FINISH IT LIKE A PRO

Our expert metalworking team can partner with you to evaluate your approach to any application and improve cycle times, set-up, and productivity. To request support or abrasive wheel selection assistance, simply scan the adjacent QR code.

PRODUCT BY APPLICATION:

.045" THIN CUT-OFF WHEELS

APPLICATIONS: SEE PAGES 3-5
 Cutting tubes, pipes, rebar, threaded rod, bolts, sheet metal, spiral wound pipe, angle iron, formed metal (e.g. overhead door track), flat bar, railings etc. Type 1 wheels offer superior operator feel, type 27 allows flush and straighter cuts with a higher safety margin.

CHOP SAW WHEELS

APPLICATIONS: SEE PAGES 11-12
 Cutting tubes, pipes, rebar, threaded rod, bolts, angle iron, channel iron, formed metal (e.g. overhead door track), flat bar, railings, steel studs.

FLAP DISCS

APPLICATIONS: SEE PAGES 24-25
 Grind and blend light welds in one pass, deburr edges, clean up welding spatter, break edges on heavier plate, prepare surfaces for painting on heavier weldments (e.g. farm machinery, truck frames and bodies, machinery etc).

HOOK & LOOP AND PSA PAPER DISCS

APPLICATIONS: SEE PAGES 19-22
 Long lasting performance and fast removal rates for fine finishing of auto body, wood, metal, and marine applications. Utilize backing pads (page 23) to adhere hook & loop and PSA paper discs to grinders and sanders.

WIRE WHEELS & BRUSHES

APPLICATIONS:
 Surface cleaning to remove rust, paint and discoloration from welding, light deburring, clean out slag from welds in pipe and plate fabrication when required, cleaning inside parts, surfaces preparation and cleaning prior to welding.

1/4" GRINDING WHEELS

APPLICATIONS: SEE PAGES 6-7
WELD PREP: Beveling edges, fitting up (grinding pieces to fit prior to welding).
CLEAN UP: Grinding welds down to an acceptable size, removing weld spatter, cleaning edges of torch or plasma cut plate.

FIBER DISCS

APPLICATIONS: SEE PAGES 13-18
 Blend welds on sheet metal and light structural steel parts, blend welds on stainless parts prior to polishing, deburr and break edges, clean off spatter.

GAS SAW WHEELS

APPLICATIONS: SEE PAGE 10
 Cutting tubes, pipes, rebar, fencing, railings, roof decking, angle iron, steel grating, scrap yard applications. Concrete pipes, flooring, precast panels, bricks, pavers, stone, PVC pipes.

LAMINATED DISCS

APPLICATIONS: SEE PAGES 26-28
 Grinding and deburring of carbon steel, stainless steel and non-ferrous metals.

 A&M Industrial's expert tech team can help you choose the right United Abrasives solution for the job! Call us or scan the adjacent QR code to request assistance.

.045" CUT-OFF WHEELS

Type 1 / Type 41 • Type 27 / Type 42

A60S – General Purpose

- Special aluminum oxide grain.
- Extremely fast burr-free cutting with long life.
- Exceptional performance.
- For use on **METAL**

Z-TECH™ – High Performance

- Special zirconium grain formula.
- Hard bond for extremely long life.
- Fast, burr-free cutting.

SAIT.M.X.™ – Thin Metal

- Special bond for cutting sheet metal and other thin gauge metals.
- Fast, burr-free cutting.
- Only available in Type 1 / Type 41
- For use on **METAL & STAINLESS**

A46N – Aluminum

- Soft bond for aggressive cutting without loading.
- Aluminum oxide grain.
- For use on **ALUMINUM**

.045" CUT-OFF WHEELS

Type 1 / Type 41 • Type 27 / Type 42

SAITECH™

THE ULTIMATE CUT™

THE ULTIMATE CERAMIC™

XA46R

SAITECH™ – High Performance

- High performance, ceramic aluminum oxide grain.
- Uniform, high density grain structure is extremely durable and self-sharpening.
- Fast cutting with extremely long life.
- For use on **STAINLESS & METAL**

The Ultimate Cut™ – Premium Performance

- Best in class for cutting a wide range of stainless thin & thick gauge, flat stock, bar stock, square tubing, etc.
- For use on **STAINLESS, METAL & ALUMINUM**

