that while you can order more stripes for self-application, MSA does not recommend doing this. The reason for this is MSA pre-treats all hard hats prior to striping with an electrical discharge treatment to enhance the ability of the stripes adhesive bonds.

Stock Logos and Slogans

With 23 “pre-built” stock logos and slogans, MSA offers more “off-the-shelf” hard hat graphics than anyone in the industry. Standard logos make it easy for you to place emphasis on safety, patriotism or personnel identification without having to develop your own artwork. They can be used alone or with your customized logo and striping.

Hard Hat Color Choices

MSA offers more stocked color options than competitors—in our popular V-Gard hard hat, we offer 21 stocked colors. There are non-stocked color options available for all MSA hard hats; a qualifying MOQ of 100 hard hats is required.

You can create a shell color of your choice. You need only order a qualifying MOQ of 500 hard hats or more.

¹ Files are purged from MSA’s system if no logoed hard hat order is received within three (3) years of the first order.

² Orders for repeat logos ship within seven (7) days. This includes 2-3 days for order processing, and 5 days for production.

Placing Customized Hard Hat Orders

Steps to complete your online logo configuration order:

Summary of how to submit artwork to MSA Logo Express Service

Please review the document for process details.

METHOD FOR SUBMITTING ARTWORK	Electronic file emailed to your MSA distributor
PROGRAMS FOR SUBMITTING ARTWORK	Corel Draw (version x6 or lower) Adobe Illustrator (version cs6 or lower) Adobe Photoshop (version cs6 or lower)
ARTWORK FILES	VECTOR FILES: .cdr (Corel Draw) .ai (Adobe Illustrator) .eps (encapsulated postscript)

Submitting Artwork

1. Send the artwork by email to the MSA distributor taking your order. They will send it to MSA Logo Express Service.
2. Name the Pantone Matching System (PMS) ink colors used in your artwork (if you know them). Type the actual numbers in the email, as colors sometimes don't transmit properly through email. For example, MSA's logo is green, but specifically, the color of our brand logo is PMS 355.
3. Provide all linked graphics and fonts (see "Font Submission")

Note: Should you not have access to email please contact MSA Logo Express for alternate methods.

Did you know?

If you **only** have other types of artwork, (e.g. printed copies of letterhead or business cards), please contact MSA Logo Express Service for submission instructions.

The "Try-It" Sample Program

The "Try It" sample program offers some of the most popular MSA head, eye, face and hearing protection products, including V-Gard Helmets, V-Gard Accessories, left/RIGHT Hearing Protection, and Sightgard® Eyewear —completely FREE of charge! Look for the  that tells you which products are included in the program.

See what a logoed V-Gard Cap, Hat or 500 Helmet looks like. Pre-designed logoed hard hat samples are available through the FREE sample Try It program. Contact your MSA sales representative for more details.

Replacement Suspensions for MSA Hard Hats

MSA Fas-Trac® III Ratchet Suspension

The MSA Fas-Trac III Suspension helps to reduce pressure headaches and pulled hair, and stays on your head.

- ❶ Sweatband fully covers headband and worker's forehead
- ❷ Three levels of nape strap adjustment for customized fit
- ❸ Lower nape strap improves retention
- ❹ Smooth ratchet rotation and secure hold

Learn how the Fas-Trac III Suspension can relieve your headaches. Visit www.MSAsafety.com/fastrac.

The **Fas-Trac III Suspension sweatband** accessory keeps workers cool and dry.

	Part No.	Product Specs
	10153518 	• For use with MSA Fas-Trac® III Suspension • Optional, moisture-wicking and washable • Can be attached/replaced while suspension is assembled in helmet • Sold ONLY in packages of 10

⚠ WARNING

Use only the indicated MSA suspension in your MSA helmet. Do not mix suspension sizes and helmet sizes (i.e., putting a standard sized suspension in a large helmet or any other mismatched combination). Do not use competitor suspensions in MSA helmets. Inspect your suspension frequently. Suspensions should be replaced every 12 months, regardless of inspection results. Replace immediately (along with the helmet), if an impact has occurred. Failure to follow these instructions will reduce the energy absorbing ability of the protective helmet to receive impact, and could result in serious injury or death.

DID YOU KNOW?

NFPA 70E is a work practice; it is not a standard and does not specify any test methods. No products “meet” NFPA 70E—users simply follow the practice of NFPA 70E. For head protection, NFPA 70E recommends that users wear Class E hard hats in following this work practice.

¹V-Gard Cap/Hat meets voluntary standard for hi-visibility as prescribed by ANSI/ISEA Z89.1-2014. Look for official hi-visibility marking [HV] on the helmet's ANSI label.

²Helmets marked with the HT designation have been certified to the optional Higher Temperature test of ANSI/ISEA Z89.1. In this test, helmets are pre-conditioned in an oven at 60°C ± 2°C (140°F ± 3.6°F) and then tested per the ANSI/ISEA Z89.1 Industrial Head Protection Standard for top force transmission. In addition, Topgard Helmets were exposed to a radiant heat load until the surface temperature on the top of the helmet reaches 257°F and then tested per the ANSI/ISEA Z89.1 Industrial Head Protection Standard for top force transmission. The source of the radiant heat load was located above the top of the helmet. This testing is performed by MSA and is not part of the helmet certification process.

V-Gard® Accessory System: V-Gard® Frames for Cap-Style Hard Hats

V-GARD UNIVERSAL CAP FRAME				
Part No.	Debris Control	Product Specifics		
10187161	With debris control	Easy to Use - Add and remove accessories¹ - Quicker visor installation and removal - Green color coded parts Built to Last - Infinity joints - Universal strap - Debris control	Reducing Complexity Designed to work with all MSA V-Gard cap-style hard hats	
10187162	Without debris control	Easy to Use - Add and remove accessories¹ - Quicker visor installation and removal - Green color coded parts Built to Last - Infinity joints - Universal strap	Reducing Complexity Designed to work with all MSA V-Gard cap-style hard hats	

Part No.	Product Specifics
10187163	Replacement debris wiper

Part No.	Product Specifics
10187251	Replacement rubber strap

V-GARD FRAMES FOR GENERAL PURPOSES				
Markets: General industry, manufacturing, repair and maintenance, construction, oil and gas, forestry, shipbuilding, metalworking, automotive, mining Applications: Chipping, splash, chiseling, drilling, grinding, machining, power fastening, sanding, sawing			Standards²: ANSI/ISEA Z87.1-2015; CSA Z94.3; EN 166; AS/NZS 1337 Certification: Third-party by Intertek, INSPEC International Ltd., CSA International and SAI Global Ltd. Min Order Qty: 10	
Part No.	Material	Debris Control	Product Specifics	
10115730 	High density polyethylene (HDPE)	Includes replaceable debris control which creates tight seal between frame and cap	- Fits all MSA Slotted Caps - Stowable slot adaptors secure frame tightly in slotted MSA caps, and allow frame to work with or without earmuffs³ - Sliding adjustment blades allow visor to work with most half-mask respirators and other PPE worn under a visor	
10121266 	High density polyethylene (HDPE)	Debris control sold separately	- Fits all MSA Slotted Caps⁴ - Stowable slot adaptors secure frame tightly in slotted MSA caps, and allow frame to work with or without earmuffs³ - Sliding adjustment blades allow visor to work with most half-mask respirators and other PPE worn under a visor	

⚠ WARNING

Use V-Gard Frames ONLY with V-Gard Visors, to ensure compliance with safety standards. Misuse can result in death, permanent impairment of sight, or other serious injury.

¹MSA does not recommend the use of the V-Gard Universal Frame with the MSA SmoothDome when using cap-mounted muffs and large V-Gard molded Visors. The V-Gard Frame for Slotted Caps should be worn with this particular combination.

²Standards requirements met by each V-Gard Frame/V-Gard Visor combination designated on each V-Gard Visor.

³Patent pending

⁴MSA recommends the use of debris control on V-Gard frames when wearing BOTH large V-Gard molded Visors and cap-mounted earmuffs.

V-Gard® Accessory System: V-Gard® Frames for Cap-Style Hard Hats

V-GARD FRAMES FOR ELEVATED TEMPERATURE APPLICATIONS

Markets: Food manufacturing/canneries, steel mills, construction, open-pit mining, agriculture, oil/gas/petrochemical refineries, rubber manufacturing, and steam tunnels

Applications: Food processing, machine operation, maintenance, millwright, cutting, punching, extrusion, drilling, blasting, casting/conveying, chemical mixing, sanding

Features: Tested to withstand temperatures of 350°F (176.7°C), reducing warping, cracking or crazing

Standards: ANSI/ISEA Z87.1-2015; CSA Z94.3; EN 166; AS/NZS 1337

Certification: Third-party by Intertek, INSPEC International Ltd., CSA International and SAI Global Ltd.

Min Order Qty: 10

Part No.	Material	Debris Control	Product Specifics	
10115821 	Polycarbonate — all non-metal construction	Replaceable debris control tested against EN 166 hot solids requirements	- Stowable slot adaptors secure frame tightly in slotted MSA caps, and allow frame to work with or without earmuffs² - Sliding adjustment blades allow visor to work with most half-mask respirators and other PPE worn under a visor	
10121267 	Polycarbonate — all non-metal construction	Debris control sold separately ³	- Stowable slot adaptors secure frame tightly in slotted MSA caps, and allow frame to work with or without earmuffs - Sliding adjustment blades allow visor to work with most half-mask respirators and other PPE worn under a visor	
10116552 	Polycarbonate — all non-metal construction	Replaceable debris control tested against EN 166 hot solids requirements	- Heavy duty flat rubber strap allows easy and secure placement on all MSA caps, including non-slotted models⁴ - Design allows use with other PPE, including MSA earmuffs and respirators	

V-Gard® Accessory System: V-Gard® Frames for Full-Brim Hard Hats

V-GARD FRAMES FOR GENERAL PURPOSES

Markets: General industry, manufacturing, repair and maintenance, construction, oil and gas, forestry, shipbuilding, metalworking, automotive, mining

10116627 	High density polyethylene (HDPE)	Offered without debris control ONLY	- Heavy duty flat rubber strap allows easy and secure placement on all MSA hats, including non-slotted models - Design allows use with other PPE, including MSA earmuffs and respirators - Fits MSA Full-Brim Safety Helmets	

V-GARD FRAMES FOR ELEVATED TEMPERATURE APPLICATIONS

Markets: Food manufacturing/canneries, steel mills, construction, open-pit mining, agriculture, oil/gas/petrochemical refineries, rubber manufacturing, and steam tunnels

Applications: Food processing, machine operation, maintenance, millwright, cutting, punching, extrusion, drilling, blasting, casting/conveying, chemical mixing, sanding

Features: Tested to withstand temperatures of 350°F (176.7°C), reducing warping, cracking or crazing

Standards: ANSI/ISEA Z87.1-2015; CSA Z94.3; EN 166; and AS/NZS 1337

Certification: Third-party by Intertek, INSPEC International Ltd., CSA International and SAI Global Ltd.

Min Order Qty: 10

Part No.	Material	Debris Control	Product Specifics	
10116628 	Polycarbonate — all non-metal construction	Offered without debris control ONLY	- Heavy duty flat rubber strap allows easy and secure placement on all MSA hats, including non-slotted models - Design allows use with other PPE, including MSA earmuffs and respirators - Fits MSA Full-Brim Safety Helmets	

¹Standards requirements met by each V-Gard Frame/V-Gard Visor combination designated on each V-Gard Visor.

²Patent pending

³MSA recommends the use of debris control on V-Gard frames when wearing BOTH large V-Gard molded Visors and cap-mounted earmuffs.

⁴MSA does not recommend the use of the V-Gard Universal Frame with the MSA SmoothDome when using cap-mounted muffs and large V-Gard molded Visors. The V-Gard Frame for Slotted Caps should be worn with this particular combination.

V-Gard® Accessory System: V-Gard® Frames for MSA Slotted Full-Brim Hard Hats

V-GARD FRAMES FOR GENERAL PURPOSES				
Markets: Oil, gas & petrochemical, manufacturing, repair and maintenance, construction, general industry, forestry, shipbuilding, metalworking, automotive, mining Applications: Chipping, splash, chiseling, drilling, grinding, machining, power fastening, sanding, sawing			Standards¹: ANSI/ISEA Z87.1-2015 and CSA Z94.3 Certification/Testing: CSA International and Intertek Min Order Qty: 10	
Part No.	Material	Debris Control	Product Specifics	
10154622 	Polybutylene terephthalate (PBT)	Sold with replaceable debris control which creates tight seal between frame and hat	- Fits MSA Slotted Full Brim Hats - Sliding adjustment blades allow visor to work with most half-mask respirators and other PPE worn under a visor - Patented Infini-just allows lift/closure adjustment using grippable knobs that can't be lost ²	
10154604 	Polybutylene terephthalate (PBT)	Debris control sold separately	- Fits MSA Slotted Full Brim Hats - Sliding adjustment blades allow visor to work with most half-mask respirators and other PPE worn under a visor - Patented Infini-just allows lift/closure adjustment using grippable knobs that can't be lost ²	
10116628	All rubber construction	Exceeds EN requirements for molten metal	Debris Control	

V-Gard® Accessory System: V-Gard® Metal Frames for Hard Hats

V-GARD FRAMES FOR GENERAL PURPOSES AND ELEVATED TEMPERATURE APPLICATIONS				
Markets: Manufacturing; construction; steel/smelting operations Applications: Machine operation, maintenance, millwright, extrusion, drilling, blasting, casting/conveying			Standards¹: ANSI/ISEA Z87.1-2015; CSA Z94.3 Certification: Third-party by Intertek, CSA International (as marked)	
Part No.	Material	Product Specifics		
10158799 	Heavy-duty anodized aluminum	- For use with MSA cap-style hard hats - Spring coil for fast loading of frame to helmet - Three visor resting positions - Locking device holds visor securely in the down position		
10158800 	Heavy-duty anodized aluminum	- For use with MSA Skullgard cap-style hard hats - Spring coil for fast loading of frame to helmet - Three visor resting positions - Locking device holds visor securely in the down position		
10176739 	Heavy-duty anodized aluminum	- For use with MSA full-brim hard hats - Spring coil for fast loading of frame to helmet - Three visor resting positions - Locking device holds visor securely in the down position		

⚠ WARNING

MSA does not recommend V-Gard Metal Frames for use where electrical hazards, including but not limited to arc flash, could occur.

¹Standards requirements met by each V-Gard Frame/V-Gard Visor combination designated on each V-Gard Visor.

