ALL ITEMS STOCKED &  
READY TO SHIP!

Ideal for circuit board applications- see the + / - embossed marks on the chip!

Inspect the inside of tube products for the quality of machined surfaces, and have flexible, 'shadowless' side lighting when using microscopes.

## Littlite ANSER TASK LIGHT

LED Gooseneck Spotlight • 5-24 Volts

The ANSER® by Littlite may look familiar but we've included some very unique features designed to make the ANSER the most powerful, versatile and energy efficient compact task light on the market. The ANSER uses a single, warm white LED coupled with our new CC (Constant Current) dimming circuitry and we packed it in a new lineal (end-out) gooseneck configuration. The result? Massive light output in a svelte, easy to position gooseneck assembly. The ANSER produces oodles of warm white light.

- Length: 18"
- Light type: LED spot light.
- Includes 110 volt power supply kit.
- USB compatible.

## Littlite CLASSIC LED TASK LAMP

With Mounting Kit and Power Supply •  
LED Dual Color Gooseneck Spotlight • 12 Volts

Littlite LED Dual Color Task Lamp with three-way rotary switch enables users to toggle between white light and red light output. Designed to mount easily on most surfaces but if the spot is too difficult, these lights are compatible with a wide range of versatile mounting accessories. Complete with a 12-inch (30.48 cm) cord set terminating in a 2.1mm socket.

- Length: 18"
- Light type: white and red LED task light.
- Includes 110 volt power supply kit.

## Littlite LW LED DESK LIGHT

LED Gooseneck Desk Light • 12 Volts

The LW LED Desk Light is a highly functional and compact lighting solution designed by Littlite. With an adjustable gooseneck, this desk light is perfect for those seeking a versatile and space-efficient lighting option. The LW LED Desk Light also features a dimming LED that starts at a warm red and smoothly transitions to a crisp white as the intensity increases.
