L-KEYS

Premium L-key set made of stainless steel for imperial hexagonal socket screws by Wera. Stainless steel prevents transmission of extraneous rust. The Hex-Plus profile offers larger contact surfaces in the screw head. The notch effect is reduced to a minimum and the destruction of the screw head is almost eliminated. With hexagonal ball tip at the long arm: The ball-shaped tip profiles enable the tool shaft to be moved and pivoted relative to the screw axis which allows screwdriving "around the corner". Take it easy tool finder with color coding by size. In an almost wear-free L-key clip.

Wera 967/9 TX MULTICOLOR HF 1 L-KEY SET

9 Piece Set • Metric • BlackLaser

- Holding function for recessed TORX® screws.
- Take it easy tool finder with color coding according to sizes.

• OUTSTANDING SURFACE PROTECTION

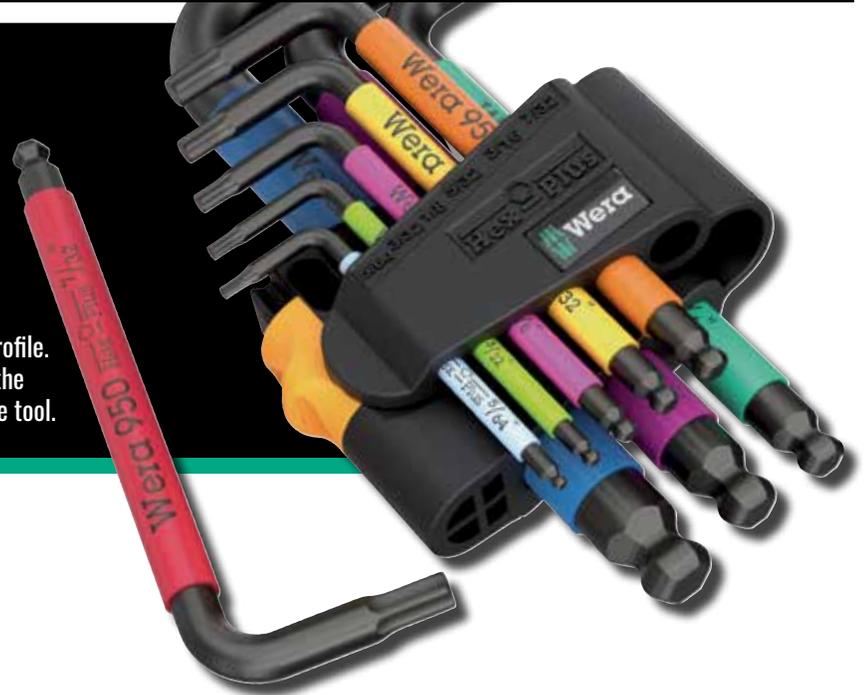

Select Wera solutions are available in a chrome-plated hexagonal design, with a an easy-to-grip, circular thermoplastic sleeve, and with BlackLaser surface treatment.

• AT-A-GLANCE IDENTIFICATION

Select L-Keys feature take it easy tool finder.

• UNMATCHED HOLD

HF L-keys feature an optimized geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile keep the screw securely held on the tool.

8100 ZYKLOP METAL RATCHET SET WITH PUSH-THROUGH SQUARE

28 Piece Set • Imperial Or Metric • 1/2" Drive

28 Piece Imperial Set

28 Piece Metric Set

Incredibly compact set arrangement with many tools in a minimum of space. A completely new ratchet set feeling thanks to the unique textile boxes that are very robust and durable. They can be positioned upright for tidy storage on the workshop shelf. Additional surface protection due to textile outer material. Low weight and volume for simpler mobility.

- Extremely slim ratchet with long lever.
- Return angle of only 4.7°.
- Absolutely smooth switchover of the non-detachable push-through square.
- Take it easy tool finder with color coding according to sizes.