²Patent pending

V-Gard® Accessory System: Visors

V-GARD VISORS: GENERAL PURPOSE			
Markets: General industry, manufacturing, repair and maintenance, construction, oil and gas, forestry, shipbuilding, metalworking, automotive, mining		Standards¹: ANSI/ISEA Z87.1-2015; CSA Z94.3 and EN 166 (2C-1.2 MSA 1B); AS/NZS 1337 (except as noted)	
Applications: Chipping, splash, chiseling, drilling, grinding, machining, power fastening, sanding, sawing		Certification: Third-party by Intertek, INSPEC International Ltd., CSA International and SAI Global Ltd.	
		Min Order Qty: 10	
Part No.	Product Specifics		
	Impact-rated (Z87+) with Maximum UV Protection		
10144486 	Material Polycarbonate — clear	• 5" (14.61 cm) x 17" (43.2 cm) x .04" (1.02 mm) • Contoured visor; closer fit and improved resistance to impact and splash hazards • Approved to ANSI and CSA² standards; does not meet EN standards ■ Nitrometer; for use with V-Gard Retractable or Standard Chin Protectors	
10115836  	Material Polycarbonate — clear	• 8" (20.3 cm) x 17" (43.2 cm) x .04" (1.02 mm) • Contoured visor; closer fit and improved resistance to impact and splash hazards	
10115837  	Material Polycarbonate — clear	• 8" (20.3 cm) x 17" (43.2 cm) x .04" (1.02 mm) • Contoured visor; closer fit and improved resistance to impact and splash hazards ■ Nitrometer; for use with V-Gard Retractable or Standard Chin Protectors	
10120108 	Material Polycarbonate — clear	• 8" (20.3 cm) x 17" (43.2 cm) x .04" (1.02 mm) • Bulk pack of 20 • Contoured visor; closer fit and improved resistance to impact and splash hazards	
10115863  	Material Polycarbonate — clear	• 9.5" (24.1 cm) x 17" (43.2 cm) x .04" (1.02 mm) • Contoured visor; closer fit and improved resistance to impact and splash hazards	
10115839  	Material Polycarbonate with antifog/anti-scratch coatings for humid conditions — clear	• 8" (20.3 cm) x 17" (43.2 cm) x .06" (1.52 mm) • Slightly thicker for industrial impact applications resistance to impact and splash hazards • Contoured visor; closer fit and improved resistance to impact and splash hazards	
10115841  	Material Polycarbonate with antifog/anti-scratch coatings for humid conditions — clear	• 8" (20.3 cm) x 17" (43.2 cm) x .06" (1.52 mm) • Slightly thicker for industrial impact applications resistance to impact and splash hazards • Contoured visor; closer fit and improved resistance to impact and splash hazards ■ Nitrometer; for use with V-Gard Retractable or Standard Chin Protectors	
10115842  	Material Polycarbonate with antifog/anti-scratch coatings for humid conditions — green tint to reduce glare	• 8" (20.3 cm) x 17" (43.2 cm) x .06" (1.52 mm) • Slightly thicker for industrial impact applications resistance to impact and splash hazards • Contoured visor; closer fit and improved resistance to impact and splash hazards ◆ Not for use where a Shade infrared (IR) visor is required	

¹Standards requirements met by each V-Gard Frame or Headgear/V-Gard Visor combination designated on each V-Gard Visor.

V-Gard® Accessory System: Visors

V-GARD VISORS: GENERAL PURPOSE			
Markets: General industry, manufacturing, repair and maintenance, construction, oil and gas, forestry, shipbuilding, metalworking, automotive, mining		Standards¹: ANSI/ISEA Z87.1-2015; CSA Z94.3 and EN 166 (2C-1.2 MSA 1B); AS/NZS 1337 (except as noted)	
Applications: Chipping, splash, chiseling, drilling, grinding, machining, power fastening, sanding, sawing		Certification: Third-party by Intertek, INSPEC International Ltd., CSA International and SAI Global Ltd.	
		Min Order Qty: 10	
Part No.	Product Specifics		
Impact-rated (Z87+) with Maximum UV Protection			
10115840 	Material Polycarbonate — clear	• 8" (20.3 cm) x 17" (43.2 cm) x .06" (1.52 mm) • Slightly thicker for industrial impact applications resistance to impact and splash hazards • Contoured visor; closer fit and improved resistance to impact and splash hazards	
10117783 	Material Polycarbonate — clear	• 8" (20.3 cm) x 17" (43.2 cm) x .06" (1.52 mm) • Slightly thicker for industrial impact applications resistance to impact and splash hazards • Wider design; improved resistance to impact and splash hazards • Does not meet CSA Z94.3 ■ Flat Nitrometer; for use with V-Gard Retractable or Standard Chin Protectors	

V-GARD VISORS: GENERAL PURPOSE (NON-IMPACT)			
Markets: General industry, manufacturing, repair and maintenance, construction, oil and gas, forestry, shipbuilding, metalworking, automotive, mining		Standards¹: ANSI/ISEA Z87.1-2015; EN 1731-F; and AS/NZS 1337	
Applications: Flying chips and other light debris		Certification: Third-party by Intertek, INSPEC International Ltd., and SAI Global Ltd.	
		Min Order Qty: 10	
Part No.	Product Specifics		
	General Protector (Z87) — NOT FOR IMPACT HAZARDS		
10116557	Material Epoxy-coated steel mesh (20 x 20) — black, plastic edged	• 8" (20.3 cm) x 17" (43.2 cm) • Not for use against splash, impact, elevated temperatures or UV hazards • Can be worn with earmuffs	
10116558	Material Epoxy-coated steel mesh (20 x 20) — black, plastic edged	• 8" (20.3 cm) x 17" (43.2 cm) • Not for use against splash, impact, elevated temperatures or UV hazards • Can be worn with earmuffs ■ Nitrometer; for use with V-Gard Retractable or Standard Chin Protectors	
10158822	Material Epoxy-coated steel mesh (20 x 20) — aluminum-bound mesh	• 8" (20.3 cm) x 16.5" (41.9 cm) • Not for use against splash, impact, electrical or UV hazards	

¹Standards requirements met by each V-Gard Frame or Headgear/V-Gard Visor combination designated on each V-Gard Visor.

V-Gard® Accessory System: Visors

V-GARD VISORS: HEAVY-DUTY CHEMICAL AND SPLASH

Markets: General industry, heavy manufacturing, laboratories, chem/petrochemical, agriculture, pharmaceutical, oil and gas, mining
Applications: Chipping, splash, chemical mixing, grinding, machining, power fastening, sanding, sawing

Standards: ANSI/ISEA Z87.1-2015; EN 166 (MSA 1B 3); CSA Z94.3 and AS/NZS 1337
Certification: Third-party by Intertek, INSPEC International Ltd., CSA International and SAI Global Ltd.
Min Order Qty: 5

Part No.	Product Specifics		
	Impact-rated (Z87+)		
10115855 	Material Propionate — clear	• 8" (20.3 cm) x 17" (43.2 cm) x .098" (2.5mm) • Extra-thick to help prevent warping, cracking or crazing under tough conditions • Please refer to MSA's <i>Chemical Application Quick Reference Guide</i> (ID 0670-007-MC) for chemical performance details	
10115856 	Material Propionate — clear	• 8" (20.3 cm) x 17" (43.2 cm) x .098" (2.5mm) • Extra-thick to help prevent warping, cracking or crazing under tough conditions ■ Nitrometer; for use with V-Gard Retractable or Standard Chin Protectors • Please refer to MSA's <i>Chemical Application Quick Reference Guide</i> (ID 0670-007-MC) for chemical performance details	
10115851 	Material Propionate — clear	• 9.25" (23.5 cm) x 18" (45.7 cm) x .098" (2.5mm) • Extra-thick to help prevent warping, cracking or crazing under tough conditions • Extended length and width for greater coverage of neck and face • Please refer to MSA's <i>Chemical Application Quick Reference Guide</i> (ID 0670-007-MC) for chemical performance details	

NOTE: V-Gard propionate Visors offer both chemical resistance and impact protection, unlike most propionate visors on the market. Not only are they marked with Z87+, but the clear visors are also compliant with EN166, meaning they were tested at a velocity nearly 32% faster than ANSI/ISEA Z87.1-2010.

V-GARD VISORS: ELEVATED TEMPERATURE WITH HIGH-PERFORMANCE ANTI-FOG/ANTI-SCRATCH COATINGS

Markets: Food manufacturing/canneries, steel mills, construction, open-pit mining, agriculture, oil/gas/petrochemical refineries, rubber manufacturing, steam tunnels
Applications: Hot/humid conditions, chipping, splash, chiseling, drilling, grinding, machining, power fastening, sanding, sawing, outdoor work

Standards: ANSI/ISEA Z87.1-2015; EN 166 (2C-1.2 MSA 1BT9KN); CSA Z94.3 and AS/NZS 1337
Certification: Third-party by Intertek, INSPEC International Ltd., CSA International and SAI Global Ltd.
Min Order Qty: 5

Part No.	Product Specifics		
	Impact-rated (Z87+) with Maximum UV Protection		
10115853 	Material Polycarbonate with EN 166 performance-rated anti-fog/anti-scratch coatings for hot/humid conditions (N,K marks, respectively) — clear	• 10.375" (26.4 cm) x 17" (43.2 cm) x .098" (2.5 mm) • Molded visor for superior optics under heavy-duty use • Extended length for greater coverage of neck/face • Performs well against many chemicals. Refer to MSA's <i>Chemical Application Quick Reference Guide</i> (ID 0670-007-MC) for details	
10115854 	Material Polycarbonate with EN 166 performance-rated anti-fog/anti-scratch coatings for hot/humid conditions (N,K marks, respectively) — green tint to reduce glare	• 10.375" (26.4 cm) x 17" (43.2 cm) x .098" (2.5 mm) • Molded visor for superior optics under heavy-duty use • Extended length for greater coverage of neck/face ◆ Not for use where a Shade Infrared (IR) visor is required	

NOTE: V-Gard molded, green and clear visors offer superior optical quality and resistance to many chemicals. For details on optics, please refer to the MSA White Paper, "Optical Quality Requirements and V-Gard® Visors" (ID 0302-32 MC) available for download from MSA's Asset Library.

¹Standards requirements met by each V-Gard Frame or Headgear/V-Gard Visor combination designated on each V-Gard Visor.

V-Gard® Accessory System: Visors

V-GARD VISORS: ELEVATED TEMPERATURE

Markets:

Food manufacturing/canneries, steel mills, construction, open pit mining, agriculture, oil/gas/petrochemical refineries, rubber manufacturing, steam tunnels

Applications:

Food processing, machine operation, maintenance, millwright, cutting, punching, extrusion, drilling, blasting, casting/conveying, chemical mixing, sanding

Standards¹:

ANSI/ISEA Z87.1-2015; EN 166 (2C-1.2 MSA 1BT89KN); CSA Z94.3 and AS/NZS 1337

Certification:

Third-party by Intertek, INSPEC International Ltd., CSA International and SAI Global Ltd.

5

Part No.	Product Specifics		
	Impact-rated (Z87+) with Maximum UV Protection		
10115844  	Material Polycarbonate with EN 166 performance-rated anti-fog/anti-scratch coatings for hot/humid conditions (N,K marks, respectively) — clear	• 9.25" (23.5 cm) x 17" (43.2 cm) x .098" (2.5mm) • Molded visor for superior optics under heavy-duty use • Extra-thick visor helps prevent warping, cracking or crazing • Conditioned to a high of 131 ° F (and a low of -23 ° F) and then tested to the medium impact rating in the EN166 standard (higher impact speed than ANSI/ISEA Z87.1-2010) ◆ Visors do not reflect IR; not recommended for use against radiant heat hazards	
10115845  	Material Polycarbonate with EN 166 performance-rated anti-fog/anti-scratch coatings for hot/humid conditions (N,K marks, respectively) — green tint to reduce glare	• 9.25" (23.5 cm) x 17" (43.2 cm) x .098" (2.5mm) • Molded visor for superior optics under heavy-duty use • Extra-thick visor helps prevent warping, cracking or crazing • Conditioned to a high of 131 ° F (and a low of -23 ° F) and then tested to the medium impact rating in the EN166 standard (higher impact speed than ANSI/ISEA Z87.1-2010) ◆ Visors do not reflect IR; not recommended for use against radiant heat hazards ◆ Not for use where a Shade infrared (IR) visor is required	

NOTE: V-Gard molded, green and clear visors offer superior optical quality and resistance to many chemicals. For details on optics, please refer to the MSA White Paper, “Optical Quality Requirements and V-Gard® Visors” (ID 0302-32 MC) available for download from MSA’s Asset Library.

V-GARD VISORS: RADIANT HEAT/ELEVATED TEMPERATURE			
Markets: Metal industries, glass manufacturing, iron and steel foundries, chemical manufacturing, construction, general manufacturing, textile manufacturing, mining, oil and gas		Standards¹: ANSI/ISEA Z87.1-2015; EN 166 (2C-2.5 MSA 1BT3R [clear] and 2-4 MSA 1BT3R [green tint]); CSA Z94.3 and AS/NZS 1337	
Applications: Grinding, pouring, casting, blowing/melting, rolling, sawing, cutting, crimping, millwrighting, machining/operating, pipelining, pulping		Certification: Third-party by Intertek, INSPEC International Ltd., CSA International and SAI Global Ltd.	
		Min Order Qty: 5	
Part No.	Product Specifics		
	Impact-rated (Z87+) with Maximum UV Protection		
10115848	Material Polycarbonate with EN 166 performance-rated anti-fog/anti-scratch coatings for hot/humid conditions (N,K marks, respectively) — clear	• 9.5" (24.1 cm) x 17.75" (45.09 cm) x .07" (1.8 mm) • Reflective coating reflects IR and helps dissipate heat: reflects >60% Infrared (IR) radiation (EN166 R mark) in the 780nm to 2000nm wavelength • Thick visor helps prevent warping, cracking or crazing • Extended length for greater coverage of face and neck; DO NOT use for welding	
10115850	Material Polycarbonate with EN 166 performance-rated anti-fog/anti-scratch coatings for hot/humid conditions (N,K marks, respectively)— green tint to reduce glare	• 9.5" (24.1 cm) x 17.75" (45.09 cm) x .07" (1.8 mm) • Reflective coating reflects IR and helps dissipate heat: reflects >60% Infrared (IR) radiation (EN166 R mark) in the 780nm to 2000nm wavelength • Thick visor helps prevent warping, cracking or crazing • Extended length for greater coverage of face and neck; DO NOT use for welding ◆ Not for use where a Shade infrared (IR) visor is required	
NOTE: Reflective-coated visors offer protection from irradiance, or the electromagnetic radiation (EMR) energy created in elevated temperature environments. V-Gard Reflective Coated Visors offer an EN166 “R” mark. This means they have been certified to reflect >60% Infrared (IR) radiation in the 780 nm to 2000 nm wavelengths. V-Gard Reflective Visors have been shown to reduce temperatures behind the visor by several hundred degrees, and lower irradiance to below 0.1 kW/m². For details on V-Gard Reflective-Coated Visor performance, please see the MSA White Paper, “Radiant Heat Resistance” (ID 0670-020 MC) and “MSA V-Gard® Reflective-Coated Visors: Radiant Heat Resistance Simplified” (ID 0670-023 MC), available on MSAafety.com.			

¹Standards requirements met by each V-Gard Frame or Headgear/V-Gard Visor combination designated on each V-Gard Visor.