The Ultimate Ceramic™ – Premium Performance

- Premium ceramic aluminum oxide grain is exceptionally long lasting on carbon steel, stainless steel, and hard to grind alloys.
- For use on **METAL & STAINLESS**

XA46R – Contaminant Free

- Specially formulated for nuclear and food processing plants, and for contaminant-free cutting on stainless.
- Free of iron, chlorine and sulfur compounds (Fe + Cl + S < 0.1%).
- For use on **STAINLESS**

THIN HIGH SPEED CUT-OFF WHEELS

Type 1 / Type 41

A36T

SAITECH ULTIMATE PERFORMANCE™

A24R

- Aluminum oxide grain.
- General purpose, long life.
- For use on **METAL**

A36T

- Aluminum oxide grain.
- Hard bond for aggressive cutting on rough applications.
- For use on **METAL & STAINLESS**

A60T

- Hard bond for smooth cutting.
- For use in nuclear, aerospace, automotive, foundry industries, and plant maintenance.
- For use on **METAL & STAINLESS**

Saitech Ultimate Performance™

- High performance, ceramic aluminum oxide grain.
- Very uniform, high density grain structure is extremely durable and self-sharpening for long life and cooler cut.
- Combines fast cutting with extremely long life.
- For use on **STAINLESS & METAL**

1/4" GRINDING WHEELS

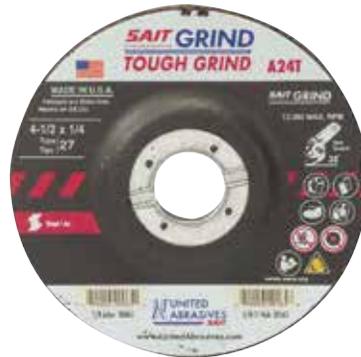

Type 27

A24N

A24R

A24T

SAIT Z-TECH™ Z24R

A24N – Fast Grinding

- Aluminum oxide grain.
- Soft bond for fast stock removal.
- For use on **METAL & STAINLESS**

A24R – Long Life

- Aluminum oxide grain - our most popular wheel.
- For general purpose grinding.
- Longer life for fewer wheel changes.
- For use on **METAL**

A24T – Tough Grind

- Aluminum oxide grain.
- Hard bond designed for edge and bevel grinding and other applications where a harder wheel is preferred.
- Longer life for fewer wheel changes.
- For use on **METAL**

SAIT Z-TECH™ – Z24R

- High performance, tough zirconium grain.
- High performance grinding for the toughest applications.
- For use on **METAL & STAINLESS**

The Ultimate Grind™ Ceramic – Extremely Fast Grinding

- Our best choice for maximum stock removal.
- Premium high ratio ceramic grain for increased efficiency and performance.
- For use on **METAL & STAINLESS**

The Ultimate Grind™ – Premium Performance

- Proprietary grain and bond system.
- Premium performance for severe edge grinding.
- For use on **METAL & STAINLESS**

Saittech Attacker® – Fast Grinding

- Soft bond for extremely fast stock removal on hard metals with minimal pressure.
- High performance, ceramic aluminum oxide grain, is designed to outlast standard aluminum oxide wheels.
- Very uniform, high density grain structure for long life and cooler cut.
- For use on **STAINLESS & METAL**

Saittech Ultimate Performance™ – Premium Performance

- Hard bond for long life grinding with fast stock removal.
- High performance, ceramic aluminum oxide grain, is designed to outlast standard aluminum oxide wheels.
- Very uniform, high density grain structure for long life and cooler cut.
- For use on **STAINLESS & METAL**

1/8" PIPELINE WHEELS

Type 27

A24R PIPELINE

SAIT Z-TECH™

SAITECH™ PIPELINE

THE ULTIMATE PIPELINE™

A24R Pipeline

- Aluminum oxide grain.
- Designed and manufactured to perform both cutting and light grinding.
- For use on **METAL**

Sait Z-Tech™

- Tough zirconium grain.
- High performance cutting and light grinding for the toughest applications.
- For use on **METAL & STAINLESS**

Saitech™ Pipeline

- High performance, ceramic aluminum oxide grain.
- Uniform, high-density grain structure is extremely durable and self-sharpening for long life and a cooler cut.
- Manufactured with proprietary ceramic abrasive grain to outlast standard aluminum oxide wheels.
- Long life combined with versatility for the pipeline industry.