MFR #	INCLUDES	A&M #	PRICE PER SET

8002 C KOLOSS ALL INCLUSIVE SET 5 Piece Set • 1/2" Drive

The ratchet that can also be safely and officially used as a hammer. The Koloss is a reversible, heavy-duty ratchet that can be used with a load of at least 600 Newton meters. The dual ratchet teeth and the minimum return angle of only 6° ensure rapid and precise screwdriving even in confined situations. And the best thing: absolutely no impact on the hammer faces, however hard, can destroy the ratchet mechanism. Multi-component Kraftform handle optimized to withstand pressure, impact and tensile loads; take-up for Koloss extension 8780 C and Koloss centering pin 8781 C at end of handle. Also included in the set: 1 pad to protect materials and surface areas, 1 Koloss extension for the transfer of even more torque, 1 unlocking pin and 1 holster – so the Koloss can always be at hand.

- For loads of at least 600 Newton meters.
- Push-through square drive for right/left switchover.
- Including hammer function.
- Multi-component Kraftform handle optimized to withstand pressure, impact and tensile loads.
- Fine-pitched ratchet mechanism, small return angle of 6°.

MFR #	INCLUDES	A&M #	PRICE EACH
05133862001	(1) 341mm 8002 C with 1/2" Drive; (1) 8782 C Pad Set #2 x 50mm; (1) 8780 C Koloss Extension 341 x 137mm; (1) 8000 E Unlocking Pin 40.5mm, (1) Holster 175 x 75mm	6111652	\$110.45

KRAFTFORM KOMPAKT 28 1 SET 6 Piece Set • Imperial • 1/4" Drive

- Kraftform holder with anti-roll feature, multi-component, bayonet blade and bit magazine.
- Adaptor bayonet with stainless sleeve and strong permanent magnet.
- Suitable for bits with 1/4" hexagon drive (Wera connecting series 1).
- Tough viscous bits for universal use.

MFR #	INCLUDES	A&M #	PRICE PER SET
05073241001	(2) Phillips Bits: #1 and #2; (2) Square Bits: #1 and #2; and (2) Slotted Bits: 1 x 5.5 x 25mm and 1.2 x 6.5 x 25mm	6111034	\$26.06

KRAFTFORM KOMPAKT 60 RA SET 17 Piece Set • Metric • 1/4" Drive

- Kraftform Kompakt 60 RA with ratchet function for high working speeds.
- Kraftform with anti-roll feature, multi-component with Rapidaptor technology.
- Ratchet function Fine-pitched teeth for small return angle; switchover ring (right, fixed, left).
- Maximum torque of up to 50 Newton meters.

Wera KRAFTFORM KOMPAKT 400 RA SET 2

9 Piece Set • Imperial Or Metric • 1/4" Drive

One 411 A RA T-handle adapter screwdriver with ratchet function for 1/4" sockets. The integrated ratchet with fine toothing (80 teeth/return angle 4.5°) eases and accelerates screwdriving without having to reposition the tool. The ratchet mechanism completely embedded in the handle ensures very handy and comfortable work. With reversing lever for comfortable clockwise/counterclockwise direction change in one-hand operation. The ergonomic shape of the handle fills the ball of the hand well, the fingers lie securely in the softly rounded recessed grips. The whole hand comes into contact with the handle, friction loss between hand and handle is avoided. For 1/4" sockets as well as 1/4" connectors with square head drive, with ball lock. 8 Zyklop sockets with 1/4" drive.

- Ergonomic 2-component handle with finger handle recesses and pleasant surface feel for very high-power transmission and fatigue-free working.
- The integrated ratchet with fine toothing ensures fast and safe working.
- Reversing lever for comfortable clockwise/counterclockwise direction change.
- Convenient working thanks to the ratchet mechanism fully embedded in the handle.
- Fast-rotating sleeve for extremely high working speed.
- 1/4" socket mounting with secure ball lock.
- Take it easy tool finder with color coding according to sizes.