V-Gard® Accessory System: Visors

V-GARD VISORS: WELDING (SHADE 3, SHADE 5, AND SHADE 8)

Markets: Fabrication, steel mills, shipbuilding, construction, open-pit mining, agriculture, oil/gas/petrochemical refineries, rubber manufacturing

Applications: Welding, metal pouring, gas soldering, light cutting/brazing, manufacturing, impact and debris

Min Order Qty: 5

Part No.	Product Specifics			
	Impact-rated (Z87+)			
10115859 	Material Polycarbonate — Shade 3 IR	Standards¹ • ANSI/ISEA Z87.1 • CSA Z94.3 • EN 166 • AS/NZS 1337	• 8" (20.3 cm) x 17" (43.2 cm) x .07" (1.8 mm) • Thickness helps prevent pitting and warping from heat or weld spatter	
10115860 	Material Polycarbonate — Shade 3 IR	Standards¹ • ANSI/ISEA Z87.1 • CSA Z94.3 • EN 166 • AS/NZS 1337	• 8" (20.3 cm) x 17" (43.2 cm) x .07" (1.8 mm) • Thickness helps prevent pitting and warping from heat or weld spatter ■ Nitrometer; for use with V-Gard Retractable or Standard Chin Protectors	
10115861 	Material Polycarbonate — Shade 5 IR	Standards¹ • ANSI/ISEA Z87.1 • CSA Z94.3 • EN 166 • AS/NZS 1337	• 8" (20.3 cm) x 17" (43.2 cm) x .07" (1.8 mm) • Thickness helps prevent pitting and warping from heat or weld spatter	
10115862 	Material Polycarbonate — Shade 5 IR	Standards¹ • ANSI/ISEA Z87.1 • CSA Z94.3 • EN 166 • AS/NZS 1337	• 8" (20.3 cm) x 17" (43.2 cm) x .07" (1.8 mm) • Thickness helps prevent pitting and warping from heat or weld spatter ■ Nitrometer; for use with V-Gard Retractable or Standard Chin Protectors	
10236001 	Material Polycarbonate — Shade 8 IR	Standards¹ • ANSI/ISEA Z87.1 • CSA Z94.3	• 8" (20.3 cm) x 17" (43.2 cm) x .07" (1.8 mm) • For welding, cutting and brazing applications • Thick and molded to protect against damage from impact, elevated temperatures, weld spatter and infrared (IR) radiation. • Ideal for autogenous welding, metal pouring, gas soldering and light cutting/brazing, they're engineered for heavy-duty use.	
10246714 	Material Polycarbonate — Shade 10 IR	Standards¹ • ANSI/ISEA Z87.1 • CSA Z94.3	• 8" (20.3 cm) x 17" (43.2 cm) x .07" (1.8 mm) • For welding, cutting and brazing applications • Thick and molded to protect against damage from impact, elevated temperatures, weld spatter and infrared (IR) radiation. • Ideal for autogenous welding, metal pouring, gas soldering and light cutting/brazing, they're engineered for heavy-duty use.	
10246715 	Material Polycarbonate — Shade 12 IR	Standards¹ • ANSI/ISEA Z87.1 • CSA Z94.3	• 8" (20.3 cm) x 17" (43.2 cm) x .07" (1.8 mm) • For welding, cutting and brazing applications • Thick and molded to protect against damage from impact, elevated temperatures, weld spatter and infrared (IR) radiation. • Ideal for autogenous welding, metal pouring, gas soldering and light cutting/brazing, they're engineered for heavy-duty use.	
10246716 	Material Polycarbonate — Shade 14 IR	Standards¹ • ANSI/ISEA Z87.1 • CSA Z94.3	• 8" (20.3 cm) x 17" (43.2 cm) x .07" (1.8 mm) • For welding, cutting and brazing applications • Thick and molded to protect against damage from impact, elevated temperatures, weld spatter and infrared (IR) radiation. • Ideal for autogenous welding, metal pouring, gas soldering and light cutting/brazing, they're engineered for heavy-duty use.

V-Gard® Accessory System: Visors

V-GARD VISORS: ARC FLASH APPLICATION ²			
Markets: Manufacturing, utilities, construction, oil/gas/ petrochemical		Standards¹: ANSI/ISEA Z87.1-2015; ASTM F2178-2008 (Ref: NFPA 70E, HRC 2)	
Applications: Maintenance, impact and debris, testing/repair		Certification: Third-party by Intertek and ArcWear	
		Min Order Qty: 5	
Part No.	Product Specifics		
	Impact-rated (Z87+)		
10115847	Material Polycarbonate — special tint, gray-blue visor; molded	• 9.25" (23.5 cm) x 18" (45.7 cm) x .065" (1.7 cm) • Extended length and width for greater coverage of face and neck • Rated to 16.0 cal/cm² when tested to ASTM F2178-2008 (ref. NFPA 70E-2015 PPE Category 2), and when worn with a V-Gard Hard Hat (PN 475358) and V-Gard Frame (PN 10115730) <i>Call MSA Customer Service (800-MSA-2222) for protection levels when using this V-Gard Arc Visor with other V-Gard Frames and MSA Helmet combinations</i>	
10118480	Material Polycarbonate — special tint, gray-blue visor; molded (for use with designated V-Gard Chin Protector)	Arc Visor Kit —consists of Visor (PN 10115858) + Chin Protector (PN 10115827) • 8" (20.3 cm) x 17.25" (43.8 cm) x .065" (1.7 cm) • Extended length and width for greater coverage of face and neck • Rated to 21.0 cal/cm² when tested to ASTM F2178-2008 (ref. NFPA 70E-2015 PPE Category 2), and when worn with a V-Gard Hard Hat (PN 475369) and V-Gard Frame (PN 10116627) and V-Gard Standard Chin Protector (PN/10115827) <i>Call MSA Customer Service (800-MSA-2222) for protection levels when using this V-Gard Arc Visor with other V-Gard Frames and MSA Helmet combinations</i>	

¹Standards requirements met by each V-Gard Frame or Headgear/V-Gard Visor combination designated on each V-Gard Visor.

²Do not use V-Gard Arc Visors with V-Gard Headgear. These visors are designated for use with specified V-Gard Frames and MSA helmets ONLY. See "V-Gard Headgear" for additional details.

V-Gard® Accessory System: V-Gard® Chin Protectors¹

Work with select V-Gard Nitrometer Visors to provide extra protection from impact and splash hazards to face and neck.

V-GARD CHIN PROTECTORS				
Part No.	Product Name	Material	Product Specifics	
10115828 	Retractable Chin Protector	Polycarbonate – opaque (ensures safety and standards compliance with clear, tinted, shaded and coated V-Gard Visors)	• 3.82" (9.7 cm) in height, when unretracted • Unique retractable plates allow greater flexibility of head movement both up and down, as well as side-to-side • Minimum order quantity: 5	
10149029 	Chin Protector	Polycarbonate – clear (for improved visibility)	• 2.86" (7.26 cm) in height • Compact, lightweight design provides additional protection between chin and neck area • Should not be worn with tinted, arc or shaded nitrometer visors to ensure compliance with stated Standards markings/requirements • Minimum order quantity: 5	
10115827	Standard Chin Protector	Polycarbonate – opaque (ensures safety and standards compliance with clear, tinted, shaded and coated V-Gard Visors)	• 2.86" (7.26 cm) in height • Compact, lightweight design provides additional protection between chin and neck area • Minimum order quantity: 5	

V-Gard® Accessory System: Replacement Parts²

V-GARD ACCESSORY SYSTEM REPLACEMENT PARTS			
Part No.	Product Name	Product Specifics	
10117496	Cap Frame Replacement Slot Adapters	• For use with V-Gard Frames for Slotted Caps • Sold in boxes of 5 (5 packages of 1 pair)	  
10225804	Hat Frame Replacement Slot Adapters	• For use with V-Gard Frames for Slotted Hats • Sold in boxes of 5 (5 packages of 1 pair) • Hat Frame Replacement Slot Adapter is marked with an "H" (see inset image)	
10116539	Debris Control for V-Gard Frames	• Debris control exceeds EN requirements for molten metal • All-rubber construction • Minimum order quantity: 10	
10117495	Heavy-duty Rubber Strap	• For V-Gard Universal Cap or Hat Frames • Minimum order quantity: 10	

¹ MSA V-Gard Chin Protectors meet the applicable safety requirements as noted on the V-Gard Nitrometer Visor when worn in conjunction with V-Gard Frames and V-Gard Nitrometer Visors.

² Use only genuine MSA V-Gard Accessory System replacement parts to help ensure compatibility and compliance. MSA does not warrant, guarantee, or promote the use of components manufactured by other companies when used in conjunction with MSA products.

V-Gard® Accessory System: V-Gard® Headgear

V-Gard Headgear can be used for face protection when head protection is not required. V-Gard Headgear is available in two versions: General Purpose and Elevated Temperature (Extended). V-Gard Headgear are designed and approved for use with V-Gard Visors.¹

V-GARD HEADGEAR			
Markets: General industry, manufacturing, repair and maintenance, construction, oil and gas, forestry, shipbuilding, metalworking, automotive, mining, chemical industries Applications: Chipping, splash, chiseling, drilling, grinding, machining, power fastening, sanding, sawing, laboratory		Size: Standard (6½ – 8) Standards²: ANSI/ISEA Z87.1-2015; EN 166; CSA Z94.3; and AS/NZS 1337 Certification: Third-party by Intertek, INSPEC International Ltd., CSA International and SAI Global Ltd.	
Part No.	Product Name	Product Specifics	
10127061 	V-Gard Headgear — General Purpose Material: High Density Polyethylene (HDE) – black	• Patent-pending, Infini-just lift/closure with grippable knobs that don't unscrew; no parts to lose • Ratchet closure • Seven-point crown adjustment • Replaceable, sweat-wicking, cushioned headband helps keep workers dry and cool • Sweat-wicking ratchet cover keeps nape comfortable • For use ONLY with V-Gard Visors; not for use where head protection is required • All non-metal construction • Minimum order quantity: 10	
10127062 	V-Gard Headgear — Elevated Temperature Material: Heat-resistant nylon — gray	• Extended browguard for additional coverage in high temperatures • Tested to withstand temperatures up to 400 ° F³ • Patent-pending, Infini-just lift/closure with grippable knobs that don't unscrew; no parts to lose • Ratchet closure • Seven-point crown adjustment • Replaceable, sweat-wicking, cushioned headband helps keep workers dry and cool • Sweat-wicking ratchet cover keeps nape comfortable • For use ONLY with V-Gard Visors; not for use where head protection is required • All non-metal construction • Minimum order quantity: 5	
10127063	V-Gard Headgear Kit — General Purpose	Kit Contains: • V-Gard General Purpose Headgear (PN 10127061) • V-Gard Clear, PC Visor, 8" (20.3 cm) x 17" (43.2 cm) x .04" (1.02 mm) (PN 10115836)	
10127065	V-Gard Headgear Replacement Sweatband⁴	• Sweat-wicking material over breathable foam helps keep workers cool, dry and comfortable • Hook & loop closure makes replacement easy • Tested to the FR requirements in CSA Z94.3-07 • Sold in boxes of 25 (5 packages of 5)	

¹**DO NOT** use V-Gard Headgear with V-Gard Arc Visors tested to ASTM F2178-2008 Test Method (ref. NFPA 70E-2012, Hazard Risk Category). These visors are designated for use with specified V-Gard Frames and MSA helmet ONLY as face protection for workers exposed to high voltage electric arcs. V-Gard Headgear has not been tested or certified to the Test Method, and should not be used for this type of Arc Flash protection.

²Standards requirements met by each V-Gard Frame or Headgear/V-Gard Visor combination designated on each V-Gard Visor.

³Exposure to extreme heat can cause thermal discomfort. Proper precautions should be taken to prevent heat stress and other injuries.

⁴Use only genuine MSA V-Gard Headgear replacement parts to help ensure compatibility and compliance. MSA does not warrant, guarantee or promote the use of components manufactured by other companies when used in conjunction with MSA products.

V-Gard® Accessory System: Kits

V-GARD ACCESSORY SYSTEM KITS			
Part No.	Product Name	Product Specifics	
10118695	V-Gard Accessory System Kit — with V-Gard Cap-Style Hard Hat	Kit Contains: • White V-Gard Cap with ratchet suspension (PN 475358) • V-Gard Frame for Slotted Caps; with debris control (PN 10115730) • V-Gard Clear, Polycarbonate Visor, 8" (20.3 cm) x 17" (43.2 cm) x .04" (1.02 mm) (PN 10115836)	
10118697	V-Gard Accessory System Kit — without V-Gard Cap-Style Hard Hat	Kit Contains: • V-Gard Universal Frame for Caps with debris control (PN 10115822) • V-Gard Clear, Polycarbonate Visor, 8" (20.3 cm) x 17" (43.2 cm) x .04" (1.02 mm) (PN 10115836) ► Does not contain an MSA safety helmet.	
10118694	V-Gard Forestry Kit	Kit Contains: • Hi-Viz orange V-Gard Cap with ratchet suspension (PN 488146) • V-Gard Frame for Slotted Caps; with debris control (PN 10115730) • V-Gard Mesh Nitrometer (PN 10116558) • V-Gard Retractable Chin Protector (PN 10115828) • Left/RIGHT, HIGH (NRR 28 db) Cap-Mounted Earmuffs (PN 10087422)	
10118696 ¹	V-Gard Accessory Arc Kit	Kit Contains: • White V-Gard Cap with ratchet suspension (PN 475358) • V-Gard Frame for Slotted Caps (PN 10121266) • V-Gard Arc Nitrometer with V-Gard Standard Chin Protector (PN 10118480); must be assembled by user prior to wearing to secure stated calorie rating. • Rated to 11.3 cal/cm² when tested to ASTM F2178-2008 (ref. NFPA 70E-2012, Hazard Risk Category 2), and when worn with a V-Gard Cap (PN 475358), V-Gard Frame (PN 10121266) and V-Gard Standard Chin Protector (PN 10115827)	

¹ Call MSA Customer Service (800-MSA-2222) for protection levels when using this V-Gard Arc Visor with other V-Gard Frames, V-Gard Chin Protectors and MSA Helmet combinations.

Hard Hat Accessories

V-Gard® Winter Liners

V-Gard Winter Liners deliver extra warmth and protection under hard hats.

V-GARD WINTER LINERS			
Part No.	Product Name	Product Specifics	
10118417 	V-Gard Winter Liner, Knit Cap	- Stylish skullie cap - Design prevents liner from obstructing vision 100% high bulk acrylic Sold in sets of 12	
10118418	V-Gard Winter Liner, Knit Hat/Cap Cover	100% acrylic - Bright yellow-green for greater visibility - Full face tube mounts under or over brim of MSA caps or hats, covering ears, mouth, cheeks and neck - Extended nape and wraparound collar for tucking into coat/shirt Sold in sets of 12	
10118427 	V-Gard Supreme Liner, Flame-Resistant 2-piece 	- Fabric tested to withstand arc exposure to an ATPV of 8 cal/cm² - Water repellant - Inside neck pocket holds warming packet² - Multi-layered flame-resistant top cap - Extended, zipper on/off high-bulk flame-resistant knit bottom - No metal parts Sold in sets of 3	
Note: Flame resistant (FR) liner is made of special fibers that allow it to self-extinguish when exposed to flame or thermal ignition. Flame resistance cannot be removed by washing. Unlike many other winter liners in the market, ALL layers of fabric in V-Gard Supreme Liner are flame-resistant, affording FR protection throughout the life of the product. ³ For this reason, only V-Gard Supreme Liner offers resistance to arc exposure.			

¹ Follow all instructions and perform daily, pre-, and post-use inspections.

² Warming packets available at most sporting goods retailers; not sold with liners.

³ Garment care instructions must be followed.

Industrial Hearing Protection and Communication Systems

MSA has hearing protection products for nearly every industrial application. In fact, MSA offers what customers want most: economical options, cutting-edge technology, quality and outstanding performance.

V-Gard® Helmet-Mounted Hearing Protection

Superior Performance

- Offers the highest attenuation for a cap-mounted earmuff on the market.
- Custom MSA sealing rings allow for optimal NRR performance.
- Works with slotted MSA industrial cap-style hard hats.
- Works with existing MSA visors and frames for seamless integration into your safety program.

Enhanced Comfort and Fit

- Improved sealing ring and adapters optimize pressure on the ears for all-day comfort.
- Foam-injected ear pads cushion the outer ears to allow for soft points of contact.
- Vertical adjustment allows for custom fit.
- Recessed interior foam does not touch user's ear while in use.
- When not in use, earmuffs may be stowed in "parking" position, ready for when you need them.

Modern Style

- Includes the next generation "V" design from the iconic V-Gard.
- Incorporates red, yellow, and green color-coding on the backplate and front logo to easily identify level of attenuation.
- Upgraded fork design provides a sleek look and modernized feel.
- Matte material for both cup and ear pads decreases look of wear and tear.

¹ https://www.osha.gov/dts/osta/otm/noise/hcp/attenuation_estimation.html

DID YOU HEAR?