• For use on **STAINLESS & METAL**

The Ultimate Pipeline™

- Features our proprietary grain and bond system.
- Fast, free-cutting with long-lasting life.
- Premium performance cutting and light grinding for even the toughest applications.
- For use on **METAL & STAINLESS**

THE ULTIMATE PIPELINE™ CERAMIC

The Ultimate Pipeline™ Ceramic – Premium Performance

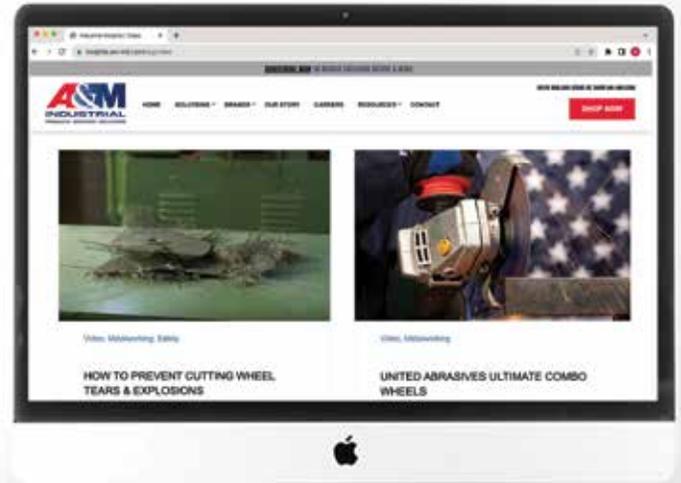

- Features United Abrasive's proprietary high-ratio blend of ceramic grains for maximum stock removal.
- Extremely fast, free-cutting with exceptional life for the toughest applications.
- Easy to control, non-glazing design.
- Ideal for root pass grinding.
- For use on **METAL & STAINLESS**

YOUR SOURCE FOR TECHNICAL ADVICE & EXPERTISE:

A&M's online blog and resource center features exclusive articles, videos & downloadable guides that are focused on metalworking, safety, and manufacturing. Find helpful, expert-level advice and content that includes:

- Best practices and recommendations.
- 'How to', step by step application videos and instructions.
- Troubleshooting and problem solving techniques.
- Product introductions.
- FREE, downloadable reference charts, guides, and more.

HOW TO PREVENT CUTTING WHEEL TEARS & EXPLOSIONS

UNITED ABRASIVES FLAP DISCS 101

UNITED ABRASIVES ULTIMATE COMBO WHEELS

HOW TO CHOOSE THE RIGHT CUTTING WHEEL FOR YOUR ANGLE GRINDER

12" & 14" PORTABLE SAW WHEELS

Type 1 / Type 41

A24R

SAIT PRO

BRUTE™

A24R

- Special aluminum oxide grain provides consistent performance with long life.

- For use on **METAL**

SAIT PRO

- Aluminum oxide grain.
- Best value for a fast cut.
- For use on **METAL**

BRUTE™

- Long life, extremely hard bond for cutting metals that present a very sharp edge to the wheel.
- For use on **METAL**

UNITED ABRASIVES LABELS:

YOUR AT-A-GLANCE SOURCE FOR IMPORTANT PRODUCT & APPLICATION INFORMATION

United Abrasive labels list pertinent information that includes a product's specifications, maximum recommended cutting speed, and the materials, tools, and machinery the product should be used with.

In addition, operators should refer to each label for a list of important safety precautions that should be taken in order to minimize risk of injury and ensure proper usage of the product.

FLAP DISC PACKAGING:

INNOVATIVE BULK PACKAGING

United Abrasives' bulk spindle packaging assures that each disc remains perfectly flat. The unique design offers the convenience of easy access and can be re-tightened to ensure that your discs are flat when you need them.

BLUE LINE™ PACKAGING

Blue Line™ Packaging is UPC bar coded. Used for retail packaging in convenient smaller quantities.

SAIT-LOK™ QUICK CHANGE 5/8"-11 HUB

The SAIT-LOK™ hub recesses into the center cavity of the backing pad to provide a flat profile, increasing usable abrasive surface area up to 100% to get the job done faster and cooler. Available in Blue Line™ packaging only.