MFR #	INCLUDES	A&M #	PRICE PER SET
05057474001	(1) 45mm 411 A RA T-handle adapter screwdriver with ratchet function and 1/4" Drive; (8) Zyklop sockets with 1/4" Drive: 3/16" x 23mm, 7/32" x 23mm, 1/4" x 23mm, 9/32" x 23mm, 5/16" x 23mm, 3/8" x 23mm, 7/16" x 23mm, 1/2" x 23mm;(1) Hook and Loop Fastener Strip 120 x 50mm	6110423	\$93.68

Wera KRAFTFORM KOMPAKT 400 RA SET 1

17 Piece Set • Imperial • 1/4" Drive

One 416 RA T-handle bitholding screwdriver with ratchet function and Rapidaptor quick-release chuck for 1/4" bits. The integrated ratchet with fine toothing (80 teeth/return angle 4.5°) eases and accelerates screwdriving without having to reposition the tool. The ratchet mechanism completely embedded in the handle ensures very handy and comfortable work. With reversing lever for comfortable clockwise/counterclockwise direction change in one-hand operation. The ergonomic shape of the handle fills the ball of the hand well, the fingers lie securely in the softly rounded recessed grips. The whole hand comes into contact with the handle, friction loss between hand and handle is avoided. Bit holder for bits with 1/4" external hexagon drive as per DIN ISO 1173-C 6.3 and E 6.3. With Rapidaptor technology for lightning-fast bit changes. 16 tough bits, 89mm long, for universal use.

- The integrated ratchet with fine toothing ensures fast and safe working.
- Convenient working thanks to the ratchet mechanism fully embedded in the handle.
- Rapidaptor bitholding screwdriver with fast-rotating sleeve for lightning-fast bit changes and high working speeds.
- Fast-rotating sleeve for extremely high working speed.
- Ergonomic 2-component handle with finger handle recesses and pleasant surface feel for very high power transmission and fatigue-free working.
- For bits with 1/4" external hexagon drive as per DIN ISO 1173-C 6.3 and E 6.3.

MAGNETIC RAIL SOCKET SETS PROVIDE:

- **EASY ACCESSIBILITY**
Secure to any metallic surface
- **CONVENIENT, SECURE STORAGE**
Twist-to-unlock function keeps sockets secure
- **AT-A-GLANCE IDENTIFICATION**
Sockets feature Take it easy tool finder

MAGNETIC SOCKET RAIL C IMPAKTOR 1 SOCKET SET 9 Piece Set • Metric • 1/2" Drive

Socket rail with 9 Impaktor sockets for use with electric or pneumatic wrenches with 12.5mm = 1/2" drive. The Impaktor technology ensures a higher-than-average service life even at extreme requirements. The hexagon profile used allows a high power transmission while simultaneously being precise and protecting the profile. Take it easy tool finder with color coding by size helps you find the required tool quickly and easily. The rail allows temporary attachment to metallic surfaces and, with its twist-to-unlock function, ensures secure locking and unlocking of the sockets.

- 9-piece socket set on socket rail, 1/2".
- For use with electric or pneumatic powered impact wrenches with 12.5mm drive.
- Impaktor technology for above-average service life.
- Hexagonal profile enables precise and profile-preserving screwdriving with high power transmission.
- With cross-bore and ring socket for securing locking pin and locking ring of machine-operated tools.
- Take it easy tool finder with color coding according to sizes.

Wera **MAGNETIC SOCKET RAIL A DEEP 1 SOCKET SET**
9 Piece Set • Metric • 1/4" Drive

Socket rail with 9 long manual and machine sockets (non-impact). A smooth rotary mechanism allows a secure hold and easy access of the sockets. Long manual and machine sockets (ISO 2725 part 3) by Wera for manual and (non-impact) machine use even at low lying couplings and protruding thread rods. Take it easy tool finder with color coding by size helps you find the required tool quickly and easily. Slip-proof for easy grip even with oily hands. With hexagon profile and ball stop groove. The hexagon profile enables the transmission of high forces and loads the edges of the bolt or the screw head less than a double hexagon profile. Fine-teethed ratchets also make use of a double hexagon profile superfluous, even in confined spaces, thanks to their small return angle. For external hexagon bolts and screws. The rail allows temporary attachment to metallic surfaces and, with its twist-to-unlock function, ensures secure locking and unlocking of the sockets.