The **Noise Reduction Rating (NRR)** describes the average sound level reduction (“attenuation”) provided by hearing protectors in a laboratory setting. Because the NRR reflects lab (and perhaps not real-world) usage, the Occupational Safety and Health Administration (OSHA), recommends “de-rating” the NRR to help account for incorrect fit and inconsistent wear time on worksites. OSHA’s methodology for Estimating Hearing Protector Attenuation¹:

1. 8-hour Time Weighted Exposure (TWA) = 94 dBA
2. NRR of hearing protector = 31 dBA
3. Subtract 7 dB from the NRR = 31 dB – 7 dB is 24 dB
4. Reduce value by 50% = 12 dB
5. Subtract this value from the TWA = 82 dB (Estimated Protection)
6. Decide if the Estimated Protection works for your environment!

SoundControl® Classic Helmet-Mounted Hearing Protection

Markets: General industry, manufacturing, repair and maintenance, construction, oil and gas, forestry, shipbuilding, mining

Applications: High-noise environments, industrial plants, construction sites

Standards: Meets ANSI S3.19-1974 and CSA Class A Standards

Compatible PPE:

- V-Gard Slotted and Universal Frames—no additional parts needed
- Most V-Gard Visors
- MSA hard hats, as indicated in chart below

SOUNDCONTROL CLASSIC HELMET-MOUNTED HEARING PROTECTION

				
PRODUCT NAME	Sound Blocker™ 26	Soprano™	SoundControl SH	Hygiene Kit
PART NO.	10022021	10034487	10129327	10003360
PRODUCT SPECIFICS	For use with MSA non-slotted cap-style hard hats • Requires drilling into the helmet to mount the muffs • The ANSI/ISEA Z89.1 class rating of a drilled helmet is Class C	For use with MSA non-slotted full-brim hard hats • Requires drilling into the helmet to mount the muffs • The ANSI/ISEA Z89.1 class rating of a drilled helmet is Class C	For use with MSA slotted full-brim hard hats	• Foam cushions and inserts • Works with Sound Blocker 26 and SoundControl SH hearing protection

DID YOU HEAR?

The **EPA requirement (40 CFR 211)** specifies that hearing protectors sold in the U.S. must be tested to ANSI S3.19-1974 and labeled with a Noise Reduction Rating (NRR). MSA Hearing Protectors have been tested and labeled according to the EPA requirements. Standards organizations, such as ANSI and CSA, do not approve or certify hearing protectors.

Headbands: left/RIGHT™ Hearing Protection

Markets: General industry, manufacturing, repair and maintenance, construction, OGP, forestry, shipbuilding, mining

Applications:

- Heavy mechanical industries, compression rooms, airports (**HIGH**)
- Utilities, construction, general industry (**MEDIUM**)
- Food manufacturing, automotive, light industry (**LOW**)

Standards: Meets ANSI S3.19-1974 and CSA Class A Standards

left/RIGHT HEARING PROTECTION

			
PRODUCT NAME	left/RIGHT (HIGH)	left/RIGHT (MEDIUM)	left/RIGHT (LOW)
PART NO.	 10087399	 10087426	10087436

PART NO.	10092880	10092879	10092878
PRODUCT SPECIFICS	• Cushions and inserts • Work with left/RIGHT helmet-mounted or headband products		

DID YOU HEAR?

The **attenuation of an earmuff depends on the fit** of the muff against the head and around the pinnae (i.e., the “tightness” of the seal). Gaps, including those caused by safety glasses, provide an easy path for sound to travel, reducing protection levels. To reduce this effect, try not to put anything under the cup (such as pencils, hair, etc.). But, if you must wear protective eyewear, select either those with a thin strap or a very thin temple. If the gap is noticeable, the protection level is compromised.

Headbands: SoundControl® Classic Hearing Protection

Markets: General industry, manufacturing, repair and maintenance, construction, oil and gas, forestry, shipbuilding, mining Applications: Confined space, sanding/grinding, power tool use, occupations with non-impulse noise, demolition, assembly Standards: Meet ANSI S3.19-1974 and CSA Class A Standards

DID YOU KNOW?

A common misconception is that all polycarbonate blocks UV. This is not the case. Under ANSI/ISEA Z87.1-2015 there is a required marking if the manufacturer claims protection from UV. Look for eyewear that both meets ANSI/ISEA Z87.1-2015 and has a **U** mark.

10022087	Towelettes	• Pre-moistened • Box of 100	

Great Reasons to Choose MSA Cairns® Fire & Rescue Helmets

We've proudly manufactured fire helmets since 1836. And to this day for head protection, more first responders trust MSA Cairns Fire Helmets than any other. Here are just a few reasons why:

1 Shell Release System (SRS)

The MSA Cairns Shell Release System (SRS), offered in our most popular fire helmets, protects from impact and heat—even when your helmet is dislodged from your head.

With the SRS, if your helmet falls off due to a fall through a floor or roof, the impact cap separates from the helmet shell, but remains on your head, leaving your head better protected from additional impact, projectiles and heat. Without SRS, all you've got is a hood.

2 Retractable MSA Cairns Defender® Visor

North America's first (and still best) NFPA 1971 and ANSI/ISEA Z87.1 impact-rated, integral visor. The Defender Visor was designed with firefighters in mind. Entire visor stows when not in use, and can be deployed the instant it's needed—even with a gloved hand. Visor replacement does not require special tools or helmet disassembly. These benefits make the Defender Visor the best-selling firefighting eye protection on the market.

3 Best In Class

In a survey of firefighters across the nation¹, the majority listed MSA Cairns Helmets brand as best in class.¹ When you consider the combined effectiveness of our SRS, crumple-zone front holder, impact cap, and suspension—our fire helmets offer the most complete package available.

4 With MSA Cairns Helmets, You Get More than You Pay For: 10-Year Warranty

We know, as do firefighters, that MSA Cairns Helmets are the most durable offered. We back up that claim with a 10-year lifetime warranty that the product will be free from defects in materials and/or faulty workmanship². When you factor in quality, ease of maintenance and unique safety features found in ONLY MSA Cairns Helmets, it's easy to see why firefighters are loyal to the MSA Cairns Helmets brand.

5 Same Day Shipping on Our Most Popular Items

When you can't afford to wait another day, MSA offers our most popular Cairns Helmets products in our Stock-Order-Ship (SOS) program. For these products, if your order is entered by 2:30 PM (EST), the product ships the same day from our warehouse in Pittsburgh, PA. Look for the SOS symbol  beside products in the program. Remember, too, you can always order customized Cairns Fire Helmets through Assemble-to-Order (ATO). ATO forms are located on every fire helmet page on www.MSAafety.com

For complete information about Cairns Fire and Rescue Helmets, see Bulletin 3600-01-MC.

¹Fire helmet brand assessment study conducted by outside research firm for MSA.

²10-year warranty applies to MSA Cairns Helmets manufactured on or after January 1, 2015. For MSA Cairns Fire Helmet warranty details, please see www.MSAafety.com.

Cairns® XF1 Fire Helmet

The design of the National Fire Protection Association (NFPA) 1971- and 1951-compliant Cairns XF1 capitalizes on the expertise of firefighters who wear jet-style fire helmets, while blending in the needs of the North American firefighter.¹

Cairns® XF1

REDUCED SNAGS

The Cairns XF1 has been engineered as much for comfort and fit as safety. The most obvious feature is what it lacks—the XF1 is brimless. While untraditional, the lack of a brim makes it easier to crawl into tight spaces and retain your helmet.

EASY TO CLEAN

The Cairns XF1's modular design allows it to be quickly disassembled for thorough inspection, care and maintenance. Plus, the helmet's soft goods are removable, washable and replaceable—all without the use of tools.

PERSONALIZED FIT

Several easy-to-find adjustments can be made enabling the fire helmet fit to be customized to the individual. When it's all said and done, the XF1 doesn't just fit firefighters—it fits most of them comfortably.²

INTEGRATED VISOR

The optional integrated visor provides additional eye protection that is easy to deploy, clean, and replace. The internally-mounted communication headset snaps easily inside the helmet, providing incoming communication right to the ear, where it's needed most.

LIGHTING THE WAY

This compact light accessory is housed inside the helmet, reducing exposure to heat, flames, and impact. The strategic placement of LED lights on either side of the helmet improves visibility in dark conditions without detracting from others' vision.

CUSTOMIZED LOOK

The Cairns XF1 is available in four colors (black, white, yellow, and red), and two finishes (matte and glossy), so firefighters can choose a look that fits their style. Customized front plates in a variety of colors and custom printing are also available.

MSA offers a variety of integrated accessories designed to maximize available headroom while minimizing snag hazards.

LIGHT MODULE

COMMUNICATION HEADSET

CUSTOMIZED FRONT PLATE

INTEGRATED VISOR

¹Accessories are not certified to NFPA; however, their addition to the helmet does not affect NFPA compliance.

²This information based on Beta trial of 250 participants with various facepieces, including competitor SCBA.

For complete information about Cairns XF1 Fire Helmets, see Bulletin 3600-97-MC.

Cairns® XR2 Technical Rescue Helmet

MULTI-PURPOSE

Engineered helmet platform designed for technical rescue, wildland firefighting, climbing, and water rescue operations.

USER-FOCUSED DESIGN

All integrated and modular accessories are designed for easy attachment. "Glove-friendly" design of all accessories and helmet adjustment points for both right- and left-handed users.

EASY CLEANABILITY

Easy to remove one-piece textile soft-goods to support health and safety initiatives (see Cleaning Guidelines for details).

FULL MODULARITY

Modular platform with a range of easily attachable accessories: responder goggles, face protection, and hearing protection with integrated communication system.

MEETS MULTIPLE STANDARDS

Designed and tested to meet the latest NFPA and EN Standards for Technical Rescue, Wildland Firefighting (EN only), and Water Rescue.

CUSTOMIZABLE OPTIONS

Printing available for front plates to add custom logo or other designs. Multiple reflective trim and decal choices with custom printing options.

ACCESSORY INTEGRATION

Accessories designed for full integration: dual beam headlamp with tail light (Buddy light), adjustable internal visor, and water rescue ear protection.

UNMATCHED COMFORT

Compact design, lightweight materials, ride height adjustments, and integrated modular accessories all contribute to optimized weight distribution. Optional dual ventilation shell pattern on top and sides provides additional comfort. Innovative one-piece padding in soft goods to help reduce pressure points.

PERFORMANCE AND PROTECTION IN PERFECT BALANCE.

MSA's Globe® gear is designed to meet the new challenges you face every day to help keep you safe and healthy throughout your career.

Globe ATHLETIX™ Turnout Gear

- Material technology enables athletic design with unique stretch fabrics that allow close, body-contoured fit to provide, unprecedented range of motion with less bulk, more flexibility,, and lighter weight.
- PBI® stretch fabric with KEVLAR allows less bulky fit with, unprecedented range of motion and more flexibility, while providing , premium thermal break open protection.
- DUPONT™ NOMEX® NANO thermal barrier material is thinner, lighter, , more flexible, more breathable, and quicker drying.
- 3M™ SCOTCHLITE™ COMFORT TRIM reflective material is , segmented and heat sealed to be lighter, more flexible, and , breathable without sacrificing visibility.
- GORE-TEX CROSSTECH® BLACK moisture barrier provides the highest breathability in the widest range of environmental conditions, to reduce heat stress.
- Optional GLOBE GUARD™ SYSTEM helps reduce exposure , to toxic substances without impeding performance.

Get the full story on Globe ATHLETIX™ Turnout Gear and the full line of Globe gear at MSAfire.com/Globe

GLOBE®

ATHLETIC FOOTWEAR FOR FIREFIGHTERS.

With a unique cushioned and contoured sole and athletic footwear construction, Globe® boots are flexible like your feet, grip like no other, and feel broken in right out of the box.

Globe Boots

- Scientific studies have proven that lighter weight and more flexible footwear isn't just about comfort — it's about safety.
- HEELPORT™ Internal Fit System holds your heel securely so it won't slip while cushioning your ankle.
- VIBRAM® Contoured Cup Outsole wraps onto the leather upper for athletic shoe performance.
- Slip-Resistant Tread pattern designed for superior performance in all terrains and when working on ladders.
- Composite safety toe cap, puncture protection, and shank are lighter and far more flexible than steel and don't transmit heat or cold.
- Optional VIBRAM® ARCTIC GRIP PRO outsoles are available for even better slip resistance on wet ice.

OUR COMMITMENT TO YOU...
The MSA Fall Protection Promise

MSA promises to replace any MSA harness and/or textile lanyard FREE of charge if a user falls while properly using our product. If the fall occurs while using an MSA mechanical device, we will replace or re-certify the device FREE of charge. MSA believes that it is important to provide high quality products and recognize safe work practices.

Products should be returned with a signed copy of the accident report to:

Global Leaders in Fall Protection

Because we provide customized fall protection solutions all around the world with our range of Latchways® systems, MSA has a thorough understanding of any given country's safety concerns and needs. We have wide-ranging support, too, as our product leadership is backed by a worldwide network of highly trained registered installers and contractor companies.

And MSA is always thinking ahead—monitoring legislative developments around the world so that we can respond quickly with products and services designed to comply with new regulations without sacrificing productivity.

Simply put: MSA is fluent in the global language of fall protection.

No wonder our trusted systems and award-winning components can be found on structures as far away as Sydney's Harbour Bridge and as close by as Milwaukee's Miller Park Stadium.

Premium fall protection solutions tailored to your project needs

MSA is comprehensive in its care and concern for those working at height. Our versatile fall protection systems— from roof to tower—offer solutions for nearly every work environment. Our experience working with so many different industries, from aerospace to tourism, means we have thorough knowledge of the particular fall protection needs specific to a variety of applications.

So tell us what you're looking for. With our Latchways range of smartly engineered systems and best-quality products, you're in the hands of experts.

Commercial and Public Buildings

Imagine providing safe access without damaging roof integrity.

Latchways horizontal and inclined systems, with their Constant Force® Posts, do just that. We created systems like WalkSafe® to help further reduce wear and tear and LadderLatch™ to keep workers safe as they climb new heights.

Transmission Towers, Distribution and Telecommunications

From towers to masts to monopoles, Latchways vertical systems can be seen protecting workers on transmission towers and distribution and telecommunication structures all over the world—even those in the most icy, rainy conditions.

Bridges and Infrastructure

Each bridge and infrastructure project has different fall protection requirements. Latchways inclined, horizontal and vertical systems deliver unprecedented versatility, making it safe for workers to maintain cables, traverse bridge undersides, or safely access towers—no matter how harsh the conditions.

Industrial Manufacturing

From overhead systems for above machinery operation to permanently installed lifelines, to temporary SRLs for one-off maintenance jobs, Latchways brings safety solutions to virtually any industrial manufacturing project. Our systems can link together horizontally, vertically and up inclines, and can be retrofitted or included as part of a new build.

Oil and Gas

Our range of user-friendly safety solutions, from Latchways Self-Retracting Lifelines to Latchways Personal Rescue Device®, meet the demands of the oil and gas industry—and then some. With vertical, horizontal and inclined cable systems designed to follow complex contours found on rigs, pipe racks, gantries and more, we bring fall protection to the most severe environments.

Wind Energy

From wind farm owners to maintenance contractors to global turbine manufacturers, wind energy professionals rely on innovations like our Latchways Sealed Self-Retracting Lifeline for safety and our TowerLatch™ unit for uninterrupted ladder ascension.

Road and Rail

With time- and cost-saving options like Latchways Personal Rescue Device, Self-Retracting Lifeline and overhead cable systems, MSA keeps road and rail workers safe. Whether refurbishing stations, locomotives and loading trucks, or testing signals, you're on the right track with MSA.

Stadiums and Tourism

The inherent flexibility of MSA horizontal, vertical and incline systems means fall protection is available to virtually any structure—from sports arenas like the Manchester Stadium to tourist attractions like the Orlando Eye.

