Features

- Striking face wrenches are designed to be struck by a hammer on the anvil area in order to loosen frozen fasteners or to set and tighten fasteners.
- Anvils are proportional to opening sizes. Special heat treating provides maximum durability for long life.
- Offset handle is close to head to provide clearance in confined areas.
- Williams' expanded line of offset striking face wrenches, up to 4-1/4", provides the most extensive line on the market.
- Specifically engineered to hold up under the most rigorous industrial use.

FRAC PUMP WRENCH
A safer, more durable tool

Product Code	Stud Size
8817AFPW	Frac Pump Wrench

Features

- Specially designed for the oil and gas industry to work on fluid ends of well servicing pumps from all major manufacturers with 3" valve cover retainer nuts
- Offset design with 3" integrated hex driver
- A larger striking surface ensures fewer errant blows
- Offset reduces damage to manifold
- Robust metallurgy ensures a safer tool that is less likely to break
