

050 RR Tiles

Interlocking tiles for high impact durability, minimal maintenance and slip resistance

Made of 100% recycled rubber, RR Tiles feature a dense construction that provides high impact durability making it also scuff and stain resistant. Combine anti-fatigue and ergonomic comfort properties with minimal maintenance and is slip resistance in both wet or dry conditions. The product is suitable for indoor applications that require resilience, sound absorption, spike resistance and has high traction even when wet. RR Tiles are resistant to water based liquids including urine. RR Tiles are easy to install and maintain with the built-in interlocking system. For light-duty applications, tiles can be laid directly on floor with no glue or adhesive. Where there will not be heavy objects dropped on the ground or equipment being moved or dragged across the floor frequently, double-sided tape at the perimeter and seams is recommended. For heavy-duty applications, where there is pneumatic tire traffic (forklifts) or heavy foot traffic, it is recommended to glue mat down.

- Environmentally friendly resilient non-porous flooring
- Shock Absorbent. Slip Resistant (Wet & Dry Areas)
- Not effected by cold weather; will not expand or become brittle or hard
- Will not harbor or promote bacteria
- Mat will not curl at the edges
- 3/8" (9.5mm) thickness for heavy duty gyms & commercial applications Must order a minimum of 15 tiles per color and 1 tile increments thereafter
- Made in the USA

Stock Sizes	3'x3'
Thickness	3/8"
Colors	 Blue Gray  Black  Blue  Gray  Tan
Product Group	Ergonomic, Anti-fatigue & Safety Matting
Environment	Indoor/Outdoor
Usage Intensity	Heavy duty
Material	Recycled Rubber
Product Weight sqft in lbs	1.78
Process	Compression Molding
Reach	Reach compliant (Registration, Evaluation, Authorization and Restriction of Chemicals).
Prop 65 Warning	Prop 65 Complaint