Aerospace

Working with aircraft engineers, MSA developed the easy-to-use Latchways WinGrip® system (for aircraft) to protect aerospace workers at height, without sacrificing productivity or quality. Among its many remarkable features, a WinGrip lifeline can span the length of any aircraft wing, allowing up to four workers access to all areas without ever disconnecting from the WinGrip lifeline. With the WinGrip AIO, flightline and hangar tasks become more efficient. Compact and lightweight, this self-contained vacuum anchor requires little setup or removal time. In addition, it's powered by a shop air supply or refillable gas cylinder that provides a minimum of six hours of stationary use. This is advanced technology at its best, able to perform in extreme hot or cold temperatures.

Elevating the Science of Fall Protection

Better science means better protection—it's that simple, really.

No wonder MSA has been putting its resources, energy and smarts into the most cutting-edge technologies and most inspired breakthroughs with the Latchways range of products. We combine innovative technologies, best-in-class materials and advanced design to take fall protection to great new heights. The result is precisely engineered systems and components built for exceptional safety. Latchways systems are smartly designed for simple integration into nearly every work environment, bringing confidence to workers at height.

Fall Protection Designed by Us. Just for You.

With our dedicated in-house Design and Specification Team offering a number of free-of-charge services, MSA can assist you with your fall protection requirements.

Design services—creating with your needs in mind

Design and Spec Service—MSA's team of experts works with your AutoCAD roof plans or Building Information Modeling (BIM) files building elevations and sections to produce a complete fall protection system plan—integrated into your working files.

Design Advice Service—Here, our Design and Spec team assesses your own drawings featuring a fall protection layout and then offers advice and recommendations where necessary.

Simply choose whichever service suits you best, and we will provide you with a full Work-at-Height proposal to fulfill all your needs, all your legislative requirements, all within 10 working days.

In-Person Consultation—On more unusual projects that present different kinds of design challenges, it is sometimes easier to talk things through face-to-face. If you would prefer an in-person meeting, MSA will have a member of our team, or a representative from our network of Registered Installers, visit your offices to further discuss your specific design needs.

Latchways® Horizontal Lifelines (HLL)

Latchways horizontal lifelines are known worldwide for their versatility and ease of use, making them the ideal choice for protecting workers as they go about day-to-day activities like maintenance, cleaning, inspection and more.

Easily customized for virtually any structure or unique requirement, MSA precisely engineered horizontal systems are built to work in all areas of industry, construction and maintenance. Installations include retail outlets, stadiums, transmission towers and industrial complexes—not to mention famous sites like New York's Grand Central Station, the Hong Kong Airport, and the Eden Project in Cornwall, home to the world's largest indoor rainforest.

Committed to bringing you the best in quality, versatility and satisfaction, MSA continues to work closely with major roofing manufacturers to produce a full range of fall protection systems for all designs and types of roofs.

Constant Force® Post Technology

In typical leadership fashion, MSA takes the science of Latchways Constant Force and applies it to the fall protection industry—providing an easy-to-install, reliable and cost-effective solution to rooftop safety.

Constant Force Explained

The principles of fall arrest are based on effective load control, meaning that a system must be able to withstand the force of a person's fall while absorbing the energy it generates. In the past, this was achieved by attaching the system to the structure of the building with the anchor point absorbing the load. This inherently caused difficulties for designers and installers, since the system location was determined by the structural elements of the building. System installation, meanwhile, was time consuming because anchors had to be fixed above and below, often creating issues regarding warranties, leakage and cold bridging.

The MSA Solution

Latchways Constant Force Post (CFP) does not need to be fixed to the building structure but instead top-fixes to the roof, therefore simplifying installation, saving time and protecting structures from compromise. With Constant Force technology as its governing principle, the load generated in the event of a fall is absorbed through the Latchways system, minimizing loads placed on the roof structure.

The Constant Force Coil controls the load when a fall occurs, limiting the impact to the roof construction.

Latchways® Horizontal Lifelines (HLL)

Constant Force® Post Components

Recognizing the importance of installing a fully compliant solution to all major roof constructions, manufacturers across the globe were consulted to create a brilliantly compatible anchor: the Latchways Constant Force Post. With just a handful of components, the Constant Force technology can be designed to fit nearly any roof configuration.

Turnbuckle Assembly	Swage & Clevis	90° Corner Bracket	Variable Bracket	D-Ring & Hanger	Entry Terminal
The turnbuckle assembly provides a cable termination and method of tensioning the system. The integral indicator disc spins when the correct system tension is reached.	The swage and clevis unit provides the method of terminating the cable at the opposite end of the system to the turnbuckle assembly.	This one-piece corner bracket, attached to an intermediate anchor, provides an angle change of 90° within the system.	This bracket attaches to an intermediate anchor and provides an angle change of between 0° and 80° on either horizontal or vertical planes.	The D-ring and hanger form an intermediate cable support. The cable is threaded through the hanger, allowing the Transfastener to travel the length of the system without disconnecting.	Where a Transfastener is used on a system, the entry terminal is used to enable entry and connection.

The user, wearing a full-body harness and energy-absorbing lanyard, is continuously attached to the system with a Latchways Transfastener™, MSA's innovative device that can rotate its way through the intermediate cable supports. For systems with no entry terminal, a Removable Transfastener can be used.

Roof-Type Fixing Options

Latchways Constant Force Systems bring complete fall protection solutions to both fall restraint and fall arrest. The simplicity of our fixings allows for quick and easy installation, providing safe solutions to workers at height.

Latchways systems work with all major roof manufacturers.

Constant Force Post on standing-seam roofing Fixing Method: 4 split clamps	Constant Force Post on corrugated metal decking Fixing Method: 16 stitching screws/bulb tite rivets	Constant Force Post on secret-fix roofing Fixing Method: 20 bulb tite water seal rivets	Constant Force Post on flat roofing Fixing Method: 4 toggle bolts
---	--	--	--

Latchways® Horizontal Lifelines (HLL)

Freestanding Constant Force® Post

Typically, a cable-based system is installed top-fixed to the roof structure. However, this isn't always practical or desired—for example, when a permanent roof edge or gutter maintenance system is in place but a “one-off” repair is required in the center or another location accessible from this system. Another example is when the facility is being leased and alterations to the roof are not allowed.

For these situations and more, you need the Latchways freestanding Constant Force Post (CFP). To be used on a single-ply roof only, this expertly engineered self-weighted anchor incorporates CFP technology but does not require fixing through the roof sheet. When required, a number of CFPs can be combined to create a full system.

Overhead Systems—Single- and Multi-Span Systems Components

With Latchways overhead systems, all you have to do is look up and you'll find a greater sense of security and confidence.

Combining MSA's unique knowledge of fall protection with innovative Constant Force technology, our overhead systems deliver maximum accessibility and hands-free mobility—not to mention ease of use and simple installation.

The Latchways range of overhead systems house Constant Force technology in an in-line energy absorber, so if a worker connected to the system should fall, the Constant Force energy absorber controls the load back to the structure. Simply put, it's a smartly designed system precisely engineered to react lightning quick.

Ideal for industrial environments and in applications such as warehouses, loading bays and airplane hangars, Latchways overhead system is heads above when it comes to fall protection safety.

Did you know that, for systems up to 200 ft (61 m), intermediate brackets are not necessary? Latchways overhead systems remove the need for structural elements and intermediate bracket fittings to be installed. Latchways is the only product to achieve this.

Single-Span System Components—distances up to 200 ft (61 m)

Multi-Span System Components—all distances and those greater than 200 ft (61 m)

A

Constant Force Energy Absorber

Located at one end of the system, the energy absorber ensures that, in the event of a fall, the maximum load transferred to the structure does not exceed 4047 lb. (18 kN).

B

Overhead System Mobile Anchorage

Allows an SRL to be connected to the overhead system.

C

Line Tensioning Device

Allows the system to be correctly tensioned for use. The indicator disc will spin freely when the correct tension is reached at 1124 lb. (5 kN).

D

Mobile Anchorage

Allows an SRL to be connected to the overhead system. Anchorage can travel over intermediate brackets without disconnection.

E

Intermediate Brackets

Support the cable on multi-span systems and also accommodate change in direction.

Fall Protection: Engineered Systems

Latchways® Vertical Lifelines (VLL)

Anywhere in the world, wherever there's a call for telecoms, masts, rooftops or any at-height work space—you are likely to find a Latchways vertical cable-based fall protection system. All you have to do is scan the horizon.

Featuring our brilliantly engineered TowerLatch™ and LadderLatch™ systems, the Latchways system options offer outstanding personal safety for those working at height, particularly in the telecom and wind energy industries. Both TowerLatch and LadderLatch emphasize inherent flexibility, meaning they can be configured for a wide variety of applications, including ladders, towers, masts, monopoles and other structures specific to these industries.

Dedicated to Safety

- **Reliable security:** Our VLLs incorporate a fluorescent red indicator that appears in the event of a fall
- **Flexible freedom:** Each systems' universal attachment device rotates freely through intermediate cable guides for continuous hands-free protection
- **Load control:** In the event of a fall, the load applied to the worker is limited to a maximum of 1349 lbs (6 kN) by either a Constant Force absorber at the top of the system or a webbing energy absorber on the device
- **Inspection:** TowerLatch and LadderLatch systems are regarded as part of the tower structure, and inspected accordingly
- **Trusted quality:** Both systems meet or exceed all relevant international standards
- **Extra security:** A webbing stop can be incorporated into the systems' attachment device to facilitate rescue as needed

Engineering excellence

All MSA systems are manufactured to the highest international standards, using only the best materials. Critical components are individually numbered and batch-conformance and dye-penetrant tested—a quality standard unsurpassed in the industry. In addition to rigorous in-house testing, all MSA products undergo external verification to ensure they meet or exceed relevant industry standards.

The TowerLatch system has also been subjected to accelerated aging, wind tunnel trials and cyclic testing—all of which have confirmed the inherent quality and durability of the system.

MSA products are specifically developed to take into account the latest structural innovations, while the company's commitment to excellence means that its systems have a proven track record of safety and reliability—even in the most extreme environments.

Ease of installation and use

- Incorporation at the design stage for new towers or retrofitting to existing structures
- Installation that follows the contours of any structure, including horizontal and inclined sections
- A comprehensive range of components that enables quick and easy installation on any type of overhead line tower, vertical structure or ladder
- Utilization by up to six users
- Units that can be attached or detached at any point in the system
- Installation in virtually any environment

Fixed Ladder Systems

With its simple design concept built for optimal flexibility and superior protection, MSA TowerLatch and LadderLatch systems can be installed to follow the contours of any structure, maximizing the system's safety value in a working environment.

Networks and Telecoms

MSA's mission is to make sure every customer gets the solution they need. Whether the systems you require are for greenfield sites or rooftops sites, new build or retrofit, network roll-out programs or upgrading of antennas, MSA offers tailor-made service with maximum support.

Transmission Towers

Flexible enough to accommodate every safety need for working at height, Latchways vertical systems are ideal for personnel accessing high-voltage transmission towers or transformers in substations.

Wind Turbines

When ascending a ladder within a new build or retrofit turbine, rely on Latchways TowerLatch to deliver the ideal hands-free solution, securing the climber to the cable via the chest D-ring on their full-body harness.

Fixed Ladder Systems

For use on stadiums, oil rigs, land-based wind towers and other elevated work environments, Latchways fixed ladder systems are always ready for climbing. Featuring our innovative LadderLatch™ unit, with its unique starwheel component that provides continuous security with hands-free climbing, our fixed ladder systems are designed to maximize confidence and productivity. And, because they are flexible enough to follow the contours of virtually any structure, these fixed ladder systems maximize the safety value in a working environment, too.

Fixed ladder systems use the LadderLatch attachment device.

Vertical Ladder System Kits

The prepackaged ladder system kits listed below are ready to go and can be installed by the end-user. LadderLatch Climbing Device sold separately.

Kit Numbers	Length
30901-00	20 ft (6 m)
30902-00	40 ft (12 m)
30903-00	55 ft (17 m)
30904-00	75 ft (22 m)
30905-00	90 ft (27 m)

Putting a typical system together

A typical vertical system usually consists of a top anchor, a bottom anchor and a Constant Force energy absorber in between.

Top anchor

The top anchor is a bracket with a built-in safety factor greater than 2 times the potential load generated when a fall occurs.

Constant Force energy absorber

The Constant Force energy absorber ensures that the load applied back to the structure and the climber, in the event of a fall, is limited to a maximum of 1349 lbs (6 kN).

Intermediate cable guides

These brackets support the cable, ensuring that a correct stand-off distance from the structure is maintained. The spacing of the intermediates is dependent on the height and location of the structure. An extensive range is available to cater to all types of structures.

Bottom anchor

The bottom anchor is a bracket that provides a swage-free system termination and an integral tensioning device. At the correct cable pre-tension, the unit's indicator disc will spin freely. Captive security bolts prevent unauthorized system adjustment.

TowerLatch™ Engineered Cable Lifelines

There are two types of systems for overhead line towers: StepBolt and L-Bolt.

StepBolt

Latchways StepBolt is a vertical fall protection system for retro-fitting to overhead line tower climbing legs. Fixed to the structure by the step bolts, the system has no in-line energy absorber. The TowerLatch SP attachment device incorporates a built-in energy-absorbing pack to reduce the end load in the event of a fall. The system is designed for use by up to four workers at the same time.

L-Bolt

Like the StepBolt, Latchways L-Bolt system is also for retrofitting to overhead line tower climbing legs—though it is fixed to the tower by L-bolts, which are available in a range of sizes to suit each structure. The TowerLatch attachment device incorporates a webbing stop to facilitate rescue.

Top anchor

This bracket has a built-in safety factor of greater than 2 times the potential load generated when a fall occurs. The Constant Force energy absorber can be attached at this point.

Constant Force energy absorber (L-Bolt system only)

The Constant Force energy absorber ensures that, in the event of a fall, the load applied back to the structure and the climber is limited to a maximum of 1349 lbs (6 kN). A three- or six-person version is available, with both units having a red fluorescent indicator showing if a fall has occurred.

Intermediate cable guides

These brackets support the cable, ensuring that a correct stand-off distance from the structure is maintained and also controls the cable against the effects of wind. The spacing of the intermediates depends on the height and location of the structure. An extensive range is available to cater to all types of structures.

TowerLatch systems for overhead towers use the TowerLatch or TowerLatch SP attachment devices.

Bottom anchor

This bottom bracket provides a swage-free system termination and an integral tensioning device. At the correct cable pre-tension, the unit's indicator disc will spin freely. Captive security bolts prevent unauthorized system adjustment.

Latchways® Inclined Systems

While working at height is tough, working at height on an incline can present uniquely different challenges. MSA has developed a comprehensive range of Latchways system components that can be configured to provide a tailored cable lifeline suited to structures that slope. Our two main components, the BridgeLatch™ and ClimbLatch™ devices, are built to bring optimal security, flexibility and mobility to the at-height, on-incline workplace.

BridgeLatch

For inclined lifelines running between 0° and 70°, the Latchways BridgeLatch device secures the user to the cable via a fixed-length lanyard connecting to the D-ring attachment point of a full-body harness. Featuring a starwheel mechanism that rotates freely over intermediate cable supports and brackets, this smartly engineered device eliminates the disconnection requirement that can lead to potential accidents or loss in productivity.

The result is confident, hands-free operation with optimal freedom of movement, because workers can now move up or down the cable system's incline—without the need to detach.

Better still, in the event of a fall, the BridgeLatch device is designed to clamp fast onto the cable, preventing the user from falling or sliding down the incline on which they're working.

Depending on the incline of the system, MSA offers two different types of devices: one that covers inclines up to a 40° pitch, another that should be used on a pitch of up to 70°.