HIGH PERFORMANCE FIBER DISCS

Ceramic

7S – Ceramic – High Performance

- High performance, ceramic grain.
- Excellent for carbon steel grinding and finishing.
- For use on **METAL**

9S – Ceramic – High Performance With Grinding Aid

- High performance, ceramic aluminum oxide grain.
- Grinding aids for reduced heat and decreased loading.
- Excels on heat sensitive materials (stainless steel, etc.) and non-ferrous metals (aluminum, etc.) with an exceptional performance and value.
- For use on **STAINLESS, METAL & ALUMINUM**

PREMIUM PERFORMANCE FIBER DISCS

7-II Ceramic • 9.3 Power Max Ceramic • C Silicon Carbide

7-II CERAMIC

9.3 POWER MAX CERAMIC

7-II Ceramic – Premium Performance

- Our highest performing disc for carbon steel.
- High density ceramic grain for maximum performance.
- For use on **METAL**

9.3 Power Max Ceramic – Premium Performance With Grinding Aid

- 100% ceramic abrasive grain.
- Special grinding aids for reduced heat and loading and allows for cool cutting.
- Highest performing disc for stainless and high alloyed steels.
- For use on **STAINLESS, METAL & ALUMINUM**

C Silicon Carbide

- Silicon carbide grain.
- Recessed center hole helps avoid scratching of the surface.
- Close coat structure for more material removal on various materials.
- For use on **CONCRETE & METAL**

PSA PAPER DISCS ROLLS

Perforated For Easy Disc Tear Away From Roll

Gold Stearated Aluminum Oxide

- Aluminum oxide grain provides a fast cut & long life.
- Stearate coating and semi open coat structure prevents loading – for dry use only.
- For automotive body work, removing varnish from wood, sanding fiberglass, and for use on metal.
- For use on random orbital or low speed DA sanders.
- Packaging: 1 roll per box (100 pieces per roll).

6A Stearated Aluminum Oxide

- Our best economy disc.
- Aluminum oxide grain.
- Stearate coating and open coat structure lubricates and prevents loading.
- Packaging: 4 rolls per box (100 pieces per roll).

3S Stearated Aluminum Oxide

- Aluminum oxide grain – for dry use only.
- Stearate coating and open coat structure lubricates and prevents loading.
- Excels on wood and bare metal surfaces.
- Packaging: 4 rolls per box (100 pieces per roll).

4S Premium Stearated Aluminum Oxide

- Our best performing, longest lasting paper disc.
- Fast removal rates for fine finishing of auto body, wood, metal, and marine applications.
- Premium stearate coating and open coat structure lubricates and prevents loading – for dry use only.
- Packaging: 4 rolls per box (100 pieces per roll).

6S Premium Stearated Ceramic

- Best in class premium ceramic grain.
- Premium stearate coating prevents loading.
- Fast stock removal with exceptional long life.
- Packaging: 4 rolls per box (100 pieces per roll).

GOLD STEARATED AO DISCS

For use on **PAINT, METAL, ALUMINUM & WOOD**

†Stocked quick ship item.

A-E Aluminum Oxide – Heavy Duty

- For aggressive sanding, preparation and stock removal.
- Aluminum oxide grain for material removal, long life and finishing.
- For use on **WOOD & METAL**

Z-F Premium Zirconium – Heavy Duty

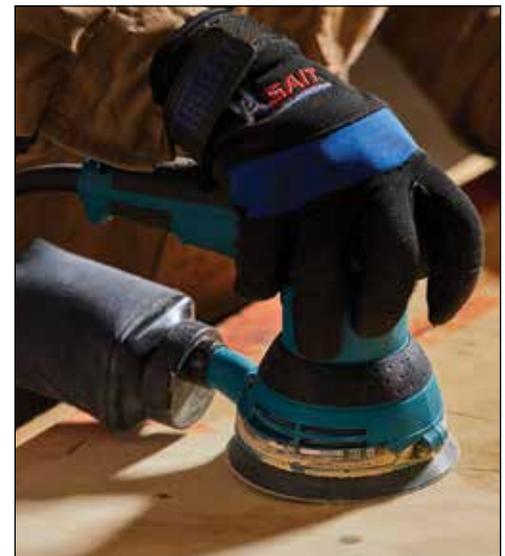

- Best choice for aggressive sanding, preparation and stock removal.
- Zirconium grain for aggressive material removal and long life.
- For use on **WOOD & METAL**

C-E/C-F Silicon Carbide – Heavy Duty

- Premium silicon carbide grain on a tough paper backing.
- Designed for fine finishing and long life.
- For use on **CONCRETE & METAL**

HOOK & LOOP PAPER DISCS

Hook & Loop Fastening System Allows For Quick Changes & Less Downtime • With Holes

6S PREMIUM STEARATED CERAMIC

6A Stearated Aluminum Oxide

- Our best economy disc.
- Aluminum oxide grain.
- Packaging: 4 rolls per box (100 pieces per roll).
- Stearate coating and open coat structure lubricates and prevents loading.