- 9-piece socket set on socket rail, 1/4".
- Rail with secure bit mounting and yet easy removal (twist-to-unlock) for temporary attachment on wall, shelf or workshop trolley.
- Smooth Twist to Unlock mechanism for a secure fit and simple removal of the sockets.
- Long 3/8" socket for low-profile-fitting screw connections in tight construction spaces and for protruding threaded rods.
- Hexagonal profile enables precise and profile-preserving screwdriving with high power transmission.
- Take it easy tool finder with color coding according to sizes.

6001 JOKER SWITCH RATCHETING COMBINATION WRENCH SET

8 Or 11 Piece Set • Imperial Or Metric

8 Piece Imperial Set

- Practical holding function thanks to the metal plate in the jaw.
- Limit stop prevents any slipping.
- Very fine toothing and robust locking element.
- Ratchet end angled by 15°.
- Take it easy tool finder with color coding according to sizes.

Ratchet-end is tilted at 15° to the tool axis for easy use in tight spaces.

Integrated limit-stop prevents slipping off the fastener head.

MFR #	INCLUDES	A&M #	PRICE PER SET
05020093001	8 Piece Imperial Set: 5/16" x 144mm; 3/8" x 159mm; 7/16" x 165mm; 1/2" x 171mm; 9/16" x 187mm; 5/8" x 213mm; 11/16" x 234mm; 3/4" x 246mm; complete in a textile pouch.	6109564	\$306.57

6001 JOKER SWITCH 4 RATCHETING COMBINATION WRENCH SET

4 Piece Set • Imperial Or Metric

4 Piece Imperial Set

As the installation space becomes increasingly tight during screwdriving, it remains necessary that tools enable users to work successfully. Narrow spaces require additional placement points of the tool. Can spanners be modified so that the placement possibilities of the tool increase? The combination of the 7.5° pivoted mouth and the double hexagon geometry doubles the placement points. A repeated 180° turn of the wrench around the longitudinal axis during screwdriving provides four placement possibilities, and bolts or screw heads can be "taken" every 15°. The Joker 6003 with its smart mouth geometry significantly expands the range of uses in confined spaces. The Joker 6003 will automatically find the respective placement point after every turn. The slim yet robust ring side is angled by 15° to the tool axis. The high-quality surface treatment achieves a high and long-lasting corrosion protection. Take it easy tool finder provides color coding by size, allowing easy at-a-glance identification.

- Especially suitable for tight spaces.
- The special mouth geometry expands the placement possibilities of the tool.
- The low return angle in the mouth "takes" the screw every 15°.
- Slim ring side angled by 15°.
- Take it easy tool finder with color coding according to sizes.

MFR #	INCLUDES	A&M #	PRICE PER SET
05020092001	4 Piece Imperial Set: 7/16" x 165mm; 1/2" x 171mm; 9/16" x 187mm; 3/4" x 246mm; complete in a textile pouch.	6109563	\$156.46
05020090001	4 Piece Metric Set: 10 x 159mm; 13 x 179mm; 17 x 225mm; 19 x 246mm; complete in a textile pouch.	6109561	\$161.43

Wera 6003 JOKER IMPERIAL SET 1 COMBINATION WRENCH SETS

8 Or 11 Piece Set • Imperial Or Metric

The Joker 6003 with its smart mouth geometry significantly expands the range of uses in confined spaces. The joker 6003 will automatically find the respective placement point after every turn. The slim yet robust ring side is angled by 15° to the tool axis. The high-quality surface treatment achieves a high and long-lasting corrosion protection. Take it easy tool finder color coding by size allows quick identification. The joker pouches are suitable for attachment to walls, shelves, workshop trolleys and the Wera 2go system thanks to the hook and loop fastener system on the back.