Typical Latchways BridgeLatch System Components

A

Entry and exit terminals

BridgeLatch can be connected and disconnected only at designated entry and exit terminals. This built-in safety feature is designed to prevent the user from improperly using or accidentally disconnecting from the device.

B

Cable

Latchways uses a 516" (8 mm) 1 x 19" 316-grade stainless-steel cable that has a unique identification system. The cable is factory tested to check its physical properties and to ensure consistent performance.

C

Intermediate cable guides

These brackets support the cable, keeping the correct stand-off distance from the structure. The design of the bracket allows for easy retrofit, while the spacing of the brackets is dependent on the height and location of the structure.

D

Mid-entry terminal

With a mid-entry terminal, a user can enter or exit the system at any designated point rather than having to return to the terminals at the ends of the system.

Bridges

BridgeLatch is an ideal choice when the cable

system you're attaching to is located at waist height, such as when walking on bridge suspension cables. The Latchways BridgeLatch device has been utilized across the world, including on the Lyiesford Bridges in Norway.

Stadiums

BridgeLatch is the chosen attachment

device on more unusual constructions, including highly popular visitor attractions such as "Up at the O2" — where a BridgeLatch device and cable system assists thousands of tourists as they climb and descend the steep profile of the O2 Arena in London.

BridgeLatch attachment device.

Latchways® Inclined Systems

ClimbLatch

Designed to protect the user from a sliding fall on a sloped surface, the ClimbLatch™ device was created for use on an inclined system between 15° and 40°—though it can also be used on a system that moves from horizontal to vertical orientation.

Compatibility among components ensures your customized system—whether vertical, horizontal or inclined—delivers smooth, continuous transitions.

Like the BridgeLatch device, ClimbLatch permits hands-free travel up sloped surfaces, freeing the worker to use both hands for work or climbing. Safety features include a required entry point on which to attach to the system. In the event of a fall, the ClimbLatch device locks onto the cable, not only arresting the fall but keeping the worker from sliding down the system.

ClimbLatch attachment device.

Attachment Devices

All Latchways attachment devices are designed to connect the user, wearing a full-body harness, to a Latchways cable system.

Common to all devices is the patented starwheel mechanism, which rotates freely over intermediate cable supports and around corner brackets without needing to disconnect the unit. This allows hands-free operation for the system users.

			
• Universal devices for use on all Latchways horizontal systems, suitable for both fall restraint and arrest systems • Incorporate unique starwheel, allowing the unit to pass over cable supports and corners without the need to detach			
Transfastener and Removable Transfastener	LadderLatch	TowerLatch	TowerLatch SP
• While the Transfastener requires a specific entry point, the Removable Transfastener can attach or detach at any safe point	• Anti-inversion mechanism prevents device from connecting to the cable upside-down • Connects to user at chest point • Able to attach or detach at any safe point of the system • In the event of a fall, the unit locks onto the cable and arrests the fall	• Includes integral webbing strop to provide fast post-fall rescue	• Includes an integral energy absorber ("shock pack") for use where a Constant Force absorber is not present in the vertical lifeline system

BridgeLatch

- Latchways BridgeLatch device secures the user to the lifeline cable on inclines that run between 0° and 70°.
- Featuring our groundbreaking starwheel mechanism that rotates freely over intermediate cable supports and brackets, the BridgeLatch's intelligent engineering means you don't have to disconnect the unit and risk potential accidents or loss in productivity.
- The result is remarkable freedom of movement and hands-free operation so users can do their best, most confident work.

ClimbLatch

- The ClimbLatch device has many similar features of the LadderLatch and TowerLatch but is designed to be used on an inclined system—suitable for inclines between 0° and 40°.

Fall Protection: Engineered Systems

Latchways® WinGrip® Vacuum Anchor

Latchways WinGrip Vacuum Anchor is a fall protection system developed for use in the maintenance and manufacturing of aircraft.

As flexible as it is safe, a WinGrip Anchor can be fixed to wings, fuselage or stabilizers. The system is quick to install, easy to use and suitable for work inside the hangar, or outside, on the apron. Originally developed in collaboration with aircraft engineers seeking revolutionary new ways to protect workers at height, the first WinGrip vacuum anchor systems were delivered to British Airways in 1999. These first single-user systems gave the industry a time saving, cost-cutting lift by delivering fall protection in a radius around the anchor, in virtually any location on the aircraft—and they're still being used today. In fact, these days the WinGrip product is so ubiquitous, you'll find it in the aircraft maintenance manuals of both Boeing and Airbus.

Latchways WinGrip aerospace line consists of four different products—each with its own unique benefits that accommodate ever-evolving customer needs and ever-changing legislative requirements.

WinGrip at a Glance

- Lightweight and portable anchors weigh less than 13 lbs (5.9 kg).
- Suitable for wet or dry surfaces, inside hangars, or on the apron
- Intrinsically safe, even with fuel tanks open—runs on compressed air or nitrogen; no electrical requirements
- Approved and used by all major aircraft manufacturers
- Easy to install and simple hands-free operation
- Independently tested to meet all relevant international standards
- Absence of metal-on-metal contact protects surfaces and eliminates risk of sparking
- Single- or multiple-user cable-based systems are available
- Suitable for heavy and light maintenance environments
- Should air supply fail, an alarm will sound and workers have at least 20 minutes to reach safety

WinGrip Single-User System

The original WinGrip is our single-user system, providing a fall protection anchor point for wings, fuselage or stabilizers. Highly portable, this easily installed system is particularly suited to line maintenance and other temporary work. Here, the anchor is positioned and vacuum-locked in place, then used by a worker wearing a full-body harness with a safety lanyard and work positioning rope, connected to the vacuum anchor. The adjustable work positioning rope provides comfortable hands-free operation within a radius of 10 ft (3 m). Two vacuum anchors can be used to triangulate and fix the worker's position.

WinGrip Barrier System

The WinGrip barrier system offers multi-personnel protection. The system provides a safe, enclosed working environment for several workers at a time. Here, workers do not need to use harnesses or lanyards, and they require only basic training to work within the system. Initially designed for Boeing maintenance programs, our barrier system consists of a series of upright stanchions and telescoping horizontal rails. The stanchion is connected at the base to a WinGrip vacuum anchor and is fully adjustable, ensuring a perfect installation on flat or curved surfaces. The horizontal rails are adjustable in length and angle, allowing any shape of the system to be installed in large areas.

Latchways® WinGrip® Vacuum Anchor

WinGrip Lifeline System

The WinGrip lifeline system was introduced in 2005 as an ideal solution for use in construction, heavy maintenance and return operations, allowing for safe, hands-free access for multiple workers along the entire length of a wing or fuselage.

The system consists of two end-anchor vacuum anchors with cables spanning between them, and intermediate anchors as needed to suit any cable length. Each anchor is positioned and vacuum-locked in place, with stainless-steel safety cables connected and tensioned at one end. Workers connect to the cable using the unique Latchways shuttle. Up to four workers can use the system, wearing full-body harnesses and work positioning ropes. Built for greater flexibility and productivity, this system allows hands-free movement along the whole cable length, with shuttles gliding over intermediate anchors.

System benefits

- Can be customized to fit any length of aircraft wing
- Ideal for heavy maintenance and longer access requirements
- Up to 4 users per system
- Fall arrest rated
- Safe method of installation and removal
- Provides full access to any wing without needing to disconnect
- Hands-free operation

Latchways WinGrip AIO Vacuum Anchor

Looking for ways to make flightline or hangar tasks more efficient, MSA's visionary team created the WinGrip AIO: a self-contained, compact, lightweight vacuum anchor. Powered by shop air supply or a refillable gas cylinder that provides at least six hours of stationary use, this marvel of fall protection technology is able to perform in extreme temperature—from arctic cold to desert heat. With little setup or removal time needed, the WinGrip AIO is ideal for use on “walking” areas of wings or structural sections of the fuselage.

Once the WinGrip AIO anchor has been vacuum-locked in place, the worker can attach to the system wearing a full-body harness and work positioning ropes with hands-free access to undertake all necessary maintenance. A single WinGrip AIO anchor provides a working area radius of nearly 10 ft (3 m), while an additional anchor can be attached to allow a larger work area. When using additional anchors, users can “step-stone” their way along the work area.

If for some reason the air or nitrogen supply used by the WinGrip AIO should fail, an audible alarm sounds, and the vacuum anchor will maintain a safe working vacuum for at least 20 minutes.

MSA XTIRPA™ Manhole Guard System

- Used for confined space vertical entry and fall protection when portable base is needed
- Barricades exposed entry points while providing necessary strength needed for fall protection, entry and retrieval applications
- Davit arm and manhole guard with integrated mast interface allows for reduced material surrounding the confined space entry, thus reducing the presence of trip and fall hazards

Weight Capacity

400 lbs. (181 kg) as pictured with MSA Rescuer and MSA Winch

Required System Components

- Davit Arm IN-2210
- Manhole Guard with Integrated Mast IN-2108
OR
Large Manhole Guard with Integrated Mast IN-2324
- Rescuer SRL such as 10158178 and corresponding attachment bracket such as IN-2404

MSA XTIRPA™ Hitch Mount System

- Used for confined space vertical entry and fall protection when portable base is needed
- Hitch mount can be customized to accommodate variety of confined space applications
- Commonly used with rescue vehicles for confined space rescue

Weight Capacity

360 lbs. (163 kg) as pictured with MSA Rescuer

Required System Components

- Davit Arm IN-2210
- 3" Mast IN-2003
- Hitch Mount with 24" Stabilizer IN-2126
- OR
- Hitch Mount with 60" Stabilizer IN-2204
- Rescuer SRL such as 10158178 and corresponding attachment bracket such as IN-2404

System Components

 Davit Arm 24" Reach IN-2210 OSHA	 3" Diameter Mast IN-2003 OSHA	 Mast Extension IN-2044 15" IN-2109 18" IN-2045 24" OSHA	 3" Hitch Mount w/24" Stabilizer IN-2126 OSHA	 3" Hitch Mount w/60" Stabilizer IN-2204 OSHA	 Universal Joint Assembly for Hitch Mount A2126-07 OSHA	 90° Extension for Hitch Mount A2126-10 OSHA

MSA XTIRPA™ Pole Hoist System—Horizontal and Vertical Entry

- Used for confined space vertical/horizontal entry and fall protection when portable base is needed
- When attached to anchor point, Pole Hoist provides retrieval and fall protection when limited overhead clearance is present
- Can also be configured for horizontal entry applications such as lifting, lowering and fall protection

Weight Capacity

360 lbs. (163 kg) as pictured with MSA Rescuer

Required System Components

- 48"-72" Pole Hoist **IN-2337**
OR
57"-102" Pole Hoist **IN-2338**
- Adjustable T-Bar (size dependent upon entry)
- Anchorage Connector

MSA XTIRPA™ Manhole Collar System

- Used for confined space vertical entry and fall protection when portable base is needed
- Provides adapter base by fitting within manhole opening
- Designed for frequent setup of confined space equipment over similarly-sized openings

Weight Capacity

360 lbs. (163 kg) as pictured with MSA Rescuer

Required System Components

- Davit Arm IN-2210
- 3" Mast IN-2003
- Manhole Collar (size dependent upon entry)

MSA Confined Space Entry Equipment: Retrieval/Lifting/Lowering Devices

MSA Rescuer

- Fast, easy and intuitive fall protection with integral bi-directional retrieval capability
- Arrests fall and allows fallen worker to ascend or descend to safe location
- Durable, economical
- Fast installation and setup
- Patent-pending integral bracket
- Intuitive mode switch
- ANSI Z359.14 and CSA Z259.2.2

PART NO.	Description
10158178	MSA Rescuer, stainless steel cable, 50 ft. (16m) – ANSI Z359.14
10158180	MSA Rescuer, stainless steel cable, 50 ft. (16m) – CSA Z259.2.2
10159755	MSA Rescuer, rope, 50 ft. (16m) – ANSI Z359.14

MSA Winch

- Rugged, versatile and economical mechanism for lifting, lowering and positioning of personnel and materials within confined space applications
- Maximum work load of 400 lb. for personnel, 620 lbs for materials (20:1 design factor)
- Patent-pending bracket attachment for easy installation
- Ergonomic carry grip and foldable crank handle
- Includes integral RFID technology
- Includes self-locking swivel 36C snaphook
- ANSI Z359.1-compliant

PART NO.	Description
10153757	MSA Winch, galvanized cable, 65-ft (20m)
10147301	MSA Winch, stainless steel cable, 65-ft (20m)

Safety Simplified with Fall Protection Grid Asset Manager

Makes Asset Management More Organized and Efficient

Intuitive

Easy-to-use, **intuitive app** enables management and assignment to people and locations

RFID Technology

App scans/interfaces with unique product identifier to **easily capture key product information**

Employee Assignment

App offers ability to **assign assets** to individuals and **capture assignment history**

Improves Inspection Compliance

Inspection Tracking

App can be populated with desired inspection date, which will generate **automatic reminders**

Documentation Capabilities

App can take and store **product photos** and take **notes**

Build your safety program with the simplicity of an MSA+ subscription.

Track Unlimited Assets

Track unlimited assets and provide access to unlimited users all for one low monthly fee.

Customize to Meet Your Needs

The FP Grid Asset Management App includes customizable features allowing you to adjust settings to meet your specific safety program needs.

Better with Time

Features and functionality routinely released to improve your safety program. Get the latest features with every subscription renewal.

V-SERIES® Full-Body Harnesses

Because the safest fall protection is the one you'll actually want to wear, each V-SERIES harness includes unique features to deliver **exceptional comfort**—so you can focus on your work, not your harness:

Superior comfort

The exclusive racing style buckle allows for a close, comfortable fitting harness—eliminating the need for bulky chest straps or cumbersome buckles.

Flexibility

The racing style buckle creates an athletic cut, contouring the harness to the body for improved upper torso movement on the job.

Adjustability

Pull-down adjustment on each harness allows you to quickly get the right fit, that last throughout the work day.

V-FORM® Harness Setting the Standard

Features:

- Racing-style buckle
- Athletic cut
- Pull-down adjustment
- Easy-to-inspect stitch patterns

V-FORM®+ Harness Advancing the Standard

Features:

All the benefits of the V-FORM, plus...

- Body-conforming shoulder pad
- Dedicated attachment point for personal fall limiters
- Coated webbing

V-FIT® Harness Raising Expectations

Features:

All the benefits of the V-FORM+, and...

- Removable, body-conforming shoulder pad
- Horizontal leg straps
- Aluminum hardware

V-FLEX® Harness Changing the Game

Features:

All the benefits of the V-FIT, plus...

- Thermoform shoulder pad designed for cooling
- Leg padding
- Swiveling hip juncture for mobility
- Integrated suspension trauma straps
- Re-settable lanyard keepers

V-FLEX® Full-Body Harness

Superior Comfort

1 Using a patent-pending RaceFLEX connection, webbing is routed across the chest for a secure and comfortable fit—eliminating the need for bulky chest straps or cumbersome buckles.

2 Reduce fatigue with flexible foam shoulder pad that responds to your movement to conform to your body, eliminating pressure points and chafing.

3 Keep cool and reduce heat stress with interior padding designed with channels for continuous air flow and ventilation.

Flexibility

4 Using an exclusive racing style design, webbing contours to the torso, reducing the need for adjustments throughout the day and allowing for better mobility on the job.

5 Featuring a patent-pending hip connection, the harness “flexes” with the worker, reducing fatigue throughout the day.

Adjustability

6 Pull down adjustment allows you to quickly and easily get the right fit that last throughout the work day.

V-FLEX Harness Padding

Contoured padding fits the body's normal curves to reduce pinch points and chafing.