3S Stearated Aluminum Oxide

- Aluminum oxide grain – for dry use only.
- Stearate coating and open coat structure lubricates and prevents loading.
- Excels on wood and bare metal surfaces.
- Packaging: 4 rolls per box (100 pieces per roll).

4S Premium Stearated Aluminum Oxide

- Our best performing, longest lasting paper disc.
- Fast removal rates for fine finishing of auto body, wood, metal, and marine applications.
- Premium stearate coating and open coat structure lubricates and prevents loading – for dry use only.
- Packaging: 4 rolls per box (100 pieces per roll).

6S Premium Stearated Ceramic

- Best in class premium ceramic grain.
- Premium stearate coating prevents loading.
- Fast stock removal with exceptional long life.
- Packaging: 4 rolls per box (100 pieces per roll).

A-E Aluminum Oxide – Heavy Duty

- For aggressive sanding, preparation and stock removal.
- Aluminum oxide grain for material removal, long life and finishing.

For use on **PAINT, METAL, ALUMINUM & WOOD**

- Spiral ribs provide contact points and form channels for air flow extending discs life 30% to 50%.
- Each pad is supplied with a nut as indicated. Additional nuts may be purchased separately.
- Exclusive rubber, fabric and fiber board construction provides extra strength and reliability.

NOTE:

This backing pad is not to be used with SAIT-LOK™ quick change fiber discs.

OVATION® FLAP DISCS

Type 27 • High Density (40% More Material)

OVATION®

Ovation®

- Heavy duty zirconium grain, for high pressure applications.
- For use on **METAL & STAINLESS**

Ovation® Attacker®

- For a wide variety of grinding and finishing applications.
- For use on **STAINLESS, METAL & ALUMINUM**

Ovation® Ceramic

- Premium ceramic grain outlasts conventional zirconium.
- For use on **METAL & STAINLESS**

Ovation® Stainless

- Premium aluminum oxide with grinding aid.
- For use on **STAINLESS & ALUMINUM**

ALUMINUM OXIDE LAMINATED DISCS

General Purpose

2A Aluminum Oxide

- Aluminum oxide grain.
- General purpose, long life.
- Easy disc changes by twisting to unlock backing pad.
- For use on **METAL & WOOD**

3A Aluminum Oxide With Grinding Aid

- Aluminum oxide grain with grinding aid.
- Cooling agents for cool cutting and long life.
- Easy disc changes by twisting to unlock backing pad.
- For use on **STAINLESS, METAL & ALUMINUM**

9S Ceramic Aluminum Oxide (Grinding Aid)

- Excels on heat sensitive materials (stainless steel, etc.) and non-ferrous metals (aluminum, etc.) with an exceptional performance and value.
- High performance, ceramic aluminum oxide grain.
- Grinding aids for reduced heat and decreased loading.
- Easy disc changes by twisting to unlock backing pad.
- Features unique composite Sait-Lok™ hub for added strength.
- For use on **STAINLESS, METAL & ALUMINUM**

HEAVY DUTY LAMINATED DISCS

Premium Performance

Z-H SAIT-LOK™

2A-H SAIT-LOK™

Z-H Zirconium

- High performance zirconium grain.
- Extremely fast stock removal and long life.
- Triple laminated construction for severe pressure applications where conventional laminated discs have too much flex.
- Features unique composite Sait-Lok™ hub for added strength.
- Excellent for edge grinding, deburring, and weld preparation and removal.
- For use on **METAL & STAINLESS**

2A-H Aluminum Oxide

- Aluminum oxide grain.
- Fast stock removal and excellent edge grain retention.
- Triple laminated construction for severe pressure applications where conventional laminated discs have too much flex.
- Unique composite Sait-Lok™ hub for added strength.
- Excellent for edge grinding, deburring, and weld preparation and removal.
- For use on **METAL & WOOD**