Wera 6004 JOKER VDE-INSULATED SELF-SETTING SPANNER SET

4 Piece Set • The Universal Screwdriving Tool: Self-Setting. Gripping. Spanning.

Individually tested tools as per IEC 60900 at 10,000 V for safe working at the approved voltage of 1.000 V. The adjustable VDE spanner continuously and automatically grips all hexagonal sizes in the indicated range of dimensions - metric and imperial. The integrated lever mechanism securely clamps the hexagon screw or bolt between the jaws, which significantly reduces the risk of slippage or damage. The ratchet feature ensures fast and consistent screwdriving without removing the tool. By using the corner-width rectangular prisms, a back-pivoting angle of only 30° can be achieved. The single-arm design, in conjunction with the ratchet feature and the corner-width prism, makes it possible to work even in confined spaces. The adjustable Joker 6004 VDE has a naturally comfortable handle thanks to the 2-component plastic insulation. Safety is increased by the anti-slip protection at the front end of the handle. The sliding function offers contact-less and safe opening of the non-insulated jaws, thereby providing extra protection.

- The compact textile box with four adjustable Joker 6004 VDE covers all metric and imperial dimensions in the field of application from 7 to 19mm or 1/4" to 3/4".

MFR #	INCLUDES	A&M #	PRICE PER SET

Wera 411 A RA T-HANDLE ADAPTER SCREWDRIVER
 With Ratchet Function • 1/4" Drive

- The integrated ratchet with fine tothing ensures fast and safe working.
- Reversing lever for comfortable clockwise/counterclockwise direction change.
- Convenient working – ratchet mechanism fully embedded in the handle.
- Ergonomic 2-component handle with finger handle recesses and pleasant surface feel for very high-power transmission and fatigue-free working.
- Fast-rotating sleeve for extremely high working speed.
- 1/4" socket mounting with secure ball lock.

MFR #	DESCRIPTION	A&M #	PRICE EACH
05023460001	The integrated ratchet with fine tothing (80 teeth/return angle 4.5°) eases and accelerates screwdriving without having to reposition the tool.	6109888	\$55.44

Wera 416 RA T-HANDLE BIT HOLDING SCREWDRIVER
 With Ratchet Function & Rapidaptor Quick-Release Chuck • 1/4" Drive

The integrated ratchet with fine tothing (80 teeth/return angle 4.5°) eases and accelerates screwdriving without having to reposition the tool. The ratchet mechanism completely embedded in the handle ensures very handy and comfortable work. With reversing lever for comfortable clockwise/counterclockwise direction change in one-hand operation. The ergonomic shape of the handle fills the ball of the hand well, the fingers lie securely in the softly rounded recessed grips. The whole hand comes into contact with the handle, friction loss between hand and handle is avoided.

- The integrated ratchet with fine tothing ensures fast and safe working.
- Reversing lever for comfortable clockwise/counterclockwise direction change.
- Convenient working – ratchet mechanism fully embedded in the handle.
- Ergonomic 2-component handle with finger handle recesses and pleasant surface feel for very high-power transmission and fatigue-free working.
- Fast-rotating sleeve for extremely high working speed.
- Rapidaptor bit holding screwdriver with fast-rotating sleeve for lightning-fast bit changes and high working speeds.

Wera **KRAFTFORM KOMPAKT 900 SET 1**
19 Piece Set • 1/4" Drive

- Compact and robust blade screwdriver set with manually activatable impact wrench function.
- For loosening stubborn screw connections.
- Hammer blow impulse is converted into a rotary movement with a loosening torque of approximately 25 Nm – without loss via a pound-thru blade.
- Reversible functions: impact wrench and screwdriver.
- Specially hardened and extra tough bits with 1/4" external hexagon drive.
- Combines the advantages of manual impact wrenches, compact tools and screwdrivers with pound-thru blade.