Closed cell foam reduces moisture build-up—keeping your pad from getting soggy and extending the life of your harness.

Keep cool and reduce heat stress with interior padding designed with channels for continuous air flow. Vented “V” feature allows for fresh air to flow from outside the pad, to inside.

V-FIT® Full-Body Harness

Superior Comfort

1 Using a patent-pending RaceFLEX™ connection, webbing is routed across the chest for a secure and comfortable fit—eliminating the need for bulky chest straps or cumbersome buckles.

RaceFLEX Chest Buckle

2 Shoulder padding responds to your movement to conform to your body, eliminating pressure points and chafing. Shoulder padding can be removed for cleaning, extending the life of the harness.

3 Patented leg strap design keeps leg straps in place as webbing lies horizontally across the thighs, creating a more natural fit.

Flexibility

4 The RaceFLEX Buckle creates an athletic cut contouring the harness to the body and improving upper torso movement on the job.

Adjustability

5 Pull-down adjustment allows you to quickly and easily get the right fit that lasts throughout the work day.

6 Dedicated attachment point for Personal Fall Limiters allows for quick and easy attachment, and keeps your back D-ring free for other use.

Dedicated PFL attachment

V-FIT Construction Harness Adjustable Waist Pad

The V-FIT Harness' adjustable waist pad allows you to position the waist pad specifically for you and your work day. With its patent pending design, the V-FIT waist pad can be adjusted higher on your torso for lumbar support or lower for work positioning applications. Designed around pressure points and by choosing breathable materials, the V-FIT waist pad delivers ultimate on-the-job comfort.

V-FORM®+ Full-Body Harness

Superior Comfort

1 The patent-pending racing-style buckle allows for a close, comfortable harness fit — eliminating the need for bulky chest straps or cumbersome buckles.

2 Shoulder padding responds to your movement to conform to your body, eliminating pressure points and chafing.

Increased Flexibility

3 The racing-style buckle creates an athletic cut, contouring the harness to the body and improving upper torso movement on the job.

Adjustability

4 Pull-down adjustment allows you to quickly and easily get the right fit that lasts throughout the work day.

5 Dedicated attachment point for Personal Fall Limiters allows for quick and easy attachment, and keeps your back D-ring free for other use.

Gravity™ Family of Full-Body Harnesses

Gravity Suspension Full-Body Harness

Features

- 8 adjustment points for perfect sizing and fit
- Carabiner with 3,600 lb. (16kN) gate strength
- Elastic web keepers provide flexibility to manage excess webbing

D-rings

- Aluminum D-ring hardware
- Available at ventral (waist), sternal, hip and back locations
- Fold-back hip D-rings that allow users to reduce possible snag hazards
- Fall arrest-rated sternal and back D-ring

Buckles

- Quick adjusting, bayonet-style buckles allow one-hand tightening and loosening
- Available with locking engagement window to confirm secure connection
- Undercut engagement prevents both tabs from disconnection while under tension

Tool Loops

- Internal rigid supports to make connection of tools easier
- Tool loops on leg straps provide more tool-holding options, and may be cut off if not needed

Padding

- All versions include waist and leg padding to improve suspension comfort
- Gravity Suspension versions available with comfort shoulder padding
- Waist pad with dual-layer construction to reduce pressure during suspension

Arc Flash Full-Body Harnesses

EVOTECH® Arc Flash Full-Body Harness

Features

- Reflectivity on shoulder padding provides increased visibility in low-light applications
- Moisture-wicking padding keeps users cooler
- 100% Kevlar webbing is fire-resistant and self-extinguishing
- Harness is lighter—by more than 1 lb. —than comparable harnesses
- ASTM F887-tested with fire-resistant (FR) properties

MSA Tool Tethers

Designed to prevent falling objects, MSA's line of tool tethers makes product selection simpler by using color differentiation to identify the weight capacity of each tether. Additionally, the durable stainless steel hardware supports increased product life to maximize your investment. All MSA Tool Tethers meet ANSI/ISEA 121-2018.

Connecting Devices: Energy-Absorbing Lanyards

Choosing the right lanyard can be confusing with so many options!

The **V-SERIES line of lanyards** will help simplify product selection by using large identifiable icons on the side of the energy absorber, making it easy to find the right lanyard for the right application. On top of that, a simple naming convention based on the application will keep things simple. The lanyards are also lightweight and improve comfort through a small, compact energy absorber. The additional energy absorber cover* prolongs product life, by protecting the energy absorber and labeling inside.

*Standard lanyard does not have additional energy absorber cover.

V-SERIES® Standard Lanyards

The V-Series shock-absorbing lanyard line simplifies product selection by offering a concise line of standard lanyards that meet a wide range of customer needs. These lightweight safety lanyards not only limit force on the body in a fall, but also on the anchor location. The shock absorbing pouch includes a clear, durable protective cover on the labels to increase service life, and allow for easy inspection.

V-SERIES® Stretch Lanyards

The V-Series stretch shock absorbing lanyard line simplifies product selection by offering a concise line of lanyards that meet a wide range of customer needs. Reduce snag and trip hazards, and increase worker flexibility with the stretch style of webbing. Abrasion resistant cover for the energy absorber provides additional protection for increased service life. All stretch lanyards can be easily identified by the

icon on the energy absorber's cover.

V-SERIES® Tie-Back Lanyards

Our new line of V-Series Tie-Back Lanyards simplifies product selection by offering a concise line of standard lanyards that will meet a wide range of customer needs. All new lanyards shown below also meet the latest ANSI standard for tie-back lanyards: ANSI Z359.13. The tie-back shock-absorbing lanyard uses an FP5K carabiner which can be tied directly back to the lanyard. All tie-back lanyards can be easily identified by the  icon on the energy absorber's cover.

V-SERIES® Leading Edge Safety Lanyards

The V-SERIES line of leading edge safety lanyards has been tested over a .005" radius steel edge—providing a shock-absorbing lanyard option for leading edge work. The easy to identify Leading Edge symbol  on the shock absorbing cover helps to make identifying lanyard type and application easier. Additionally, the swiveling snaphooks keep your lanyard lifeline from twisting as you work, so you can spend less time adjusting your PPE and more time focused on the job.

V-SERIES® Restraint Lanyards

Restraint lanyards are primarily used for travel restriction (to restrain a worker from reaching a fall hazard) and work positioning (stabilizing a worker at an elevated location) applications. The V-SERIES line of restraint lanyards offers lengths ranging from 3–10 feet for a variety of applications. Restraint lanyards come in both fixed length and adjustable options.

Connecting Devices: Self-Retracting Devices

V-TEC® Mini Personal Fall Limiters (PFLs)

- Compact and lightweight
- Fall arrest and restraint for users up to 400 lb. (181 kg) including tools. Note that both ANSI and CSA allow 130–310 lb. (60–140 kg). For OSHA, we have tested and allow 100–400 lb. (45–180 kg).
- Highly durable polycarbonate clear casing allows for easy visual inspection of critical internal components
- Withstands temperatures ranging from -40° to +130°F (-40° to +54°C)
- Tested to these relevant standards: ANSI Z359.14-2021 Class 1; OSHA 1910.140; OSHA 1926.502
- **Assured safety:** optimized design utilizing durable lightweight materials to improve weight and comfort
- **Full range of motion:** fully rotating attachment point for complete flexibility—both 360° and 180°
- **Superior materials:** components manufactured from high-grade stainless steel and engineered plastics
- **Clear housing:** polycarbonate case houses SRL; transparency allows for easy visual inspection of critical internal components

V-TEC Twin-Link Connector

Part Number	Description
63900-04	Twin-Link Connector for V-TEC PFL

Connecting Devices: Self-Retracting Devices

V-TEC® Self-Retracting Lanyards (SRLs)

With premium components and innovative engineering, the V-TEC SRL offers controlled cable retraction—preventing excessive lifeline retraction speed and protecting internal parts from damage.

- Clear outer casing for easy inspection
- Carry handle included
- Spring radial energy-absorbing technology requires zero calibration or adjustment
- Stainless steel/engineered plastics
- Retraction dampening features controls the cable speed to <3m/s
- Completely field serviceable

V-EDGE® Web Leading Edge Personal Fall Limiters (PFLs)

MSA's patent-pending V-EDGE Web PFL provides a light weight solution for ANSI Z359.14-2014 Leading Edge Requirements.

- **Simplified selection**—the V-EDGE PFL can be used in a variety of applications where sharp edge hazards are a concern.
- **Reduce Fatigue**—Using web for the lifeline, the V-EDGE PFL weighs on average, 15% less than similar cable units—providing a light-weight option for leading edge applications..
- **Easy to connect**—Get to work faster. Save time and frustration with a sleek and simple locking pin attachment.*

V-EDGE® Cable Leading Edge Personal Fall Limiters (PFLs)

Specifically engineered and tested for use at foot-level tie-off, the V-EDGE PFL meets ANSI Z359.14-2014 Leading Edge requirements.

- *Simplified selection*—the V-EDGE PFL can be used in a variety of applications where sharp edge hazards are a concern.
- *Move easier*—Reduce potential snag hazards with the lowest-profile housing on the market.
- *Easy to connect*—Get to work faster. Save time and frustration with a sleek and simple locking pin attachment.
- *Lower cost of ownership*—With a stainless steel housing and protective cover for the energy absorber, the V-EDGE PFL is built to fight the toughest elements, saving you time and money on product replacements.

V-EDGE® Leading Edge Self-Retracting Lanyards (SRLs)

Specifically engineered and tested for use at foot-level tie-off, the V-EDGE SRL meets ANSI Z359.14-2014 Leading Edge requirements.

- *Simplified selection*—the V-EDGE PFL can be used in a variety of applications where sharp edge hazards are a concern.
- *Get to work faster*—Clear outer casing allows for quick visual inspection of internal components
- *Lower cost of ownership*—Integrated roll cage protects housing when used in foot-level tie off. Retraction dampening feature controls the life line speed, preventing unwanted damage and maximizing product life.
- *Reduce downtime*—Internal components like the cable and energy absorber can be replaced on site, reducing repair times.

V-TEC® io1

The MSA V-TEC io1 is a new Fall Protection product, specifically designed for lift work in warehouses and fulfillment centers. Its smart features help to improve worker safety and compliance when working at heights.

1. Real Time Compliance

The V-TEC io1's seat-belt alarm style system helps to improve safety compliance rates by continuing to sound, until workers are connected in the lift. It beeps upon waking up every time-reminding workers to connect their PPE right away. Additionally, the flashing red lights engage multiple senses so that that the user is made aware of their connection status.

2. Improved Efficiency

By reminding workers to connect to their lift, the V-TEC io1 helps to reduce turnover rates and training costs that may result from a lack of compliance and also allowing Safety Managers to focus on other tasks.

PART NO.	Description
10213902	V-TEC io1 PFL, 6 ft., 36CSN snaphook
10216248	V-TEC io1 PFL, 10 ft., 36CSN snaphook

Each V-TEC io1 comes with charging kit, and 1 RFID holder assembly for harness.

V-FORM/V-FORM+ Harnesses, and additional RFID holder assemblies must be ordered separately.

Latchways® Arc Flash Personal Fall Limiters (PFLs)

- Suitable for use in work applications where arc flash is present
- Most compact arc-rated personal fall limiter in its class
- Kevlar web lifeline
- 6.5 ft. length
- Spring radial energy-absorption technology
- Aluminum triple-lock carabiner
- High-impact polycarbonate housing
- Clear housing for ease of inspection
- Can be used as twin-leg version using the TwinLink Connector
- User capacity up to 400 lbs.

Connecting Devices: Self-Retracting Devices

Latchways® Standard Self-Retracting Lanyards (SRL)

Latchways SRLs offer dependable fall protection and are specifically designed for use within varied environments, enabling unhindered hands-free fall protection solutions.

- Completely field-serviceable
- Frictionless Constant Force® technology braking mechanism
- Impact-resistant toughened case
- Meets and exceeds global industry standards
- 100% Full Contact™ locking mechanism
- 310lbs. (140kg) user capacity (web version)
- 400lbs. (181kg) user capacity (cable version)

Latchways® Sealed Self-Retracting Lanyards (SRL)

Latchways Sealed SRLs are specifically designed for use within harsh environments such as oil rigs, offshore wind farms and other offshore applications, enabling unhindered hands-free fall protection solutions. They are the world's first completely field-serviceable sealed SRLs.

- Ingress protection (IP69K)
- Meets and exceeds global industry standards
- 100% Full Contact locking mechanism
- ATEX-assessed
- Accelerated corrosion testing
- 310lbs. (140kg) user capacity
- Completely field-serviceable
- Constant Force technology frictionless energy-absorbing mechanism
- Suitable for use within high vibration environments
- Full training and recertification program

Anchorage Connectors: Window Washing Applications

Pushlock™ Fall Protection

When access from inside a building is needed to carry out external work such as window washing, Latchways PushLock delivers a stable, secure solution. With a range of sockets for fixing to brickwork, concrete and steelwork, it can be secured in walls, floors or ceilings. PushLock provides an internal fixed anchor to which workers can attach a lanyard and safety harness—allowing them to confidently take on the job.

- Eyebolt requires two-handed operation, making accidental removal impossible
- A variety of colors and finishes available including stainless steel, brass and a range of RAL colors
- Socket and eyebolt both statically tested to 2248 lbs (10 kN)
- Meets all relevant national and international standards

Rope Grabs and Vertical Lifelines

Rope Grabs are designed as a means of fall arrest between a worker wearing a compatible full-body harness and a suitable lifeline system. They are used to arrest the user in a fall from a working height and suspend the user until rescue can be affected.

Ladder Climbing Equipment: Permanent

SureClimb™ Cable Systems

- Provide fall protection when climbing or descending ladders or vertical structures up to 300 feet
- Uses a stainless steel fall arrester
- Uses a 5/16" galvanized steel cable

SureClimb Extension Davit and Base Assembly

PART NO.

10036032 Extension davit and base assembly

SureClimb Slider

- Fall arrester

PART NO.

10040010 SureClimb Slider w/ carabiner

SureClimb Slider can be attached and removed anywhere along the length of cable

Ladder Climbing Equipment: Permanent

Dyna-Glide® Climbing System

- Can be attached to almost any structure that is permissible to climb
- Limits total fall distance to inches
- Components for complete rescue systems
- Allows for vertical and horizontal mobility
- Galvanized or stainless steel for corrosion resistance
- Your choice of ladder/rail combination (LRC) or rail only
- Provides smooth travel—there's no binding of the fall arresters inside the rail
- Detachable, lightweight, stainless steel, and aluminum mechanism for hands-free ascent and descent
- Variety of accessories to enhance mobility and provide continuous protection, convenience, and comfort (if needed)

PRODUCT	SureClimb Permanent System

	506389	LRC standoff bracket, bottom, galvanized
	506390	LRC, galvanized (CSA Part No. 10006461)
	506391	LRC side rail connector, galvanized

MSA Stanchion

Steel and Concrete

Features

MSA's steel stanchion allows you to construct your own temporary horizontal lifeline on steel or concrete substrate.

The system is lightweight and portable, and installation is made easier with the unique clamp design. When installing on a beam, only one location is needed for tightening and this can be done by hand—no need for additional wrenches.

Interchangeable stanchion posts enable systems for steel applications to be converted to concrete applications and vice versa to maximize your investment.

Specifications

Standard Base Fits 6 in.- to 18 in.-wide flange up to 2¼" thick

Large Base Fits 12 in.- to 36 in.-wide flange from 2¼" to 3⅝" in.

Compatible with MSA Dyna-Line and Gravity HLLs

Material Zinc-plated steel

Weight 45–67 lb.

Install Type Temporary

Lifeline Material Ordered separately

Applications Construction, OGP, General Industry, Transportation

Span Type Single span

Weight Capacity Refer to Temporary Horizontal Lifeline

Standards OSHA

Compatible MSA HLL Lengths and Configurations

Sure-Line Cable

- 40 ft. / 2-man
- 60 ft. / 1-man

Dyna-Line Rope (Red)

- 60 ft. / 2-man

Concrete Stanchion

- 60 ft. / 2-man—both Sure-Line and Dyna-Line

Horizontal Lifelines: Temporary

MSA Cable and Rope Temporary Horizontal Lifelines

The completely toolless installation of MSA’s THLLs helps to save time and increase efficiency when setting up lifelines on the jobsite.

- Integrated locking and tensioning mechanism on the handle—eliminating the need for nuts, bolts and wrenches.
- Easy-to-read red and green visual indicators let the user know the system is locked, tensioned and ready for use.
- Lightweight, flexible cable helps make installation easy to complete by a single worker.
- Patented bypass shuttles help 2 users maintain 100% tie-off—increasing mobility without sacrificing safety.
- Locking and tensioning mechanisms are on the same side—no need to travel back and forth for set-up.

Horizontal Lifelines: Temporary

Gravity Dyna-Line® Temporary Synthetic Horizontal Lifeline

Designed for easy installation and removal, the Dyna-Line Horizontal Lifeline temporary horizontal lifeline system can be mounted to any suitable 5,000-lb.-rated anchorage point and can be rigged using many standard components, eliminating the need for special or engineered equipment.

- Patented bypass shuttles allow users to pass each other on the same system while maintaining 100% tie-off
- 12-strand red rope does not hockle and minimizes fall distance due to low stretch properties
- Integral line tensioner helps to ensure proper lifeline tensioning before use
- One- or two-worker system
- Shock absorber on two-worker system clearly indicates when system has experienced fall arrest forces and should be removed from service
- Can be rigged using many standard components, reducing the need for special or engineered equipment
- Lengths up to 200 ft.; comes in handy bucket for lengths up to 60 ft.

Rescue Equipment: MSA Latchways® Personal Rescue Device (PRD®)

PRD

- Consists of full-body harness and integral descender device that conforms to all required standards
- Patented components fit neatly into “backpack,” which zips onto harness
- Lightweight and unobtrusive
- Withstands harsh working environments
- Significantly reduces rescue time
- Lone worker use
- Self-activated
- Intuitive use
- Clear rescue plan
- Improves user safety

PRD Rescue Pole

Designed to be used by a third party. Should the user be unable to conduct a self-rescue, the third party can activate the Latchways PRD's built-in secondary descent release mechanism. The overall length of the pole is 2.7 ft (0.8 m) when retracted and 11.1 ft (3.4 m) when extended.

Rescue Equipment: Anthron Descent Device System

- Manually operated, controlled descent device used for suspended work positioning, self-evacuation, or rescue operations
- Cam assembly provides friction on rope to hold load or allow load to descend at controlled rate
- System consists of 7/16" (11 mm) rope, Anthron Descender and two carabiners
- Device can be installed/removed at any point on the rope
- Proper roping/rigging diagrams on side of Anthron Descender
- Working load of 440 lbs. (200 kg)
- System consists of a 7/16" (11 mm) rope, Anthron Descender, and 2 carabiners

ANTHRON DESCENT DEVICE SYSTEM	SDC726050	System includes: Anthron Descender, 2 carabiners, 50' 7/16" (11 mm) rope
	SDC726100	System includes: Anthron Descender, 2 carabiners, 100' 7/16" (11 mm) rope
	SDC726150	System includes: Anthron Descender, 2 carabiners, 150' 7/16" (11 mm) rope
	SDSD25	Anthron Descender

Anthron systems and replacement ropes available in lengths of 25' increments from 50' up to 600'

Rescue Equipment: Components and Rescue Ropes

10035698	Right-hand ascender with securing rope	

Confined Space/Head First Extraction System

PRODUCT	Confined Space/Head First Extraction System
FEATURES	- Specialized rescue product designed for extreme cases in which rescuer needs to be lowered head-first into confined space to perform rescue - Allows rescuer to harness victim, and raise both victim and rescuer out of confined space - Leaves both hands free for rescuer to assist in retrieval of victim - Consists of adjustable lifting strap (A), adjustable victim strap (B), one pair of ankle harnesses (C), two carabiners (D), and storage bag (E) - Can be used with any confined space retrieval equipment such as tripods and davits - Strength: 5,000 lb. (22 kN) - Weight approx: 2 lb. (0.9 kg)

PART NO.	Description
SRS3100	Confined Space/ Head First Extraction System
SRS3103	Rescue anklets
507002	Rescue wristlets

Fall Protection Rescue Kit

Pole Adapter
P/N SCE109001

Remote Hook
P/N SRCA401

Adjustable Pole
P/N SFP675009

Storage Bag

Rescue Utility System

PRODUCT	FP Protection Rescue Kit
FEATURES	• Out-of-the-bag rescue system • Remote hook and extension pole allow for remote attachment of rescue line to victim, while rescue utility system allows rescuer to raise or lower victim to safety • Kit should be used with back-up system (not included)

PART NO.	Description
10030025	Fall Protection Rescue Kit

Rescue Pole/Remote Hook

Adjustable Pole
P/N SFP675009

Pole Adapter
P/N SCE109001

Remote Hook

Storage Bag
P/N SRB675009

Attaching remote hook to D-Ring

PRODUCT	Rescue Pole/Remote Hook
FEATURES	• Rescue tool for retrieval of worker suspended in fall arrest system or for remote rescue access • System includes adjustable fiberglass pole, pole adapter, and remote hook • Optional nylon storage bag

PART NO.	Description
SFP675009	Adjustable pole, fiberglass, 6' (1.8 m) to 12' (3.6 m)
SFP675012	Adjustable pole, fiberglass, 8' (2.4 m) to 24' (7.3 m)
SRCA401	Remote hook, aluminum, with web sling
SCE109001	Pole adapter, aluminum/rubber
SCE109003	Pole adapter, 6' (1.8m), aluminum/rubber
SRB675009	Storage bag for SFP675009

General Accessories

Hands-Off™ Chisel Grip

- Keeps hands away from point of contact
- Ergonomically designed to match specific shape of human hand for comfortable and firm grip
- Permits faster, safer, more accurate work
- Easy adjustment to hold variety of chisels and stakes up to 1" diameter
- Vibration-absorbing handle
- Eases awkward hand positioning
- Economical
- Spark resistant

PART NO.	
10040018	Hands-Off Chisel Grip

Ergonomic Tool Holders

- Holds wrenches, chisels, etc.
- Vibration-absorbing design
- Attach to broom handles and mops for better grip
- Eases awkward hand positioning

PART NO.	
507005	Tool Holder, 18"
507006	Tool Holder, spark resistant, 18"

MSA Safety Training

MSA Virtual Led Training

As your trusted partner in safety training and awareness, MSA is now offering Virtual Led Training (VLT) courses. This new VLT offering means courses are conducted via video conferencing with an MSA Training Instructor in the same manner as our current in-person training, and follow the same class format and content that would happen on-site. VLT gives you a real-time learning experience as if you were participating in an in-person session. Courses can be:

- Customized to the certifications you and your team members need
- Completed via video conference from any location
- Scheduled for the date and time that works best for you

The following is the current list of courses being offered in the VLT format:

COMPETENT USER LEVEL

- Comp User for Portable Instruments (4 hours)
- Comp User for Permanent Instruments
(TBD depending on number of instruments)
- Comp User for SCBA (4 hours)

RITE CERTIFICATION

- RITE (Repair Instrument Training Education) (1.5 days/12 hours)
- FIRST (Fixed Instrument Repair and Service Training)
(TBD depending on number of instruments)

CARE

- CARE1.5 (CARE Initial Certification - No G1) (12 hours)
- G1CARE-8HR-FIRE (G1 CARE Certification Upgrade - NFPA) (8 hours)
- G1CARE-8HR-IND (G1 CARE Certification Upgrade - Industrial) (8 hours)
- G1CARE-12HR-FIRE (G1 CARE Initial Certification - NFPA) (12 hours)
- G1CARE-12HR-IND (G1 CARE Initial Certification - Industrial) (12 hours)

CONFINED SPACE

- CSAWARE (Confined Space Awareness) (8 hours)
- CONFINEDSPACE (Confined Space Entry & Operations) (16 hours)

SAFETY AT HEIGHTS

- FPAWARE (Fall Protection Awareness) (4 hours)
- CPINSPECT (Competent Person for Equipment Inspection) (4 hours)
- CPHEIGHTS (Competent Person for Safety at Heights) (16 hours)
- APHEIGHTS (Authorized Person for Safety at Heights) (8 hours)
- TTCHHEIGHTS (Train-the-Trainer for CP Safety at Heights) (8 hours)
- CPSHRECERT (Recertification for CP Safety at Heights) (8 hours)
- FPINSTALLER-RECERT (Latchways Systems Installer Training Recertification) (8 hours)
- MERIT-LW2 (Latchways Level 2 SRL Service & Repair) (8 hours)
- MERIT-LWR (Latchways Level 2 SRL Recertification) (4 hours)

RECERTIFICATION

- RITE (8 hours)
- FIRST (TBD depending on number of instruments)
- CARE (8 hours)

For more information regarding these classes or scheduling please contact the Training Department at:

Phone: 1-866-347-6093

Email: training@MSAsafety.com

MSA In-Person Training Courses

Safety at Heights Training Courses

FALL PROTECTION AWARENESS (4 HRS)

- ABCs of fall protection
- Proper selection, pre-use inspection and care of fall protection equipment
- Proper donning and doffing of a harness
- Hazard recognition, evaluation and control
- Fall clearance calculations

COMPETENT PERSON FOR EQUIPMENT INSPECTION (4 HRS)

- Consensus standards
- Formal documentation requirements
- Formal inspection process
- Equipment cleaning and storage

AUTHORIZED PERSON FOR SAFETY AT HEIGHTS (8 HRS)

- Consensus standards
- Dynamics of a fall
- Fall hazard recognition and assessment
- Understanding impact forces
- Procedures for continuous Safety at Heights
- Selection, application and use of fall protection systems
- Calculating fall clearances

RESCUE PLANNING FOR SAFETY AT HEIGHTS (4 HRS)

- Risk assessment of fall hazards
- Planning and proper rescue procedures
- Hierarchy of rescue
- Selection of rescue equipment
- Rescue training and simulations

COMPETENT PERSON FOR SAFETY AT HEIGHTS (16 HRS)

- Authorized Person for Safety at Heights course
- Competent Person for Equipment Inspection course
- Rescue Planning for Safety at Heights course

COMPETENT PERSON TRAIN-THE-TRAINER (8 HRS)

- Assessment and identification of safety at height hazards
- Discussion of fall protection safety program development based on the needs of the specific site and regulatory requirements
- Analyzing student comprehension and help them to remember company procedural mandates for safety at height
- Guidance on performing practice exercises related to fall protection

COMPETENT PERSON FOR SAFETY AT HEIGHTS REFRESHER (8 HRS)

See Competent Person for Safety at Heights course

QUALIFIED PERSON (24 HRS)

Designed for Engineers, Designers and Safety Professionals who are responsible to analyze or design fall protections systems.

COMPETENT PERSON FOR HORIZONTAL LIFELINE INSTALLATION & INSPECTION (4 HRS)

- Design statement, use and limitations
- Installation procedures
- Inspection criteria, including pass/fail & disposal
- Cleaning and storage

ON-SITE DOCUMENTED COMPETENT PERSON EQUIPMENT INSPECTION

Our experienced and trained team will come to your facility to perform a documented and thorough competent inspection of all your safety equipment and provide your organization with a detailed written report documenting the product, serial number, description, pass/fail and overall disposition.

Confined Space Training Courses

CONFINED SPACE BASIC ROPE RIGGING AND RESCUE (8 HRS)

Learn the basics of rope theory and use, including utilizing pulleys and rope to create mechanical advantage and system knots that will be used in constructing a "Z-Rig" haul system. Concludes with a practice evolution where students are given a scenario of a downed worker inside a confined space and asked to perform a rope rescue utilizing the tools and techniques demonstrated to them throughout the day.

CONFINED SPACE ENTRY TRAIN-THE-TRAINER (8 HRS)

Designed to prepare employees that must train select confined space courses and material at your facility. The class provides the student the necessary skills to develop, deliver and evaluate students on basic confined space knowledge and technical understanding.

CONFINED SPACE ENTRY & OPERATIONS (16 HRS)

2-day Confined Space Entry & Operations training course is technical in nature, comprehensive, performance-based and taught by an in-house trained and certified professional instructor. Our Technical Training incorporates information and skills required by all applicable regulatory bodies.

- Discussion of the types of hazards that can turn a regular space into a "permit-space"
- Procedures to be followed when a permit-space is to be entered

CONFINED SPACE AWARENESS (8 HRS)

1-day training course is designed for those individuals who are responsible for managing and overseeing employees working in confined space entry activities.

- Define confined space
- Identify typical hazards and associated risks
- Explain roles, responsibilities and procedures for confined space operations

MSA has regularly scheduled training courses at our **Pittsburgh, Houston, Corona, Edmonton and Toronto facilities.**

We will also come to your facility, training your employees in their work environment; addressing the specific hazards they face on a regular basis.

Contact us at 866.347.6093, training@msasafety.com, or visit our website www.msasafety.com

MSA In-Person Training Courses

MSA Latchways Training Courses

MSA LATCHWAYS COMPETENT PERSON FOR SRL INSPECTION COURSE (4 HRS)

- Consensus Standards
- Formal documentation requirements
- Formal inspection process, including the criteria for pass/fail and disposal
- Equipment cleaning and storage

MSA LATCHWAYS TECHNICAL LEVEL SRL MAINTENANCE COURSE (8 HRS)

- Explain theory of operation MSA Latchways SRLs
- Demonstrate disassembly and inspection process
- Demonstrate reassembly and functional test
- Demonstrate testing procedure
- Perform quality assurance inspection

RECERTIFICATION: MSA LATCHWAYS SRL INSPECTION OR MAINTENANCE TRAINING COURSE (4 HRS)

- For technicians who require a new three (3) year recertification for either the Level 1 Competent Person for Inspection certificate or the Level 2 Technician Maintenance certificate

MSA Fall Protection Demo Truck

MSA—The Safety Company

Established in 1914, MSA Safety Incorporated is the global leader in the development, manufacture, and supply of safety products that protect people and facility infrastructures. Many MSA products integrate a combination of electronics, mechanical systems, and advanced materials to protect users against hazardous or life-threatening situations. The company's comprehensive product line is used by workers around the world in a broad range of markets, including the oil, gas, and petrochemical industry, the fire service, the construction industry, mining, and the military. MSA's core products include self-contained breathing apparatus, fixed gas and flame detection systems, portable gas detection instruments, industrial head protection products, firefighter helmets and protective apparel, and fall protection devices. With 2023 revenues of \$1.8 billion, MSA Safety is headquartered in Cranberry Township, Pennsylvania and employs a team of over 5,000 associates across its more than 40 international locations. For more information visit MSA's web site at www.MSAsafety.com.

Our Mission

MSA's mission is to see to it that men and women may work in safety and that they, their families, and their communities may live in health throughout the world.

MSA: WE KNOW WHAT'S AT STAKE.

Note: This Bulletin contains only a general description of the products shown. While product uses and performance capabilities are generally described, the products shall not, under any circumstances, be used by untrained or unqualified individuals. The products shall not be used until the product instructions/user manual, which contains detailed information concerning the proper use and care of the products, including any warnings or cautions, have been thoroughly read and understood. Specifications are subject to change without prior notice. MSA is a registered trademark of MSA Technology, LLC in the US, Europe, and other Countries.