The 921 impact screwdriver combines the advantages of interchangeable blade sets, chiseldrivers, and manual impact wrenches.

Impact wrench function can be switched on and off. Switch manual function on to loosen stubborn screw connections.

Wera **921 KRAFTFORM PLUS IMPACT SCREWDRIVER**
1/4" Drive

The impact screwdriver 921 combines the advantages of manual impact wrenches, compact tools and screwdrivers with pound-thru blade. The impact wrench function offers a loosening moment of up to 25 Nm. The robust bit holder allows the mounting of different specialized bits for various screw profiles. The pound-thru blade ensures complete power transmission (zero loss). The impact wrench function and screwdriver function can be switched as required.

SERIES 7400 KRAFTFORM ADJUSTABLE TORQUE SCREWDRIVER 27 PIECE SET

27 Piece Set • Suitable For Bits With 1/4" Hex Head Drive

The set is 0.3-6.0 Nm, with 27 pieces, to include high quality bit assortment including Hex-Plus, TORX®, and TORX Plus® in a stable plastic case. Three screwdrivers included in set: two high precision torque screwdrivers with variable torque settings and one torque screwdriver with Kraftform pistol handle. No special tools are required for quick and simple adjustment of the required torque value, and easy-to-read scale to ensure correct value selected. This set uses rapidaptor quick-release technology for rapid bit change. Multi-component Kraftform handle with hard and soft zones for high working speeds while being easy on the hand.

- Simple setting to required torque.
- Easy-to-read scale value.
- Measurement accuracy of +/- 6% in accordance with standard DIN EN ISO 6789.
- Versatile tool thanks to the Rapidaptor technology.
- Rapid-in and self-lock allowing bits to be pushed in without moving sleeve and held securely, wobble-free.

Rapidaptor technology makes the tool adaptable since bits and sockets can be exchanged rapidly.

Simple setting of the required torque by hand.

Easy-to-read scale value.

Measurement accuracy is ±6% in accordance to DIN standard EN ISO 6789. Distinctly audible signal when preset torque is reached.

Wera **TOOL-CHECK PLUS SET**
39 Piece Set • Imperial & Metric • 1/4" Drive

39 Piece Imperial Set

39 Piece Metric Set

Combination tool consisting of a ratchet, bits, sockets and holder in a minimum of space. Ideal as a universal companion for a whole host of screwdriving applications. High quality bit holder with Kraffform Plus handle for pleasant, ergonomic working that prevents blisters and calluses. Hard gripping zones for high working speeds whereas soft zones ensure high torque transfer. Zyklop Mini Ratchet for rapid working when fastening jobs with a power tool or conventional hand tools are not feasible due to insufficient space. Rapid changeover from left to right direction and vice versa by using the switchover lever. Fast work possible by turning the thumb wheel (with the thumb) on the ratchet head. Simplest operation even with just one hand. Ergonomic ratchet head/lever. Kraffform geometry with perfectly shaped contact areas for the fingers.

The direct bit take-up in the ratchet head makes for a mini tool design and is ideal for low working heights. The small return angle of 6° allows for precise work. Robust drop-forged, full steel design. Torque of over 65 Nm. The Rapidaptor bit holder with free-turning sleeve: can be used as an extension; for rapid bit change without any special tools – even the very smallest bits with just a single hand. Tough viscous bits for universal use. Sockets for both manual as well as power tool operations for almost all applications.

Take it easy tool finder with color coding according to size – for simple and rapid accessing of the required tool. Featuring a good grip to allow easy pick-up even with oily hands. Ball stop groove, for hex head bolts and nuts; chrome vanadium steel, matte chrome-plated.

For all difficult-to-access applications.

Included Zyklop Mini Ratchet can withstand at least 65 Nm - far more power than can normally be transferred to such a small tool.

Thumb wheel enables more rapid screwdriving. The lever of the Zyklop Mini Ratchet only needs to be used for final tightening of the screw.

Simple switching between left and right operations.
